Message: I am one of the many RN's working @ St Joseph Regional Medical Center. I believe it would be a grave injustice to let Ascension "take the money & run". The good of the community and surrounding areas our hospital cares for would benefit more from the money of this sale than lining pockets of a company with NO personal investment toward our people. PLEASE consider how much this sale and all changes associated with the transition will affect approximately one third of this state. The majority of the money needs to stay with the hospital and be used to provide quality care for our citizens.
