RECEIVED DEC 06 2016 CONSUMER PROTECTION DIVISION
RECEIVED DEC 05 2016 OFFICE OF THE ATTORNEY GENERAL

The hospital in Lewiston Idaho has been a non profit hospital, supported by its citizens as such early 1900's.

The sale amount of this hospital should stay in the valley. If Ascension is allowed to walk off with 90 million+, the hospital may be crippled in any maintenance or expansion - That much profit seems exhorbitant and should be mandated to be used the charitable intent of donors.

Please do all that you can to see that the money from this sale stays where it belongs, in the Lewiston-Clarkston Valley, for the benefit of the non profit intent of original sellers - $1 to 120 million in less than 20 years.

St. Joe's has not paid taxes because they were non profit. Now they see for profit what is the deal about that!
