Bull charged Deputy Wood and multiple shots fired at the Bull. Bull layed down on eastside of road. Owner arrived on a 4 wheeler and told Deputy Wood to "get that piece of shit away from my animal" owner had a rifle and began what I believed to be loading it, his back was turned to me. Owner then walked up to the bull. Myself and Deputy Wood held our flashlights on the bull to provide the safest shot. The owner walked to the front of the bull and aimed back to the south where numerous 1st responders were attending to victims of a car crash. I said something like "no were not doing that." Deputy Wood then told him not to shoot and attempted to stop him. The Owner then shoved Deputy Wood sideways and began to raise the rifle toward Deputy Wood. I drew my sidearm and as I was drawing, the owner turned toward me and fired from the hip. I returned fire I believe 3 or 4 times until I observed the suspect fall. I did not observe deputy Wood fire but I believe I heard him fire. When the suspect fired I saw the muzzle blast and felt the shock. I then cleared out 2 other people that were with the owner. Bothe were handcuffed and searched for more weapons. Deputy Wood took the suspect rifle and threw it to the side of the road, we attempted to keep everyone out of the scene except EMT's. People I observed were a female that identified herself as the suspects wife and a male that said he was suspects nephew. There was another male that I told to leave but he returned and began picking up shell casings I placed him in cuffs and placed him in [illegible]

Polymer Tip
The polymer tip increases the ballistic coefficient and also initiates dramatic expansion upon impact – even at velocities as low as 1600 fps.

Higher Ballistic Coefficient
Hornady® combines the sharp, pointed polymer tip with the most aerodynamic profile for a high ballistic coefficient. The V-MAX™ profile also provides the maximum bearing surface for added in-flight stability.

Swaged Lead Core
The swaging process allows for precise formation of the core up and around the tip, with a cavity under the tip's stem. This allows the tip to build up energy before smashing into the core, causing dramatic fragmentation of the core and jacket.

Precise Boattail & Flatbase Designs
Utilizing the proper base design provides incredible in-flight stability for long-range shooting

Questions

Why didn't you tell us about the confrontation with Rumsey?

What does he mean what ever happens is not up to me + how did you know it was ISP coming?

Did mark Tamper with the Scene?

You had to be faster out of the holster because you thought he was a threat?

Cody

Jim C.
11/12/15

In your scene w/loaded gun.
"I should have acted upon it then" Yantis had said "get that piece of shit away from my animal."

Deputy Wood tried to intervene. I don't know if Deputy Wood grabbed the gun or pushed the gun. Used left hand to try to stop situation.

Y shoved Det. Wood sideways. Loss of balance. Saw him loose control of gun.
(Y turned to me.) I don't know why he turned to me. Pulled up and fired from the hip.
By time he was facing me. I don't know how far drawn I was.
Fired 3-4 rounds.
When rifle went off. Felt light breeze on leg, and stung one on side. Sharp pain.

Checked left hand for blood. Deputy Wood checked my right side

I said "Stop, no, hey ... I'm not sure what I said. That is the only time I spoke to the individual.
I fired 3 to 4 shots
I knew Deputy Wood fired.

Questions

Clarify when did you get the rifle out?

Did he put his other hand on his rifle or Yantis rifle?

Does he remember Joe Rumsy?

Should have recognized what sooner?

how did you expect Yantis to fall or put the gun down when you peal of 9-10 rounds before he could hit the ground

Why was your rifle coming up before you heard a gunshot?
(Didn't see the recoil)

Woods' interview

Responded - arriving b-4 Cody. Facing south. EMS already on scene.

While working on car w/EMS Cody arrived. They went to find injured cow. Doesn't remember who said. "Let's go find it."

Yantis spun gun passed me. Thrust it out towards Cody's chest.

Yantis turned to the left, passed me again. Rifle up (demonstrated)

Does story make sense when you place Yantis' bullet?

Deputies' contact w/Yantis?
Deputies knowledge of Yantis?

- Arrived before Cody - Crash
- Found bull in Yatis driveway injured
- Bull was "Looking pissed"
- Cody told dispatch to Contact the owner
- didn't want liability
- 2x Cody asked dispatch or advised dispatch
- fired 3 times at head it turned & several more stumbled
- Couldn't see a safe way to shoot the bull
- Thought it was bolt action, saw it being loaded, described scope, wood stock, blued barrel
- Put that piece of shit away
- Put had out but didn't expect to
- Cody walked up
- Yantis swung rifle
- My belief at the time that it was Yantis
- I fired as fast as I could
- I then heard shots I assumed was Cody
- holding rifle the whole time
- Cody called out ~~cattle~~ shots fired
- Wood called out shots fired need medics
- first medic was unknown male & Crissy Gripe
- Pulled Back
- I probably could of grabbed it
- Very close together
- Not sure of distance
- 10 feet maybe more

- He wasn't afraid he was agitated he was concerned about the safety problem or if it was worse than that
- Both
- the second shot was wood
- Pointed more of less at Cody
- I did not (Know Mr Yantis)
- he had one other encounter
- he was agitated to the driver
- I don't recall if he was agitated toward me
- 9 or 10 rounds
- maybe a couple feet close to Cody
- dont know if it was out
