What is a Forensic Audit?

Statistics show that approximately 8 out of 10 loans written in the past several years have some type of violation written into them. This could lead to cash back to the client, principle reductions, loan modifications and in some cases complete relief of the loan liability.

What happens if violations are found?

Studies show over 80% of Mortgage Loan closing documents have violations!

Results of the Audit?

If violations are found, the borrower may be eligible for complete relief of the predatory loan or a very favorable loan modification.
