Re: Public Records Request

Dear Mr. Fleck,

On December 4, 2015, we received your public records request for the following materials:

"any and all documents which pertain to any investigations."

Based on your request letter, it is our understanding that this request is limited to only such documents as may relate to a November 1, 2015 incident occurring in Adams County, Idaho and involving Jack Yantis.

Pursuant to Idaho Code § 74-103(1), I am writing to notify you that the public records you have requested, excluding any such records exempt from disclosure under Idaho Code § 74-105, will be provided to you on or before December 18, 2015, which is within ten (10) working days of receipt of your request.

Sincerely,

A handwritten signature in blue ink, reading "Gregory B. LeDonne".

### Incident

**11/02/2015 IMG9513181.jpg** - (Image - Hwy, emergency lights, flagger - taken by Fred Ross just before bull was shot.) (LF 15-53036 000322)

**11/02/2015 702\_0042.MP3** - (Audio - ISP Horst intvw w/ Fred "Joe" Ross and Wendy Hafer the day after the shooting. Stopped in Hwy behind emergency vehicles coming from New Meadows. Parked near flagger. Saw officer in road. All of a sudden bull Angus in front of truck. Bull comes out and officer with rifle shot that bull 8 times at least. That bull is on the road. Sat there for a minute. Flagger said move to turn out. Dark. Right as moving the Cat excavator came down off hill, could tell it is ranchers. Wendy

was driving. Four wheeler came down with one or two people and a rifle. Gal and guy. They didn't seem angry. Less than a minute Fred heard 5 shots popop, popop, pop, same gun as the one that shot the bull. That's all we heard. We only saw one deputy. Shows Horst a picture. Shots poppoppoppop. I jumped out heard What the fuck are you thinking? Screaming. Skidster hindered my view. Heard "get on the ground." Wendy was watching in rearview mirror. Officer checked lady on ground who said she did not have a gun. I got back in the car. Flagger ran down said there was a shooting. Brought an ambulance up the road. Guy walks by (wearing yellow) on phone or walkie talkie saying officer just shot somebody. This is crazy up here. Flagger said if you can get through get out of here. Drove past accident. Didn't hear anything before the shots. Some guy went off screaming after the shots. No gun fire after heard 5 shots. Was a car behind them. Small dark car. After pic was taken, Wendy pulled forward between officer with rifle and bull just as Cat skidster was coming down the driveway and the four wheeler was also coming right behind with a long gun. She thought the skidster was going to hit her. Just as they passed, they pulled over into a turnout. They parked. Windows down. They then heard the 5 shots and screaming.) (LF 15-53036 000321)

**11/01/2015 20151101 205152.mp4** - (Video clip of an emt/paramedic(?) taking a statement from Mrs. Yantis in the back of an ambulance. Yantis said: Jack went down to shoot the bull, the cop come up and jerked his arm and jerked him backwards and then they shot him, they just shot him for no reason.) (LF 15-53036 000667)

**11/02/2015 VN810105.MP3** - (Audio clip of Paradis and Joe Rumsey and male named "Mike" intvw at Yantis residence. Heard accident and saw lights of ambulance. SO called bull hit and requested take care of it. Jack said get rifle. Paradis brought front end loader. Officer opened up on bull and started shooting. Jack walked around to bull. Paradis parked "Cat". Jack walked up behind bull facing grassy area making sure he not pointing at nobody. Raised the gun up to shoot the bull and one of the cops grabbed him and pulled him back then everybody started shooting. They wouldn't stop shooting. Standing about the second cone from the Cat. Brass hit me. I thought they were going to shoot me. Bull laying against Dodge pickup. Jack was going to shoot the bull in the back of the head. He had his finger on the trigger. I don't know why that cop jerked him backwards or what was said to him but he stumbled and they started shooting. Didn't hear any words between them. Wife brought the rifle down to Jack. The one cop grabbed the shoulder and pulled him back and all hell broke loose. The one with the AR 15 he was all jazzed up I don't know if he is excited like that all the time I think he was the one who unloaded on the bull. I think he was the first one that shot. The other guy had a pistol. The pistol hit him here and hit his gun. Jack still had his gun down, across himself, I was from me to you when they were shooting. Runsey didn't see that much he was behind the ambulance. Heard Rowdy yelling to stop shooting. It didn't seem to faze them. Mike wasn't an eyewitness. Mike got cuffed. Threw Donna on the ground. They lost their minds for a minute. Paramedics were to south helping motorists. Tow truck driver came later. Donna having heart surgery right now. Jack was lined up. The cops were behind him. One grabbed him, pulled him back in between the two of them, when he stumbled back, the two of them stepped back and all hell broke loose. His finger was on the trigger, I didn't hear it go off. The fat cop said he (Jack) fired. The Cat was running and is noisy. I don't know why he grabbed him and pulled him back.) (LF 15-53036 000299)

**11/03/2015 702 0044.MP3**- (Audio – ISP interview with Cody Roland. Roland said worked for CCSO, Parma PD, Gooding PD, VCSO, ACSO. Working patrol covering day shift. No medication. No alcohol. Was leaving Saturday so he was trying to not generate much paperwork. Carries audio/video in vehicle but never takes out for crashes involving animals. Never even thought about getting the camera. Carries a Glock Model 30. Personally owned. Short mag in gun. 10 rounds. Can't tell whether he had 10 or 11 in gun at time of shooting. Department issued ammo. Qual in July 2015. No other firearms on him at time shooting. Soft uniform. Called to injury crash. EMS was already on scene. Swarms of people. Wood checks out on scene. Asks Wood where the animal is at. Walked North to see if could find accident location and animal. Shined light east up road/hill and saw bull. Tail up and head down. Blood and hide on left flank. 100 feet up road and 40 feet off hwy. Deputy Bauer was on scene as firefighter. Said bull is Yantis'. Bull came back down road. Woods veh. facing south on east side of highway (in driveway) kind of blocking bull in. Ambulance nosed in with headlights on bull. Told dispatch bull agitated. Told Wood several times not to shoot bull unless have to. Wood got rifle. Let rancher deal with

bull. Bull came at them several times. Bull charged right up to pickup. Bull walked out on hwy near center line and stopped. Bull puts head down and goes after Wood and I seen and heard some of the shots. 3 and then another 3. Bull did not even flinch. Bull walked across hwy and laid down near white dodge pickup facing north on white fog line. As soon as that happened a four wheeler pulled up with man and woman with rifle. I just knew it was the owner. Male on wheeler said "get that piece of shit away from my animal." I should have acted on it then. I automatically assumed he was talking about Woods rifle. Rancher upset when they have to kill their own animals. Neither Wood or Roland said anything. Rancher walked up with rifle in the air, I could tell he was loading it. He started walking toward the bull. Wood on his right. A lot of light there. I had the flashlight on the bulls head for to help rancher. Wood had instructed flagger to let south bound traffic through. Everything was clear to the north. It was safe to put bull out of its misery. When owner got towards bull he walked around to the side of the bull and I thought he was going to shoot under ear but there was a pickup sitting right there. I got ready to say something but he kept moving around the front. Wood was right there with him. All of a sudden he pulls that rifle up and was going to shoot straight south. The female on the four wheeler was south of the bull and all EMS to the south. I personally know how thick the bull's skulls are and regardless, I was not going to allow him to shoot south towards all those people. I said no,no,no or heyheyhey. Then Wood says something like "Hey we're not doing this." Owner kind of lifted his hat up and kind of took his attention off pulling the trigger right that second and then re-aimed like he was going to do it anyway and Wood tried to intervene. I don't know if Wood grabbed the gun, pushed the gun, what happened. Wood used his left hand to try and stop the situation. I started to get up to them. The owner for whatever reason just shoved Wood sideways. I seen Wood left leg was in air and he kind of hopped to the side on his right foot. As soon as Wood lost control of that loaded gun I reached down and to try an un-holster my pistol. The owner and this is what really bothering me is I don't know why he turned to me. Delicate situation. I don't know why but he just turned to me and pulled up and fired from the hip. By the time he was facing me I don't know how far drawn I was. It was almost simultaneous. I remember the blast of that rifle and it rung my bell. Between that rifle going off and my pistol. I just barely started getting my hearing back yesterday. I know I was zeroed in on that rifle. I know I had some tunnel vision because I don't recall anything peripheral wise. I could be way off but I pretty sure I fired three to four rounds. When that rifle went off I felt a very light breeze on my leg and a heavy one underneath my armpit between arm pit and side protection and I had a pain in my ribs. My left hand was over my right side and I'm holding my right side. It has spun me so my left side canted towards the suspect. I think I started to move. I remember after the first shot he was fidgeting with the gun. Some of it is super slow motion in my head. But that gun going off is like ten minutes in my head. The last shot I fired the rifle barrel started to go back down and he started to go backwards to his right. When that gun barrel went down I stopped firing. I wouldn't have been able to fire anymore because I was a little off balance. There had been a skidster coming up the south bound lane coming north. The driver of that come running up and yelling. The female got off the four wheeler screaming and yelling. I back up and yelled at them to get on the ground. Wood trying to deal with the suspect. I seen him grab and throw rifle. After Wood threw rifle the male complied and laid down and Wood took care of him. I holstered and was trying to cuff her. Cuff on left wrist. Only had one pair of cuffs. Somebody came behind me and said they need cuffs and took a pair out. The female couldn't be cuffed because of shoulder. Sat her on four wheeler. Wood went back to suspect. Male from ground said he was nephew. I'm checking my left hand for blood. Pain there. Female screaming why did you shoot him. Replied, because he shot me in my side. Wood come over and ran hand up side of vest and said where you hit. I don't know. Wood stopped another male who came into scene. Came back in and started talking to nephew. He starts picking up shell casings. Placed him under arrest. He dropped them. Got him cuffed. Sat him in the pickup. He apologized. Never did get his name. Somebody relieved me. EMS said you need to get in ambulance. Started ripping my clothes up. Wood already in ambulance. Chaotic scene. Started jotting notes in the ambulance. Asked me to call for the coroner. Mark and Vic showed up. Begging people to take my clothes. Rifle loaded by four wheeler. He standing east of four-wheeler near center line looking for cars. He and Wood were right at the head of the bull. The struggle broke out I started moving towards Wood to help him when gun went off. It was so fast. I didn't see the bullet, it could have been ten feet over my head, it could have hit the pavement. All I know is I felt was the gust on my leg, pain in my rib, and something that went by my side. Wood and suspect were right at bulls head. I don't know what I yelled. They were the only words I ever spoke to the person. Then Wood went to intervene. I wasn't really watching Wood. I was watching him. Getting nervous. About direction he was aiming. Was approx. 6-

10 feet from suspect at time of shooting. 6 feet was a little close. I was farther away until Wood got into the struggle. When he turned to the south, and aimed at bulls head. I yelled, he looked up. There was no way I was going to let him shoot south. Wood shoulder to shoulder either pushing gun or trying to get ahold of it. Shove Wood to the right. Off balance. That when he came up with rifle and touches round off. I will never forget it the rest of my life when that gun went off I should have been so much faster. When I felt the shock I thought that round should have never gone off. I should have beaten him. I just left my one year olds birthday party. I should have ditched that holster a long time ago. I would have never, in a million years, expected him to turn on us. He was looking down at the rifle. I had already fired. I'm thinking, why isn't he stopping? I thought he was reloading to go again. I didn't know. I was in shock. Why hasn't he stopped? I thought I missed. When he was initially loading that weapon his back was to me. Thought it was a lever action rifle. He's going to get another round in there. Never met suspect before. This is a different community. Slower pace. Three to four shots fired. I can tell you I know Wood did. When they put me in ambulance, Wood already checked my side, do you have any other injuries, I said my bell is rung, Wood said sorry about that. That's the only reason he knows Wood fired. All the running around and all the people at scene including guy picking up the casings would have changed brass locations. When guy went down and he backed away and to the side. Wood threw the rifle. Believes Yantis shot at him intentionally.) (LF 15-53036 000595)

**11/03/2015 702 0016.MP3-** (Audio – ISP interview with Daniel Kuter? EMT/Paramedic that worked on the car crash. Heard 3 shots to put bull down. Heard some more shots possibly 5 rapid fire. Heard “person down.” Described decedent beyond help medical help. Left when his first patient left and did not return to scene.) (LF 15-53036 000212)

**11/03/2015 702 0015.MP3-** (Audio – ISP interview with Charles Finicker? Firefighter/Ambulance Driver that worked on the car crash. Responded as the driver of the rescue rig. Assisted in cutting passenger from car. Was loading her in second ambulance when heard 3 gun shots to put bull down followed by 4 or 5 other shots. Heard other ambulance crew ask for airway equipment. Got oxygen out and took ten steps forward, didn't see anything, turned around and put oxygen back. Was then directed to direct traffic.) (LF 15-53036 000214)

**11/03/2015 702 0017.MP3-** (Audio – ISP interview with Melissa Dunem? EMT that worked on the car crash. Responded to page for car wreck. Got into ambulance with male who had been in car crash. While in ambulance heard a couple (2) gun shots figured putting bull down. Heard few more gun shots not too long after. Jumped in ambulance and shut door. Heard screaming but stayed with patient in ambulance. Gave blanket to one of the firefighters who asked for one. Transported patient to Weiser.) (LF 15-53036 000221)

**11/03/2015 702 0018.MP3-** (Audio – ISP interview with William Lakey? Firefighter first responder drove Squad 1 to the car crash. Responded to page for car wreck. Parked past the wreck. Cut female out of car. Male already in first ambulance. Heard a volley of shots to put the bull down. He had been warned of an injured bull. Second ambulance arrived. Heard second volley of shots. Thinks he may have heard a total of three volleys. Heard shots fired over the radio. He started running up the hill where the shots were fired. Saw man down and went to get EMTs. Saw EMTs roll victim over to open airway. Lady cuffed on ground yelling Jack. He realized it was Jack Yantis. He heard deputy sternly telling a man in camo to stop picking up brass and put it down. He put it down. Deputy had to cuff him to stop him. Then Mrs. Yantis started picking up some. He told her to stop because he didn't want to see her cuffed? He then backed away and stay out of the way.) (LF 15-53036 000258)

**11/03/2015 702 0045.MP3-** (Audio – ISP interview with Undersheriff Jeff Brown and Royce Bauer with ACSO & Council Fire Department. First responder volunteer EMT. As an EMT he responded to page for car wreck. Cut female out of car. While moving the rescue vehicle to the other end of the crash scene he met with Wood who was looking for the owner of the bull. Recognized the ear tag and brand as Yantis. Left Wood and heard first volley of shots. When near bull it acted aggressive. Spoke with Jack when he came down on his four wheeler. Jack wanted to know where his animal and officer was. He was alone at that time. Loaded female into second ambulance when he heard more shots fired. Someone has been

shot and they needed back-up. Headed up the hill. Roland cuffing lady. Other guy prone on highway not cuffed. Took second cuffs from Roland and cuffed Paradis. Got on radio at Rolands request to call Sheriff and Undersheriff to scene. Got EMTs to assist working on victim. Got out of the scene at that time. Didn't see anything. Just heard shots.) (LF 15-53036 001072)

**11/03/2015 702 0047.MP3**- (Audio – ISP interview with Tami and Conrad Evanow who travelling from Couer d' Alene south on 95. Saw lights slowed down. Behind green truck. Stopped. Officer said something to green truck and then approached us and asked us to pull to side of road north of the incident but facing south. Asked to go out and around and pull to the side of the road. Two ambulances were parked in north bound lane. Pulled around beside ambulance. Put as much closer to situation. As I pulled around cop car I saw big black bull lying on ground with head up salivating facing north. We were there 10 to 15 minutes. Unrolled window. As pulling forward as a tractor was coming down the hill and saw a gentleman with rifle and brown coat standing over the top of the bull. Everything looked calm. I kept looking. They're going to have to shoot this bull. Saw guy in brown coat with rifle put the gun down at the bull and then puts his hand over his forehead like this and wipes it. When he wiped his forehead she thought "God he can't do it." Then she heard a man's voice scream, "Shoot that thing." Screaming at him. He turns to face whoever was saying it, like this, gun still pointing towards where he would have to shoot the animal and goes like this, and all of a sudden shots went off. Four to five shots went off. Conrad grabbed her when shots went off. All pistol shots. I came back down and pulled her back in. They were throwing the guy to the ground and had a knee in the back and were cuffing him. Don't know if it was the same guy who got shot. It was the guy who had a rifle before that. Conrad they just shot him. But I couldn't see. He didn't go down to the ground. Guy that had the gun had gray hair and brown coat on. Could not describe the officer that shot. The officers gun was already up. Bulls head was at front tire. After the shots the guy holding the pistol yells "Are you F-ing stupid! Are you F-ing stupid?" "Get down!" Rifle was down the whole time. Didn't hear any shot from rifle. ) (LF 15-53036 000577)

[Zerry Greenwood](#) I do not believe you are anti-government everytime you say something against Obama, I know you love the USA... I love our police force we would be no where without one, but I don't appreciate being called anti-police everytime I say something about Zollman. wanting to effect a change to something does not make me anti-anything

[Shane Ogden](#) What change do you want?

[April 1 at 8:55am](#) · [Like](#)

[Zerry Greenwood](#) I have had thousand of dollars worth of cattle shot, only to call the police and have them come out and I quote "We don't get paid enough to dig around in a stinking cow" not one of the eight cows we had shot had any investigation done. 3 day's before Jack was shot I was on the porch it was dark I could see the lights of a pickup pushing cows down the road from Zollmans to my place. 15 minutes later he calls yells at me to get Rodney on the phone, yells he is sick of our cows. (they were coming off the mountain to home) and that they damaged his pickup and he was going to send us a bill. (he might want to check the LAW on open range cattle) then he hung up. What I want is someone who is sympathetic to ranchers.

[Brian Wood](#) Zerry, for reasons that I hope you will understand, I'm only going to make this one comment.

After the kid got out of lockup, and cows started being shot again, the Sheriff's Office DID investigate.

I wasn't a part of each investigation so I can't say how much was and wasn't done in each case.

In the case I was involved with, two deputies (myself and another) investigated. We humbly and accurately recognized our limitations in investigating this type of crime, so we asked Fish and Game to help (they have more experience investigating shot animals).

The resident IDFG officer from New Meadows came down and assisted us. With a metal detector, latex gloves, several knives, and heroic efforts to avoid vomiting, we dug through the carcass for hours.

The cow had been in the summer head for days, and words can't describe the sight or the smell, or what 1000 wiggling maggots feel like in the palm of your hand.

We did this for you and every other rancher affected by these crimes, and when there appears to be any reasonable hope of discovering useful evidence, we will gladly do it again.

[Zerry Greenwood](#) Well the first yr. our's were shot officers told us they did not get paid enough to dig around in a stinking cow, the second yr. they said they would come back when they melted down, we went back a few days later only to find the cows heads cute off, and not by the police department. Last yr. I asked for Fish and game officer to come because there were eagle feathers at the scene, unfortunately that cow was shot with a gun so big she had a 8in hole out the other side so no retrieval there. Shane asked me why I wanted a change, I gave him my experiences.

[Zerry Greenwood](#) Oh that ticks me "We humbly and accurately recognized our limitations in investigating this type of crime, so we asked Fish and Game to help" I asked for fish and game because of the eagle feather at the cow and the feathers and bloody paper towels. Hoping that they could discovery more then you guys... by the way my own investigation led me to a neighbor who said the bloody paper towels and feathers where her's. She had been killing chickens and the kids took the gut buckets over there, she didn't realize they had paper towels in them.

[Janet Fields](#) Well I think Brian Woods comment pretty much says it ALL. "We humbly and accurately recognized our limitations in investigating this type of crime, so we asked Fish and Game to help (they have more experience investigating shot animals)."

Seriously, these cases are a NO BRAINER. They needed F & G. I am not even in law enforcement and could figure this one out. This is EXACTLY why we need officers up here that have worked in and UNDERSTAND a ranching environment. Something this current regime is obviously seriously missing. Thank you Brian for weighing in on this. It proves our case for the need OF DESPERATE CHANGE in the Sheriff's Dept. Like Tom Watts said, "he will dig through ANY thing to find the evidence. Stinky cows don't bother him." We need REAL MEN with REAL knowledge in that office. Not a bunch of city slicker wimps. They can go work in Boise and keep their little delicate hands clean. TOM WATTS for ADAMS COUNTY SHERIFF!!!!

[April 1 at 2:19pm](#) · [Like](#)

[Janet Fields](#) That actually is a VERY SCARY statement by Woods. If they can't handle anything more than a speeding ticket then maybe we need to shut that office down until a REAL Sheriff that knows how to handle business can be elected.

I would like to go on record as saying I think you should have left Jake Montana's comments up, they only served to make him look foolish. Tom is 50 something, a patrol officer for two departments, of course he can drive a car. And if Tom was not a patrol officer for long, I have to ask myself what outstanding qualities does he possess that got him promoted!?! If Jake thinks the people of Adams County's biggest concerns for their sheriff is how much time he spent behind the wheel of a car, maybe it's time for him to move home, and see the real issues facing Adams County, one of the least being our police force sitting on their fat asses in their cars.

Dear Mr. Wasden, I am submitting to you something that I find disturbing and are looking to you for guidance and advice on this subject. I recently was threatened by an Adams County Sheriff Deputy. I was on Facebook commenting on another friends page when he entered a veiled threat to try and silence me about commenting on what is going on within Adams County and our Sheriff Dept. I found it very disturbing and have been told by several officers that I respect and do not serve Adams County that I need to report his actions to you. After the article that just came out in the Adams County Record I do not feel comfortable taking this to Sheriff Ryan Zollman. Can you instruct me further on how to proceed. Thank you, Janet Fields

**Brian Wood** **Zerry**, for reasons that I hope you will understand, I'm only going to make this one comment.

After the kid got out of lockup, and cows started being shot again, the Sheriff's Office DID investigate.

I wasn't a part of each investigation so I can't say how much was and wasn't done in each case. In the case I was involved with, two deputies (myself and another) investigated. The cow had been in the summer head for days, and voters can't describe the sight or the smell, or what 1000 wriggling maggots feel like in the palm of your hand.

We did this for you and every other rancher affected by these crimes, and when there appears to be any reasonable hope of discovering useful evidence, we will gladly do it again.

**Zerry Greenwood** On that note, me "We humbly and accurately recognized our limitations in investigating this type of crime, so we asked Fish and Game to help" I asked for fish and game because of the eagle feather at the cow and the feathers and bloody paper towels. Ho. See More

**Janet Fields** Well I think Brian Woods comment pretty much says it ALL. "We humbly and accurately recognized our limitations in investigating this type of crime, so we asked Fish and Game to help (they have more experience investigating shot animals)." Seriously.

**Zerry Greenwood** But the thing is they didn't bring Fish and game into it... I DID!!!

**Janet Fields** Doesn't matter I know you did. He just admitted that NO ONE in that Department knows how to handle this type of a case or investigate it. I would think this would be an easy one. God help us if it was someone getting shot. On what did it happen too?

**Janet Fields** That actually is a VERY SCARY statement by Woods. If they can't handle anything more than a speeding ticket then maybe we need to shut that office down until a REAL Sheriff that knows how to handle business can be elected.

**Zerry Greenwood** Rodney didn't want me getting involved cause Randy had his nose up the boy's ass for violations. And I said that's why I want him the boys where guilty pled guilty and Randy was doing his job, that's why I wanted him... because he does his JOB!!!

[Zerry Greenwood](#) I have had thousand of dollars worth of cattle shot, only to call the police and have them come out and I quote "We don't get paid enough to dig around in a stinking cow" not one of the eight cows we had shot had any investagation done. 3 day's before Jack was shot I was on the porch it was dark I could se the lights of a picup pushing cows down the road from Zollmans to my place. 15 minutes later he calls yells at me to get Rodney on the phone, yells he is sick of our cows. (they were coming off the mountian to home) and that they damaged his pickup and he was going to send us a bill. (he might want to check the LAW on open range cattle) then he hung up. What I want is someone who is simpathetic to ranchers.

[Brian Wood](#) Kerry, for reasons that I hope you will understand, I'm only going to make this one comment.

After the kid got out of lockup, and cows started being shot again, the Sheriff's Office DID investigate.

I wasn't a part of each investigation so I can't say how much was and wasn't done in each case.

In the case I was involved with, two deputies (myself and another) investigated. We humbly and accurately recognized our limitations in investigating this type of crime, so we asked Fish and Game to help (they have more experience investigating shot animals).

The resident IDFG officer from New Meadows came down and assisted us. With a metal detector, latex gloves, several knives, and heroic efforts to avoid vomiting, we dug through the carcass for hours.

The cow had been in the summer head for days, and words can't describe the sight or the smell, or what 1000 wiggling maggots feel like in the palm of your hand.

We did this for you and every other rancher affected by these crimes, and when there appears to be any reasonable hope of discovering useful evidence, we will gladly do it again.

[Zerry Greenwood](#) Well the first yr. our's were shot officers told us they did not get paid enough to dig around in a stinking cow, the second yr. they said they would come back when they melted down, we went back a few days later only to find the cows heads cute off, and not by the police department. Last yr. I asked for Fish and game officer to come because there were eagle feathers at the scene, unfortunately that cow was shot with a gun so big she had a 8in hole out the other side so no retrieval there. Shane asked me why I wanted a change, I gave him my experiences.

She had been killing chickens and the kids took the gut buckets over there, she didn't realize they had paper towels in them.

Seriously, these cases are a NO BRAINER. They needed F & G. I am not even in law enforcement and could figure this one out. This is EXACTLY why we need officers up here that have worked in and UNDERSTAND a ranching environment. Something this current regime is obviously seriously missing. Thank you Brian for weighing in on this. It proves our case for the need OF DESPERATE CHANGE in the Sheriff's Dept. Like Tom Watts said, "he will dig through ANY thing to find the evidence. Stinky cows don't bother him." We need REAL MEN with REAL knowledge in that office. Not a bunch of city slicker wimps. They can go work in Boise and keep their little delicate hands clean. Tom is 50 something, a patrol officer for two departments, of course he can drive a car. And if Tom was not a patrol officer for long, I have to ask myself what outstanding qualities does he possess that got him promoted?! If Jake thinks the people of Adams County's biggest concerns for their sheriff is how much time he spent behind the wheel of a car, maybe it's time for him to move home, and see the real issues facing Adams County, one of the least being our police force sitting on their fat asses in their cars.

**SYNOPSIS:**

On 12/14/2015, Idaho State Police (ISP) Detective Jason Horst supplied Office of Attorney General (OAG) Chief Investigator Michael Steen with up-to-date copies of his investigative documents. He explained the investigation is still ongoing and will supply further investigative records as they are completed.

**INVESTIGATIVE INFORMATION:**

1. One Verbatim thumb drive containing copies of reports, digital media, images.
2. Two CD's containing video and audio of Adams County Sheriff (ACSO) Deputies Cody Roland and Brian Wood's mock crime scene walk-throughs. Horst explained these "demonstrative" CD's are a combination of the audio from the walk-throughs synchronized with the video footage of the walk-throughs. He carried an audio recording device while a camera was filming from a distance too far to catch what was being said. He explained that the raw audio and video clips are held on the thumb drive.
3. An email dated 12/14/2015 to Horst from Danielle Hendershot listing the status of evidentiary lab submissions to the ISP State Lab.
4. A large demonstrative diagram of the crime scene. Detective Horst explained that he would supply the OAG with a digital copy of the diagram at a later date.

**Subject:** Documents are up

Good morning,

All of the processed files for the Adams County case are now up in Laserfiche and Time Matters. In Time Matters they're linked to case 15-53036, and currently marked as Supplement (this can be adjusted). In Laserfiche they're in the folder \SPU cases\Adams County. Feel free to look them over when you have a chance. My morning is fairly busy, but I'd be happy to meet with anyone that wants to discuss the layout and possible adjustments this afternoon. If there's a time that works well, let me know.

Here's a list of the documents that need more attention:

- ✓ Supplement 0009 - File named "STORE N GO (E) shortcut.lnk"
  - Shortcut pointing to an external hard drive, likely should have had the contents copied over.
- ✓ Supplement 0030 - has a .cda file, meaning that an audio CD was improperly ripped.
  - There is no audio to go along with this .cda file.
- ✓ Supplement 0039 - has a WindowsRE (Recovery Environment) folder, with a 260 MB archive.

- Looks like it was accidentally burned to a disc which was later transferred to the jump drive that we received.
- ✓ Supplement 0053 - McCall Police Department folder contains a shortcut to an audio file.
  - Shortcut points to: "M:\Case File Update 1.4.16\Roland History\McCall Police Department\Track01.cda"
  - The actual audio was not transferred.
- ✓ Supplement 0055 - has a .cda file, meaning that an audio CD was improperly ripped.
  - There is no audio to go along with this .cda file.

1. Supplement 0009 – File Named "STORE N GO (E) Shortcut.ink"  
This link was placed in Supplement 0009 by accident. This link leads to the beginning of the thumb drive.
2. Supplement 0030 – has a .cda file, meaning that an audio CD was improperly ripped.  
  
The CD audio was not able to burn onto the thumb drive. We have provided a copy of the audio on a CD.
3. Supplement 0039 – has a WindowsRE (Recovery Environment) folder, with a 260 MB archive.  
  
This was an extra folder mistakenly installed and is used (contains no data).
4. Supplement 0053 – McCall Police Department folder contains a shortcut to an audio file.  
  
Track01 was mistakenly installed by McCall Police Department, prior to sending to ISP.
5. Supplement 0055 – has a .cda file, meaning that an audio CD was improperly ripped.  
The CD audio was not able to burn onto the thumb drive. We have provided a copy of the audio on a CD.

Honorable Lawrence Wasden;

As a Board, first we would like to express our appreciation that your office has agreed to review and investigate the case involving the death of Jack Yantis last November. We are aware that the Idaho State Police worked on this case for a number of months before turning their results over to your office.

We write at this time to convey to you that our community continues to want and need to know the results of this investigation. The Board understands that there has been extensive work into this matter.

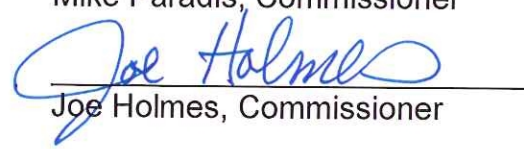

Thank you for your efforts to bringing your results and action on this matter.

Respectfully,

I am writing this letter in reference to the Murder of Jack Yantis I find that this investigation has taken way to long and I feel there is no hope in getting Justice for Jack, with ISP in charge I have no faith in our Idaho State Police they are corrupted. You took an Oath for Justice and to eliminate corruption. It is your duty to Find these two officers guilty of Murder. This back and forth stuff is crap. The ISP should of released the finding immediately instead now your investigating what there findings are. This is stall tactics because you are afraid of what the Friends and Family of Jack Yantis will do if you do not find them guilty and charge them with Murder. There is an Innocent family that has been through hell and back. You will never understand that kind of Pain. The People demand Justice Immediately not tomorrow or next week Today!!!!

Dear Detective Horst,

This letter confirms our discussions regarding testing of the DNA swabbed from the .204 bullet. It is our understanding that a small amount of blood was swabbed from that round and that you plan to have the ISP lab test the swab in hopes of determining the source of the blood. You have explained that this testing will consume all of the DNA and that further testing will not be possible. We agree the test is necessary, and thus, we authorize you to proceed.

I appreciate your patience on this issue, and I urge you to contact me with any other questions you may have. Thank you.

Very truly yours,

Chairman Brown and Commissioners Paradis and Holmes:

Thank you for your letter regarding the *Yantis* matter, and your expression of appreciation for the work my office is doing on the tragic shooting of Jack Yantis.

The Office of the Attorney General (OAG), acting as special prosecutor, has the responsibility of determining whether criminal charges should be filed in the wake of the events that unfolded on November 1, 2015. From the beginning, I have viewed this as an extremely serious undertaking, one that requires a detailed and deliberate analysis of the evidence gathered by the Idaho State Police (ISP), along with applicable law. The investigation done by ISP was thorough and comprehensive, and it is important for everyone to recognize that this is a very complex case.

From the start, I've instructed my investigators and prosecutors charged with reviewing the evidence, to be equally as thorough. I believe it is crucial for the OAG to conduct a careful analysis of how the law applies, in light of the evidence gathered. It is important for you, and for the people of Adams County, to understand this process takes considerable time. e.g. *after the elections*

For that reason, I have not imposed any arbitrary timelines on the OAG's review of this case. I understand that the residents of your county, and others, are anxious for a resolution. Please understand that I have no desire to delay this process. It is, however, of the utmost importance that our decision on how to proceed be the correct one, based on the evidence and the law. Justice demands nothing less.

*until after the election*

Your patience is very much appreciated as this process continues. Thank you again for your support.

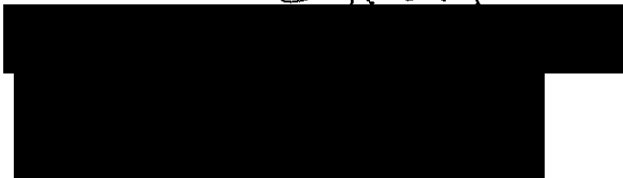

Sincerely,

LAWRENCE G. WASDEN

**SUBJECT: "THE KILLING OF JACK YANTIS THE NIGHT OF NOVEMBER 1, 21015"**

**(What Ever You Do, What Ever You Do ~ Protect Thy Brethren, Who Wears The Blue..")**

Given the fact ~ that Adams County deputy, **Brian Wood**, via, his "Facebook" pages considers himself to be some type of a "**Rambo-FBI-Trained-Sniper**" ~ who, repeatedly demonstrated his utter disdain for Idaho's legal system ~ it's no wonder **Brian Wood** was involved in the deadly shooting death of Jack Yantis on the night of November 1, 2105.

Long before **Brian Woods** ever became a deputy for Adams County ~ **Brian Wood** demonstrated his utter disdain for any type of highway legal authority by repeatedly violating Idaho's Traffic Laws on **FOUR** separate occasions.

And, not satisfied with just having incurred **FOUR** Idaho Traffic Violations, **Brian Wood** was also **TWICE** cited for violating Idaho's Fish and Game Code....

(If one would have cared to look ~ since, these "**Attitude-Defiant-Red Flags**" were readily evidenced and available in Idaho's State and County records ~ pray tell, how did **Brian Wood** ever obtain a Idaho Law Enforcement Badge in *the first place..?*)

Between **2001** and **2005**, ( then citizen ), **Brian Wood** flaunted his disdain for Idaho's legal authority by repeatedly violating Idaho's Traffic Laws.

Per County Court and State Records ~ and, long before he ever became a deputy for Adams County ~ **Brian Wood** was ticketed and paid Court fines for "**FOUR**" "**Separate**" Idaho Traffic Violations:

1. **Brian Woods' FIRST** Traffic Violation was for "**EXCESSIVE SPEEDING....**"
2. **Brian Woods' SECOND** Traffic Violation was for "**EXCESSIVE SPEEDING..**"
3. **Brian Woods' THIRD** Traffic Violation was for "**CARELESS & RECKLESS DRIVING.**"
4. **Brian Woods' FOURTH** Traffic Violation was for "**FAILURE TO PROVIDE VEHICLE REGISTRATION.**"

Yet, on November 30, 2011, even with **FOUR** separate Idaho Traffic Citations under his belt, **Brian Wood** was somehow approved to become a revered "**Law**" Enforcement Officer for the City of McCall, Idaho; by whom..?

Now, instead of being pulled over for violating Idaho's Traffic Laws ~ **Brian Wood** became the **Fox** in the **Henhouse** ~ writing the very same traffic citations for the very same offenses he had been found **Guilty** of committing...

Also, according to Idaho's Repository Court Records, and, while, he was employed as a Police Officer for the City of McCall ~ in that same year of 2011 ~ **Brian Wood** also pleaded **GUILTY** and was fined **\$715** in fines for **TWO** separate **FISH & GAME VIOLATIONS...**

1. The **FIRST** violation was for **Illegal Possession...** "**Unlawfully Possession Of Big Game-Wildlife.**"
2. The **Second** game violation was for **Not Having ...** "**A Big Game Hunting Permit.**"

("Screw The Law..."; I am the Law ~ the proud member of Idaho's McCall's Law Enforcement community, am I not...?)

As a newly sworn "**Law Enforcement Officer**" for the City of McCall, and, while on routine traffic patrol the night of **July 6, 2011**, **Brian Wood** stopped McCall's resident, **Rodney Whaley**, **79 years of age** in an attempt to issued him a Traffic Citation for **"Speeding...?"**

How ironic; according to Court records ~ ~ ~ ~

**"SPEEDING; your Honor"** ~ **"He said he was only doing 37 in a 35..."**

Given what happened shortly after this traffic stop, **Brian Wood**, then, also charged **Rodney Whaley** with **"Resisting and Obstructing an officer..."**)

(On August, 17, 2011, the violation of I.C \$ 18-705 (**Resisting and Obstruction Officers**) was dismissed; the court amended the charges, which, required a payment of a \$100.00 bond; the case was dismissed with prejudice on August, 17, 2015.)

During those ensuing moments during that traffic stop ~ **Brian Wood** body-slammed this **79 year old man** ~ **Rodney Whaley** ~ onto **Brian Wood's** patrol car hood; which resulted in **Rodney Whaley** being rushed for immediate medical assistance at McCall's, St. Alphonsus Regional Medical Center.

(Prior to **Rodney Whaley** being body-slammed on the hood of **Brian Woods'** patrol car on **July 6, 2011**, he was already suffering from two recent-stitched-heart surgeries, per a heart valve replacement. He was also suffering from severe arthritis. He wore two prominent Black and Silver protruding **HEARING AIDS** and drove a vehicle which had a **"Persons With Disabilities"** License Plate...)

On **July 25 and 28, 2011**, as result of this physical altercation at the hands of **Brian Wood, Rodney Whaley**, again, returned to McCall's St. Alphonsus Regional Medical Center hospital for further medical treatment.

**Rodney Whaley**, 79 years of age was still suffering and had difficulty with his **Breathing**. He had **High Blood Pressure**. He subsequently developed **Pneumonia** and a **Staph Infection** ~ all of which were directly related to the night of July 6, 2011, when, he was body-slammed on **Brian Wood's** patrol car.

As a result of that physical altercation ~ **Rodney Whaley** sued **Brian Wood** and the **City of McCall** in THE UNITED STATES DISTRICT COURT FOR THE THE DISTRICT OF IDAHO for violation of his Civil Rights. (**Case #: 1:11-cv-00577-EJL-CWD**)

(In April, 2012, the City of McCall elected to monetarily settle the lawsuit outside of court. (\$14, 500....?)

And according to Police Officers Standards and Training Center (**POST**) , the McCall's Police Department terminated **Brian Wood** on November 30, 2011; thereafter, he suddenly disappeared ~ either, fired, terminated, resigned, etc ~ take your pick...?

**("What Ever You Do, What Ever You Do ~ Protect The Brethren, Who Wears The Blue...")**

Yet, even, with all his personal and Law Enforcement baggage, **somehow, NINETEEN** months later, **Brian Wood**, suddenly appeared in Council, Idaho seeking a new law enforcement job.

And, surely enough, on **June 27, 2013**, **Brian Wood** became a **newly** deputized Law Enforcement Officer for the Adams County Sheriff's Department...?

**("What Ever You Do, What Ever You Do ~ Bury His Records, Who Wears The Blue...")**

Surely, but surely, a belated, **"Controversial Body-Slammed-Sued-Cop"** ~ seeking new law enforcement employment away from his distant cross-state-city ~ should have undergone some type of **Vetting** ~ per, at least a **BACKGROUND INVESTIGATION** wouldn't you think...?

Perhaps, **vetted** by Idaho's **POST** with a pre-employment **Polygraph Test** to ascertain his mental state of mind relative to his violent behavior demonstrated some **nineteen months ago** ~ causing the City of McCall and **Brian Wood** being sued for violating **Rodney Whaley's** Civil Rights ...?????

**("What Ever You Do, What Ever You Do ~ Bury His Records, Who Wears The Blue.")**

And, then there's **Cody Roland**, another, prior violator of Idaho's Traffic Laws.

According to Idaho Repository Court Records ~ **Cody Poland** paid traffic fines for **TWO** Traffic Violations; one for **"EXCESSIVE SPEEDING"**; the other for **"FAILURE TO WEAR A SEAT BELT."**

Never-The-Less, on April 17, 2000, ~ after being hired as a Detention Deputy for the Canyon County's Sheriff's Department ~ **Cody Roland** commenced his 15 year **Musical Chair Employment** with **SIX** different Idaho Law Enforcement Agencies.

And, since, his Personnel Records are sealed - the public will never know why **Cody Roland** on **SIX** different occasions departed the doors of one Idaho Law Enforcement Agency, one day ~ only to appear the very next day at the doors of another Idaho State Law Enforcement Agency...?

**("What Ever You Do, What Ever You Do, Protect Thy Brethren, Who Wears The Blue..")**

On June 30, 2013 Boise's newly-appointed Police Chief attempted to captivated his Boise City Club's audience with his new-found-leadership words of intended **Wisdom..... "TRUST"** is a foundational requirement for effective community relationships. **"TRANSPARENCY"** is fundamental toward maintaining that **"TRUST."** Indeed, each are required for success, **BUT, neither is of Value, UNLESS** we have the **Right People** wearing the **"BADGE."** (Emphasis added)

(Quite a statement..... **"TRANSPARENCY AND TRUST"** ~ , **BUT, neither is of value ~ UNLESS, WE HAVE THE RIGHT PEOPLE WEARING THE "BADGE".....!**)

Based on his egotistical mind-set, his sheer arrogance and repeated violations of Idaho's Traffic Laws ~ plus, his violations of Idaho's Fish & Game Code, and, the November 11, 2011 **Civil Rights Lawsuit** filed against him by **Rodney Whaley** for slamming him down on **Brian Wood's** car hood ~ the question is who approved, and, why was **Brian Wood** ever allowed to wear that **"Second"** Law Enforcement **"BADGE"** as a Deputy for the Adams County Sheriff's Department.....?

**("What Ever You Do, What Ever You Do ~ Protect Thy Brethren, Who Wears The Blue")**

As Leonard Pitts, Jr, columnist for the Miami Herald, recently stated in his weekly column... ..**"WITHOUT POLICE ACCOUNTABILITY, JUSTICE IS EXTREMELY TENUOUS...."**

**Case No.** \_\_\_\_\_

IT IS HEREBY ORDERED, AND THIS DOES ORDER, pursuant to I.C. §§ 31-2603 and 31-2604, that the Idaho Attorney General, or his designee, be appointed as Special Prosecutor throughout the duration of all further proceedings in this case, in that he/she is a suitable person to perform the duties required in investigating and prosecuting this case and he/she has agreed to serve as Special Prosecutor in this matter.

The Court further FINDS appointment of a Special Prosecutor is necessary and proper because

- X   (a) there is a conflict of interest or appearance of impropriety prohibiting the Adams County Prosecuting Attorney from fulfilling his duties, or
- (b) the Adams County Prosecuting Attorney seeks assistance in order to Utilize the unique expertise and additional resources of the Office of the Idaho Attorney General.

**COMES NOW** Adams County Prosecuting Attorney Matthew W. Faulks and, pursuant to I.C. §31-2603, petitions this Court for the appointment of a Special Prosecutor and, in support of this request, states:

1. I am the duly appointed Prosecuting Attorney of Adams County;
2. I have the duty to prosecute all felony and certain misdemeanor criminal actions committed in Adams County pursuant to I.C. §31-2604 as Prosecuting Attorney;
3. I petition this Court to appoint the Idaho Attorney General, or his designee, a member of the Idaho Bar Association and an experienced attorney in criminal prosecution, as Special Prosecutor in that he/she is a suitable person to perform the duties required of me and he/she has agreed to serve as Special Prosecutor in this matter, and:  
  X   (a) A conflict of interest or appearance of impropriety prohibits me from fulfilling the aforementioned statutory duties, or

\_\_\_\_\_ (b) I seek assistance in order to utilize the unique expertise and/or additional  
resources of the Office of the Attorney General.

---

4. I petition this Court to appoint the Idaho Attorney General, or his designee, as  
Special Prosecutor pursuant to I.C. §31-2603 throughout the duration of all further proceedings in  
this case.

**DATED** this 18th day of November, 2015.

Hello Paul,

You have likely heard about the officer-involved shooting which occurred in Adams County. ISP is currently investigating that incident. I will be seeking an independent review of this matter. Decisions about prosecution will represent a conflict of interest for my office. Is this a case that the Office of the Attorney General would be available to review in the role of a special prosecutor? There may be other agencies available if the OAG does not feel best-positioned to pursue this. I know that you have helped our office and Adams County in the past and I have appreciated those efforts. If you need to talk about this you can also reach me on my cell phone at [REDACTED] Thank you.

Tami, I still have not heard back from you on how I can proceed against Mr. Rolland. He is still on FaceBook, which I understand he has a right to be and I have BLOCKED him, but I need to know. Is he coming back as a Officer in Adams County and when? I sincerely want to file a restraining order against him. Since Jack Yantis was killed our Sheriff has acted so irresponsibly and is not taking threats from other residence in Adams County seriously. This seems to be getting worse as your Department allows the two officers that shot and killed Jack Yantis to walk around beating their chests. The people in this community, my husband and myself are tired of being afraid of the very people who are supposed to be here to protect and serve us. I am tired of feeling like I have to have a tape recorder on PLAY every time I go to the grocery store in town or that our CCP may get us shot by the very people who issued them. Yes elections are coming up, but they are a long way off and the situation is getting darker as time goes by and the AG does nothing in this murder case. PLEASE reply to my earlier message and let me know what I can do personally to assure the safety of myself, my family and my property.

Re: Public Records Request

Dear Mr. Fleck,

On December 4, 2015, we received your public records request for the following materials:

"any and all documents which pertain to any investigations."

Based on your request letter, it is our understanding that this request is limited to only such documents as may relate to a November 1, 2015 incident occurring in Adams County, Idaho and involving Jack Yantis.

Your request was reviewed by a Deputy Attorney General. Your request is granted in part and denied in part.

Your request is granted to the extent of the enclosed documents. It is denied to the extent that these documents have been redacted pursuant to Idaho Code § 74-105(1) and Idaho Code § 74-124(1)(c), which provide that active investigatory records are exempt from disclosure where disclosure would result in an unwarranted invasion of personal privacy.

Your request is also denied to the extent that other documents have not been provided. These documents are part of an active investigation and are exempt from disclosure under Idaho Code § 74-105(1) and Idaho Code § 74-124(1)(a)-(b), which provide that active investigatory records are exempt from disclosure where disclosure would interfere with an enforcement proceeding or deprive a person of a right to a fair trial.

To the extent this response constitutes a partial denial of your request, your sole remedy is set forth in Idaho Code § 74-115, pursuant to which you have the right to appeal by filing a petition in the Fourth Judicial District of Idaho within 180 calendar days of the date of mailing of this notice.

Sincerely,

Hello Jason,

I have conferred with the Sheriff's office on this matter. While the investigation is pending we would generally defer to the OAG/ISP on the release of information. However, we are declining interviews by Yantis representatives with county employees while there is the prospect of pending litigation. Yantis representatives will need to use the appropriate process to have further contact or interviews with county employees while litigation remains pending.

The dispatch logs do not contain information that is likely to have an adverse impact on pending investigations. These have previously been released to another requesting party. There does not appear to be a reason to keep the logs from the Yantis representatives, and to the best of my knowledge these are being released.

Thank you for your continued assistance on this matter.

Subject: request by Yantis investigator to interview dispatcher and obtain copy of dispatch log?

Dear Matthew,

I spoke yesterday with Undersheriff Brown re: the above-mentioned request. I advised him that since our only role is to review ISP's investigation for assessment of potential prosecution, I could not provide him legal advice as to whether the requested documents should be produced as public records. I also advised that it would not be appropriate for us to direct the dispatcher, or any other witness, not to talk to the private investigator. Finally, I suggested that Undersheriff Brown follow up with you on these issues and he indicated he would do so.

While it is obviously your call to make, I believe the dispatch log is something that would normally be produced as a public record. I also believe the Undersheriff's concern is that the log may be exempt from production as a public record IF such production might affect our investigation. If you'd like me to weigh in on the factual issue of whether our investigation may be affected, then please provide a copy of the log or other documents the Sheriff's Office is considering producing. In no way am I trying to direct or influence your advice as to whether the log should be produced as a public record. As stated above, that is your call to make. However, I fully appreciate the delicate nature of this situation and the care you and the Sheriff's Office are taking to maintain the integrity of this process. So, if I can help by letting you know if our investigation might be affected, then please e-mail me copies of whatever the Undersheriff is contemplating releasing.

I thank you for your attention to this matter, and I urge you to contact me with any questions you may have.

**Subject:** Cody Roland re-interview

Hi Jason,

Dinius is leaving town this Sunday and won't be back until June 1<sup>st</sup>. So, I've tentatively scheduled a re-interview of Roland for June 3<sup>rd</sup> @ 10:00. Please let me know if that works for you? We'll most likely have you take the lead on the interview and I (or another DAG?) will probably sit in with you. Of course, we'll talk through the specifics well beforehand.

Thanks, Jason

Jason,

I should have everything else redacted and ready to give you by tomorrow morning. Is your staff nearly finished with what I gave you last week? If so, I would be happy to stop by and pick up that flash drive.

Also, my redaction ladies both go on Vacation this Friday. They won't be back until mid-August. Therefore, if you need them to alter or change anything further, it will need to be before this Thursday. As you find things that need to be altered or changed, please have your people reach out directly to my redaction person. Her contact information is:

Angelie Hoxie

Direct Line: [REDACTED]

Let me know about the flash drive.

Thanks,

I just got off the phone with the Adams County Coroner. She has not completed her report and is still waiting on toxicology results to finalize her report. She estimated she will have her report completed in 6 weeks. The reason she called me was to get reassurance regarding a public records request from the Idaho Statesman for her results so far. I informed her not to release any information and to deny the request based on the fact her report and findings will be used in our active ongoing investigation. She agreed with my assessment of the situation and decision. She said she would deny the Statesman request based on my reasoning. If I was wrong in my assessment please let me know ASAP. It is getting difficult to keep control of this investigation.

Good Morning ~

I will confirm with Tom and get back to you ASAP. However, I can tell you that the testing Tom will do will confirm whether or not nitrites are present and then whether or not lead is present – two substances consistent with gun powder. If neither of those items are present, further testing may show something else that COULD be consistent with something coming from the discharge of a firearm but may not necessarily be gun powder.

I have a call into Tom and will get back to you ASAP! Thank you!

One question. If the spot in question did NOT come back as lead. Would that mean it is not gunpowder? Because if it is not gunpowder I'm not sure I care what it is but I will talk to the prosecutor today.

Good Morning Det. Horst ~

I wanted to touch base with you quickly to see if you have decided whether or not it would be okay for us to remove a small section of the officer's shirt to retain for further analysis should the test for lead come back negative. To refresh your memory, doing this would not impede the test for lead that Tom Morgan would be conducting on the area of interest. Once Tom does the test for lead no further testing can be done. By removing a small section of the shirt prior to the lead testing, it can be retained for further analysis if the area of interest turns out NOT to be lead.

Additionally, to give you a recap of what has been done so far:

- 1) All three firearms have been test fired at distances of contact through 72 inches.
- 2) A thorough macroscopic exam, microscopic exam, and chemical analysis has been conducted on the down jacket.
- 3) A thorough macroscopic exam and microscopic exam has been conducted on the officer's shirt and pants.
- 4) Preliminary observations have been conducted on the remaining items of clothing (vest, thermal shirt etc.)
- 5) Preliminary trajectory examination has been conducted on the Ruger.

As soon as we hear from you we will proceed with the chemical processing (and possible further analysis) on the officer's shirt.

I also wanted to inform you that we will be exceeding the 10-12 hours of examination time originally quoted due to the necessity of processing multiple areas on several garments, the possibility of further examination on the officer's shirt, as well as the possibility of further test firing (depending on the result of the chemical analysis conducted on the officer's shirt). I would estimate an additional 6-10 hours all depending on where the analysis takes us. We can most certainly keep you informed along the way. I wanted to be sure that you were aware of this and also that we have permission to continue with the analysis. We will of course work as quickly and efficiently as possible.

Feel free to email or call me with your responses! Thank you for your time!

Allison

Greg -

Thanks for trying to make this happen. Susan Warner would not talk to us - insisting that Matthew Faulks must decide. He insists, as illustrated below, that it is Susan who must decide. Right hand, this is left. Left hand, this is right.

So I assume that Dr. Groben will head home and we will wait until discovery to get the obvious.

I know this won't do it but we tried. Warner says that it must come from the prosecutor, and he won't respond.

Don't feel like you need to stick around. We are assuming they will not get it done.

Matthew,

Thanks for working through this with us. I know you are planning to follow up with the Coroner, but I wanted to let you know I just received a voice message from Chuck Peterson. Groben apparently told Chuck that he'd need a fax or e-mail from the Coroner advising that it's okay for him to speak with Chuck and his expert before he could actually talk to them. I think Chuck left that message since this is time-sensitive for him in that he's trying to coordinate his expert's flight schedule. I apologize for any delay we have caused, but I wanted to pass along this info so everyone would know where the situation stands.

Please do not hesitate to let me know if you have any questions. Thanks again, Jason

Re: Adams County Officer Involved Shooting

Dear Detective Horst,

This letter confirms our discussions regarding testing of the DNA swabbed from the .204 bullet. It is our understanding that a small amount of blood was swabbed from that round and that you plan to have the ISP lab test the swab in hopes of determining the source of the blood. You have explained that this testing will consume all of the DNA and that further testing will not be possible. We agree the test is necessary, and thus, we authorize you to proceed.

I appreciate your patience on this issue, and I urge you to contact me with any other questions you may have. Thank you.

Very truly yours,

STATEMENT

Regarding: Determination of the Office of the Attorney General of Idaho  
in regard to the death of Jack Yantis

Today I received the report of the Office of the Attorney General with the results of their investigation in the death of Jack Yantis.

The death of Jack Yantis was an absolute tragedy. The events that occurred that night on Highway 95 have already been discussed, and they will no doubt be discussed even further now that the investigation is complete. My thoughts and prayers remain with Mrs. Yantis, the Yantis family, the law enforcement officers involved and their families. There are no winners in this tragedy.

I would like to express my gratitude to the Office of the Attorney General for taking on and completing an investigation in this matter to evaluate the case for the prospect of criminal charges. From the onset, it was important that an independent prosecutor evaluate this case. It was also appropriate to have an independent, thorough investigation completed. In this case, it was the Idaho State Police who gathered evidence and completed the initial investigation. The extent of their evaluation and the volume of evidence collected appears to be immense. I appreciate the hard work done to complete this investigation.

It is my hope that the completion of this investigation is another step toward the healing of this community.

Sincerely,

/s/  
Matthew W. Faulks  
Prosecuting Attorney

Bull charged Deputy Wood and multiple shots fired at the bull. Bull layed down on eastside of road. Owner arrived on a 4 wheeler and told Deputy Wood to "get that piece of shit away from my animal" owner had a rifle and began what I believed to be loading it, his back was turned to me. Owner then walked up to the bull. Myself and Deputy Wood held our flashlights on the bull to provide the safest shot. The owner walked to the front of the bull and aimed back to the south where numerous 1st responders were attending to victims of a car crash. I said something like "no were not doing that." Deputy Wood then told him not to shoot and attempted to stop him. The owner then shoved Deputy Wood sideways and began to raise the rifle toward Deputy Wood. I drew my sidearm and as I was drawing, the owner turned toward me and fired from the hip. I returned fire I believe 3 or 4 times until I observed the suspect fall. I did not observe Deputy Wood fire but I believe I heard him fire. When the suspect fell I saw the muzzle blast and felt the shock. I then motioned out 2 other people that were with the owner. Both were handcuffed and searched for more weapons. Deputy Wood took the suspect rifle and threw it to the side of the road. We attempted to keep everyone out of the scene except EMT's. The 2 I observed were a female that identified herself as the suspects wife and a male that said he was suspects nephew. There was another male that I told to leave but he returned and began picking up shell casings. I placed him in cuffs and placed him in Deputy Wood's vehicle.

**Subject:** Yantis reconstruction walk through and site visit?

Hi Detective Horst,

We spoke with Stephanie Altig this morning and she indicated you are pretty open for a walk through and site visit. We're thinking it would be best to do those on a day shortly after your June 3 re-interview of Roland. So, I'm writing to see if June 6 and 7 are open for you? I'm trying to fit this in several calendars (there will be several folks from our office and I believe some from the US Attorney's office will want to participate too?). So, please let me know if the 6<sup>th</sup> and 7<sup>th</sup> are possibilities and then we'll nail out the specifics after I've heard back from everyone else.

As always, we truly appreciate your help. Please don't hesitate to let me know if you have any questions.

Thanks, Jason

Jason,

I've reviewed Horst's comments. He has highlighted your original text in Yellow and added his own comments in Green. Let me know if you have any questions.

I'm hoping to have more answers for you today about how ISP intends on releasing the information. I made another pitch this morning...I'm optimistic.

I'll be in touch.

Thanks,

**Subject:** Documents are up

Good morning,

All of the processed files for the Adams County case are now up in Laserfiche and Time Matters. In Time Matters they're linked to case 15-53036, and currently marked as Supplement (this can be adjusted). In Laserfiche they're in the folder **\SPU cases\Adams County**. Feel free to look them over when you have a chance. My morning is fairly busy, but I'd be happy to meet with anyone that wants to discuss the layout and possible adjustments this afternoon. If there's a time that works well, let me know.

Here's a list of the documents that need more attention:

- Supplement 0009 - File named "STORE N GO (E) shortcut.lnk"
  - Shortcut pointing to an external hard drive, likely should have had the contents copied over.
- Supplement 0030 - has a .cda file, meaning that an audio CD was improperly ripped.

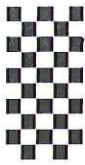

- There is no audio to go along with this .cda file.
- Supplement 0039 - has a WindowsRE (Recovery Environment) folder, with a 260 MB archive.
  - Looks like it was accidentally burned to a disc which was later transferred to the jump drive that we received.
- Supplement 0053 - McCall Police Department folder contains a shortcut to an audio file.
  - Shortcut points to: "M:\Case File Update 1.4.16\Roland History\McCall Police Department\Track01.cda"
  - The actual audio was not transferred.
- Supplement 0055 - has a .cda file, meaning that an audio CD was improperly ripped.
  - There is no audio to go along with this .cda file.

*RE: Death of Jack F. Yantis, November 1, 2015*

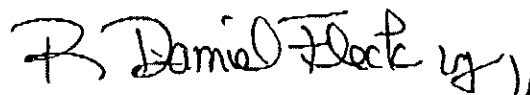

To Whom it May Concern:

Please be advised that this office represents the interests of Donna Yantis, wife of Jack Yantis, Sarah and Lauretta Yantis, daughters of Jack Yantis, and Rowdy Paradis, nephew of Jack Yantis. Jack Yantis was shot and killed by Adams County (ID) deputies on November 1, 2015. Please consider this letter a demand to your office to preserve any physical evidence in this matter, including, but not limited to the following:

All video or audio tapes, cell phone data, pictures and videos, 911 recordings and dispatch logs, photographs, biological materials, test results, laboratory results, reports, statements and associated notes, drafts and recordings, research statistics, forensic analysis, tables, guidelines, directions and/or comments including inter and intra departmental memoranda, enhancements, transcriptions, reconstructions/recreations, autopsy and necropsy specimens and reports, crime scene reports and supplements, witness statements, "secret" files, policies and procedures manual, personnel and training files, internal affairs investigation reports, conclusions and recommendations, and any and all other information or evidence seized, produced or delivered to you, including chain of custody documentation, related to the death of Jack Yantis, and any and all associated electronic files and electronically stored information. Additionally, please provide all documents and/or electronic data related to any Adams County Sheriff's Office lawsuit, complaint, report and/or grievances, Sheriff Zollman hiring files, and policies and procedures for dash cam and body cam.

At this time, I would like to request copies of any and all documents which pertain to any investigations. Please bill me for any other associated costs. If you require pre-payment, please contact me at [REDACTED]

Thank you for your assistance in this matter. Please do not hesitate to contact this office if you have any questions.

Sincerely,

I know this won't do it but we tried. Warner says that it must come from the prosecutor, and he won't respond.

Don't feel like you need to stick around. We are assuming they will not get it done.

Thanks again for the effort.

Matthew,

Thanks for working through this with us. I know you are planning to follow up with the Coroner, but I wanted to let you know I just received a voice message from Chuck Peterson. Groben apparently told Chuck that he'd need a fax or e-mail from the Coroner advising that it's okay for him to speak with Chuck and his expert before he could actually talk to them. I think Chuck left that message since this is time-sensitive for him in that he's trying to coordinate his expert's flight schedule. I apologize for any delay we have caused, but I wanted to pass along this info so everyone would know where the situation stands.

Please do not hesitate to let me know if you have any questions. Thanks again, Jason

Dear Chuck,

I wanted to confirm our conversation from last week re: this matter. As we discussed, we would like to meet with your client after we reach a final decision. Although I cannot provide a specific date for this meeting, I will definitely update you as soon as I am able. Also, we discussed whether your client wished to speak with us before we make our charging decision. You indicated you felt the statements to investigators were probably sufficient, but that your client would meet with us if we thought it would be helpful. I agree the statements obtained by the investigators should provide us what we need, but I also wanted to let you know we'll keep open the offer to meet with your client before we make a final conclusion. So, please just let us know if any minds change on that issue. Otherwise, I'll be in touch as soon as we have come to, and are ready to discuss, a final decision.

I hope you are well and that you will let me know if you have any questions.

Thanks, Jason

Today's Statesman article references the 1997 case against Yantis for resisting and obstructing, and I believe the article said the court file was "short on specifics." Obviously, the lack of specific factual information in a court file is pretty common. However, I assume there were reports generated (by the Adams County SO?) re: the incident, and I'm wondering if you have obtained or are attempting to obtain those reports (if they even still exist?)?

Just thinking out loud. Thanks, Jason

Hi Detective Horst,

We spoke with Stephanie Altig this morning and she indicated you are pretty open for a walk through and site visit. We're thinking it would be best to do those on a day shortly after your June 3 re-interview of Roland. So, I'm writing to see if June 6 and 7 are open for you? I'm trying to fit this in several calendars (there will be several folks from our office and I believe some from the US Attorney's office will want to participate too?). So, please let me know if the 6<sup>th</sup> and 7<sup>th</sup> are possibilities and then we'll nail out the specifics after I've heard back from everyone else.

As always, we truly appreciate your help. Please don't hesitate to let me know if you have any questions.

Thanks, Jason

**Subject:** request by Yantis investigator to interview dispatcher and obtain copy of dispatch log?  
**Attachment:**

---

Dear Matthew,

I spoke yesterday with Undersheriff Brown re: the above-mentioned request. I advised him that since our only role is to review ISP's investigation for assessment of potential prosecution, I could not provide him legal advice as to whether the requested documents should be produced as public records. I also advised that it would not be appropriate for us to direct the dispatcher, or any other witness, not to talk to the private investigator. Finally, I suggested that Undersheriff Brown follow up with you on these issues and he indicated he would do so.

While it is obviously your call to make, I believe the dispatch log is something that would normally be produced as a public record. I also believe the Undersheriff's concern is that the log may be exempt from production as a public record IF such production might affect our investigation. If you'd like me to weigh in on the factual issue of whether our investigation may be affected, then please provide a copy of the log or other documents the Sheriff's Office is considering producing. In no way am I trying to direct or influence your advice as to whether the log should be produced as a public record. As stated above, that is your call to make. However, I fully appreciate the delicate nature of this situation and the care you and the Sheriff's Office are taking to maintain the integrity of this process. So, if I can help by letting you know if our investigation might be affected, then please e-mail me copies of whatever the Undersheriff is contemplating releasing.

I thank you for your attention to this matter, and I urge you to contact me with any questions you may have.

We are completing backgrounds on Yantis, along with the two involved officers. The only information we have reference the 1997 resisting charge is from the court file. In 1997, ISP Patrol did not archive such information, the only types of cases that were archived were fatal crash investigations.

Today's Statesman article references the 1997 case against Yantis for resisting and obstructing, and I believe the article said the court file was "short on specifics." Obviously, the lack of specific factual information in a court file is pretty common. However, I assume there were reports generated (by the Adams County SO?) re: the incident, and I'm wondering if you have obtained or are attempting to obtain those reports (if they even still exist?)?

Just thinking out loud. Thanks, Jason

Hello Paul,

You have likely heard about the officer-involved shooting which occurred in Adams County. ISP is currently investigating that incident. I will be seeking an independent review of this matter. Decisions about prosecution will represent a conflict of interest for my office. Is this a case that the Office of the Attorney General would be available to review in the role of a special prosecutor? There may be other agencies available if the OAG does not feel best-positioned to pursue this. I know that you have helped our office and Adams County in the past and I have appreciated those efforts. If you need to talk about this you can also reach me on my cell phone at [REDACTED] Thank you.

Hi Aaron,

We are hoping to have Detective Horst reconstruct the Yantis shooting scene @ ISP so that we can walk through it and ask questions. We are also hoping to do a quick trip to the actual scene on the same day just to get an eyeball on it. I believe we discussed this and you said you might be interested in participating? There are lots of calendars at play, so I'm reaching out to everyone to see if June 6<sup>th</sup> and 7<sup>th</sup> are possibilities. Could you please let me know if you are still interested in doing this (or part of it?) and, if so, whether these dates might work for you? We're planning to have Horst and Boone re-interview Roland on June 3<sup>rd</sup>, and we'd like to do the walk through and site visit shortly after that.

Please let me know if you have any questions. Thanks, Jason

Jason, as you are aware we believe we recovered a spent .204 round from the crime scene in Adams County. This is the caliber of bullet that Jack Yantis was using. Before we sent the round and other evidence to the FBI lab, we had the ISP lab check the spent round for biological trace evidence. The ISP lab has informed us there was blood on the round and they have a very small sample to conduct a DNA test. The issue is the entire sample will be consumed when the DNA test is performed. The ISP lab generally requests a letter from defense attorneys authorizing such tests that consume all of the sample before they conduct such tests. However, in this case we have not charged anyone.

We need to know if the blood on the spent .204 round is from the Bull or some other source. I do not know if the lab will allow the AG's Office to authorize such a test or if we want to contact the officer's attorney and have him authorize the test. Due to the fact neither of the two officers had any wounds the only blood that could be on the bullet would be the Bull's blood or Jack Yantis' own blood, but we need to know the results.

Our Judge is on vacation that week and then our Adams county Prosecutor is on vacation for the next 2 weeks so we do have a lot of open dates if August 2nd is not a good date.

Please let me know if that works for you? We'll most likely have you take the lead on the interview and I (or another DAG?) will probably sit in with you. Of course, we'll talk through the specifics well beforehand.

Jason -

Thanks for the email. I agree and confirm our conversation.

I will talk to them again, but they have been interviewed and given statements and unless you (decision makers) have additional questions, the prior statements to state and federal investigators contain their recollections of the events leading to Jack's death.

I appreciate the offer and will get back to you. The family believes that the deputies used excessive force, resulting in Jack's death and that Rowdy and Donna were poorly treated and likewise subjected to excessive force. They remain happy to meet at any time if you or the investigators or decision makers need additional information.

Thanks -  
Chuck

Dear Chuck,

I wanted to confirm our conversation from last week re: this matter. As we discussed, we would like to meet with your client after we reach a final decision. Although I cannot provide a specific date for this meeting, I will definitely update you as soon as I am able. Also, we discussed whether your client wished to speak with us before we make our charging decision. You indicated you felt the statements to investigators were probably sufficient, but that your client would meet with us if we thought it would be helpful. I agree the statements obtained by the investigators should provide us what we need, but I also wanted to let you know we'll keep open the offer to meet with your client before we make a final conclusion. So, please just let us know if any minds change on that issue. Otherwise, I'll be in touch as soon as we have come to, and are ready to discuss, a final decision.

I hope you are well and that you will let me know if you have any questions.

Thanks, Jason

Topic: Yantis/Adams County Incident

Message: Dear Mr. Wasden, 11/14/15

I hope you and your family are doing well and thank you for your continued service to our state and home.

I'm writing, while temporarily working in Colorado, to express my profound dismay and concern for the recent tragedy occurring in Adams County.

I respectfully request that a competent, vigorous and transparent investigation be conducted. Like many Idahoans, I would prefer that we "clean our own house", rather than demonstrate dependence on the guidance of a distant authority.

I ask for justice for the Yantis family and, if their account of events is accurate, for the total and vigorous prosecution of their barbaric assailants. Murder with a badge is still murder and should be prosecuted as such.

Thank you for your time, I know you're very busy.

Esto Perpetua!

Sincerest best regards,

Will

Aaron,  
ISP wasn't able to scan and copy all of the reports this week so we're meeting next Friday afternoon to pick up what they've got thus far.

Most of the Lab work is being done at ISP. The FBI Lab is conducting some analysis on two slugs located at the scene and an officer's asp which may have been struck by a round. Doug and our executive management have offered to prod the Lab to move quickly. I will let you know when the lab provides me with a timeframe and then of course with the results as they will be significant.

I'll be in Anchorage for work until Wednesday night next week but available on my cell: [REDACTED]

As we discussed last week, the FBI is involved in the Yantis shooting investigation. Special Agent Rod Draper (ccd) is working with ISP on the investigation.

Rod and I need to access investigative materials. ISP will not release those materials to us without your permission.

Can you please authorize ISP to release those materials to the FBI and my office?

Thanks.

**RE: Death of Jack F. Yantis, November 1, 2015**

To Whom it May Concern:

Please be advised that this office represents the interests of Donna Yantis, wife of Jack Yantis, Sarah and Lauretta Yantis, daughters of Jack Yantis, and Rowdy Paradis, nephew of Jack Yantis. Jack Yantis was shot and killed by Adams County (ID) deputies on November 1, 2015. Please consider this letter a demand to your office to preserve any physical evidence in this matter, including, but not limited to the following:

All video or audio tapes, cell phone data, pictures and videos, 911 recordings and dispatch logs, photographs, biological materials, test results, laboratory results, reports, statements and associated notes, drafts and recordings, research statistics, forensic analysis, tables, guidelines, directions and/or comments including inter and intra departmental memoranda, enhancements, transcriptions, reconstructions/recreations, autopsy and necropsy specimens and reports, crime scene reports and supplements, witness statements, "secret" files, policies and procedures manual, personnel and training files, internal affairs investigation reports, conclusions and recommendations, and any and all other information or evidence seized, produced or delivered to you, including chain of custody documentation, related to the death of Jack Yantis, and any and all associated electronic files and electronically stored information. Additionally, please provide all documents and/or electronic data related to any Adams County Sheriff's Office lawsuit, complaint, report and/or grievances, Sheriff Zollman hiring files, and policies and procedures for dash cam and body cam.

At this time, I would like to request copies of any and all documents which pertain to any investigations. Please bill me for any other associated costs. If you require pre-payment, please contact me at 307-733-7290.

Thank you for your assistance in this matter. Please do not hesitate to contact this office if you have any questions.

Sincerely,

Dr. Groben -

I know this won't do it but we tried. Warner says that it must come from the prosecutor, and he won't respond.

Don't feel like you need to stick around. We are assuming they will not get it done.

Matthew,

Thanks for working through this with us. I know you are planning to follow up with the Coroner, but I wanted to let you know I just received a voice message from Chuck Peterson. Groben apparently told Chuck that he'd need a fax or e-mail from the Coroner advising that it's okay for him to speak with Chuck and his expert before he could actually talk to them. I think Chuck left that message since this is time-sensitive for him in that he's trying to coordinate his expert's flight schedule. I apologize for any delay we have caused, but I wanted to pass along this info so everyone would know where the situation stands.

Please do not hesitate to let me know if you have any questions. Thanks again, Jason

Re: Medical examination and autopsy report for Jack F. Yantis, decedent,  
Adams County Coroner Case No. 2015-01

Attention: Chuck Peterson

Please find the following on behalf of the Office of the Adams County Coroner, Sue Warner, in response to inquiry sent by Chuck Peterson. As of late last week the Adams County Coroner's Office obtained possession of the autopsy report in regard to the above-named decedent. That report has been caused to be delivered to the Idaho State Police, Region 3, Meridian Idaho.

There is an active investigation being carried out by the Idaho State Police. The Office of the Attorney General of the State of Idaho (OAG) has been appointed as special prosecutor on the matter. The report and any oral statements from the examiner all represent potential evidence in a criminal investigation. Disclosure of these items is declined pursuant to Idaho Code §§ 74-105(1), 74-124. Provided, however, that it is the position of the Adams County Coroner's Office that such reports and oral statements in regard to said autopsy are completely subject to release at the discretion and direction of the OAG. Further inquiries in regard to this information should be directed to the OAG at 208-334-2400.

The information above has been provided on behalf of the Adams County Coroner's Office based upon information available upon conferring with that office. You have the right to

appeal this denial or partial denial of your requests by filing a petition in compliance with the provisions of Chapter 1, Title 74 of Idaho Code to the extent that the request comes under the purview of said chapter. Such petition must be filed in the District Court of Adams County, Idaho, within 180 days of the date of mailing of this notice.

Sincerely,

Jason, as you are aware we believe we recovered a spent .204 round from the crime scene in Adams County. This is the caliber of bullet that Jack Yantis was using. Before we sent the round and other evidence to the FBI lab, we had the ISP lab check the spent round for biological trace evidence. The ISP lab has informed us there was blood on the round and they have a very small sample to conduct a DNA test. The issue is the entire sample will be consumed when the DNA test is performed. The ISP lab generally requests a letter from defense attorneys authorizing such tests that consume all of the sample before they conduct such tests. However, in this case we have not charged anyone.

We need to know if the blood on the spent .204 round is from the Bull or some other source. I do not know if the lab will allow the AG's Office to authorize such a test or if we want to contact the officer's attorney and have him authorize the test. Due to the fact neither of the two officers had any wounds the only blood that could be on the bullet would be the Bull's blood or Jack Yantis' own blood, but we need to know the results.

Paul—we have discussed here in the office a concern that we have for the safety of the officers when the announcement is made, regardless of what decision is. There is a legitimate worry about possible vigilantism and it could pose a risk to the officers if charges are filed against them and they have not been taken into custody (or voluntarily surrendered) at the time the decision is announced. On the other hand, if no charges are being filed, they may want to leave town to protect themselves prior to the announcement of no charges. Obviously, this is more easily taken care of if charges are filed and they are taken into custody before, or contemporaneously with, the announcement. It would be more difficult if they are given a heads up that no charges are being filed and they then start broadcasting it to the world before the announcement. I don't have a good solution for that at this time.

We are not trying to tell you what to do, but just raising the issue for your consideration. When you get back in the office, I would appreciate being able to discuss this with you.

On 12/13/2015, ISP Detective Jason Horst supplied Steen with a thumb drive, two CD's, a two page evidence status list, and a large diagram. Horst explained that the investigation is still active and these items are simply copies of their investigative records to date. He advised that he will supply additional records as he completes them. Also advised he will supply a digital copy of the diagram. Horst explained that the two CD's are raw audio and video clips that were combined to make a completed demonstrative exhibit (not for evidentiary purposes) but for ease of reviewing the CD's. These CD's are mock walk throughs with Wood and Roland.

Upon initial review, Steen found on the thumbdrive that file folders labeled "Supp 52" and "Supp 53" are empty. LWCB for Horst on 12/14/2015. On call back, he said 52 and 53 are not completed reports yet.

#### Incident

11/01/2015 20151101\_205152.mp4 - (Video clip of an emt/paramedic(?) taking a statement from Mrs. Yantis in the back of an ambulance. Yantis said: Jack went down to shoot the bull, the cop come up and jerked his arm and jerked him backwards

and then they shot him, they just shot him for no reason.) (LF 15-53036 000667)

11/02/2015 VN810105.MP3 - (Audio clip of Paradis and Joe Rumsey and male named "Mike" intvw at Yantis residence. Heard accident and saw lights of ambulance. SO called bull hit and requested take care of it. Jack said get rifle. Paradis brought front end loader. Officer opened up on bull and started shooting. Jack walked around to bull. Paradis parked "Cat". Jack walked up behind bull facing grassy area making sure he not pointing at nobody. Raised the gun up to shoot the bull and one of the cops grabbed him and pulled him back then everybody started shooting. They wouldn't stop shooting. Stading about the second cone from the Cat. Brass hit me. I thought the were going to shoot me. Bull laying against Dodge pickup. Jack was going to shoot the bull in the back of the head. He had his finger on the trigger. I don't know why that cop jerked him backwards or what was said to him but he stumbled and they they started shooting. Didn't hear any words between them. wife brought the rifle down to Jack. The one cop grabbed the shoulder and pulled him back and all hell broke lose. The one with the AR 15 he was all jazzed up I don't know if he is excited like that all the time I think he was the one who unloaded on the bull. I think he was the first one that shot. The other guy had a pistol. The pistol hit him here and hit his gun. Jack still had his gun down, across himself, I was from me to you when they were shooting. Runsey dnd't see that much he was behind the ambulance. Heard Rowdy yeling to stop shooting. It didn't seem to faze them. Mike wasnt an eyewitness. Mike got cuffed. Threw Donna on the ground. They lost their minds for a minute. Paramedics were to south helping motorists. Tow truck driver came later. Donna having heart surgery right now. Jack was lined up. The cops were behind him. One grabbed him, pulled him back in between the two of them, when he stumbled back, the two of them stepped back and all hell broke lose. His finger was on the trigger, I didn't hear it go off. The fat cop said he (Jack) fired. The Cat was running and is noisy. I don't know why he grabbed him and pulled him back.) (LF 15-53036 000299)
