#### Narrative

- 1. On March 4, 2016, I received a disc copy of FBI reports from FBI Special Agent Draper. The disc contained two reports.
- 2. The first report was an FBI Firearms and Toolmark report on Deputy Roland's duty gear and baton, as well as bullets and cartridges recovered from the critical incident scene.
- 3. The second report is an interview Agent Draper conducted with Mark Briscoe, a resident of Briscoe was a friend of the Yantis family but did not witness the critical incident. Briscoe was a concerned citizen who wished to pass on his concerns with the conduct of the Adams County Sheriff's Office. See Agent Drapers's report for further information.
- 4. The disc (Tag #160000739 Item #1) was entered into evidence.

| Date of entry | 02/ | 221  | 2010 |  |

MARK BRISCOE, telephone number contacted the Boise Resident Agency telephonicaly. After being advised of the identity of the interviewing Agent, BRISCOE provided the following information:

BRISCOE was a resident of the Yantis family for a long time. BRISCOE was a rancher living near the Yantis family.

BRISCOE did not witness the shooting incident.

BRISCOE represented a number of concerned citizens and the Yantis family. BRISCOE stated that there were many rumors and statements being made about the shooting incident and that he wanted to give people some answers. BRISCOE wanted to know if the investigation had been concluded and what the results were. BRISCOE was advised that the investigation had not been completed but that a very thorough, impartial investigation was underway. BRISCOE was advised that investigative results could not be released until all of the evidence had been collected, relevant facts had been considered, and the US Attorneys Office had made a determination on the case.

BRISCOE stated that nobody liked the Sheriff because he was a "smart-ass," and let some people go, while targeting others. The Sheriff also hired deputies that were fired from other departments. BRISCOE was concerned that the Sheriff was targeting ranchers in the area. BRISCOE was advised that he should report any evidence of that to the Agent.

BRISCOE was organizing a rally for March 5, 2016. The purpose of the rally was to raise money for the Yantis family and put forth a petition to recall the Sheriff. BRISCOE did not want an "Oregon-type" of situation in Council. BRISCOE invited the Agent to the rally and believed that being able to talk to someone about the investigation helped prevent both rumors from flying and emotions getting carried away.

The Agent told BRISCOE that he could contact him anytime with information or to discuss the matter.

Form Type: LABRPT Date: 03/02/2016

Title: (U) Laboratory Report-Firearms and Toolmarks

Approved By: DOUGLAS J. HALEPASKA JR.

Drafted By: PARMLEY JASMINE

Case ID #: 282A-SU-6764232 (U) Brian S. Wood/Cody W. Roland

(Subjects);

Jack Yantis (Victim);

Civil Rights-Color of Law-Violence

Synopsis: (U) FTU Laboratory Report for Lab Number 2015-02796-4

Enclosure(s): Enclosed are the following items:

1. (U) FTU 1A 2015-02796-4

**

# **FBI** Laboratory

2501 Investigation Parkway Quantico, Virginia 22135

#### LABORATORY REPORT

To: Rodney O Draper Date: February 16, 2016

Salt Lake City

Case ID No.: 282A-SU-6764232

Lab No.: 2015-02796-4

Communication(s): November 23, 2015

Agency Reference(s):

Subject(s): Brian S. Wood; Cody W. Roland

Victim(s): Jack Yantis

Discipline(s): Firearms/Toolmarks

FBI Laboratory Evidence Designator(s):

Item 1 Two cartridges from rifle of Jack Yantis (1B1, E5381516)

Item 2 Baton from Cody Roland (1B5, E5381520)

Item 3 Bullet (1B4, E5381519)

Item 4 Bullet (1B3, E5381518)

Item 5 Belt with accessories from Cody Roland (1B2, E5381517)

Item 6 FTU Secondary Evidence (8 lead/copper chemical paper swabs)

The results of the firearms examination and are included in this report.

#### **Results of Examinations:**

Item 1 are .204 Ruger caliber cartridges that are loaded with polymer tips and bear the headstamp of Hornady ammunition. The Item 1 cartridges are physically consistent with functional ammunition. An Item 1 cartridge was disassembled to observe the base of the bullet.

A presumptive chemical test for the presence of lead and copper was performed on the forward and the base ends of the Item 2 baton. The tests were negative for both lead and copper.

Item 3 is a .22 caliber expanded bullet that was fired from a barrel rifled with six grooves, right twist. A check of the FBI Laboratory's General Rifling Characteristics (GRC) database produced a list of firearms with GRCs like those present on the Item 3 bullet that includes rifles marketed by Colt, FN, H&K, Rock River and SIGARMS.

Page 1 of 3

Item 4 is a damaged bullet consistent with .20 caliber, however due to deformation other calibers could not be excluded. The Item 4 bullet has no visible rifling impressions. Conditions causing a bullet to be without rifling impressions are: sub-caliber bullets fired using sabot, such as Remington Accelerator ammunition, or manually removing a bullet from a cartridge. The physical characteristics of the Item 4 bullet base are dissimilar to the bullet base observed on the Item 1 bullet.

The Item 5 belt was examined for bullet impact damage and none was observed. No further examinations were conducted on the Item 5 belt.

#### Methods:

#### Association

Association examinations compare the physical and class characteristics of evidence items. An association conclusion is reached if the observable or measurable physical dimensions and design features of two items are in agreement, or are "physically consistent." If these dimensions and features are clearly different, an elimination conclusion is reached. If there is a lack of observable design features or measurable dimensions, the result is inconclusive.

#### **GRC**

The appropriate GRC measurements are entered in the database, which then returns a list of all firearms in the database with compatible GRCs.

## <u>BTK</u>

Suspected bullet impacts or holes are examined visually and/or microscopically for the presence of physical effects that might have been produced by a bullet. If these conditions are noted, a series of presumptive chemical tests for the presence of lead and copper may be performed. Each of these tests is chemically specific and produces a colored reaction when in the presence of the specific chemical.

#### **Limitations:**

#### Association

Association examinations are used to determine if two items are from a restricted group source and cannot be used to determine whether two items are from a unique source.

#### GRC

The GRC database contains information obtained from firearms at the FBI Laboratory and from voluntary submissions of test-fired specimens from law enforcement agencies around the world. It is not a comprehensive list of all firearms, and contains no information about the

Page 2 of 3

2015-02796-4

numbers of each type of firearm present in the general population. The firearms listed in the report are typically those considered to be more common and are included at the discretion of the examiner authoring the report.

#### BTK

Presumptive chemical tests are not conclusive and are meant to provide additional information regarding the possibility of a bullet impact or passage. The presumptive test does not distinguish whether lead and copper are deposited by a bullet or by another source.

#### Remarks:

For questions about the content of this report, please contact Forensic Examiner Douglas Halepaska at For questions about the status of your submission, including any remaining forensic examinations, please contact Request Coordinator Douglas A. Hildebrand at

The evidence will be returned to the contributor under separate cover. The supporting records for the opinions and interpretations expressed in this report are retained in the FBI files. This report contains the opinions and interpretations of the examiner(s) who issued the report.

Group:None-->ME1 RCC:None-->RCCW Comment:FEMALE SAW
THE ACCIDENT. RIGHT NEXT TO
BULL. SAW CLOCK - 706 -

RIGHT AT DRIVEWAY AND BULL WAS UP AT TOP AT GATE.

WATCHED HIM WALK DOWN HILL

- THOUGHT IT WAS THE PERSON

WHO SHE HELPED MOVE COWS

FOR. WAS LOOKING FOR

COWS/BRAND AND KNOWS HOW

THE BULL WAS ACTING. DIDN'T

WITNESS THE SHOOTING. WAS TRYING TO CONTACT OWNER OF

THE BULL. WAS TEXTING TWO

MEN FOR THE AREA AND THEN A

HOLD OF LARRY AND HE CALLED

1

DISPATCH. SHE ASKED THE
OFFICER WHOSE BRAND WAS
THERE - HAD A RED AND
YELLOW TAG AND THEY
WOULDN'T TELL HER SAID THEY
HAD IT UNDER CONTROL AND
SHE WAS TO MOVE ON. SHE
SAID HE WASN'T AGGRESSIVE
AT ALL.

| 50<br>51             | A: | Th- that's correct.                                                                                                                                                                              |
| 52<br>53             | Q: | correct? Okay. Great. And so you do wanna                                                                                                                                                        |
| 54<br>55             | A: | Yes.                                                                                                                                                                                             |
| 56<br>57             | Q: | talk to us obviously or you wouldn't be here.                                                                                                                                                    |
| 58<br>59             | A: | Yes, I do.                                                                                                                                                                                       |
| 60<br>61<br>62<br>63 | Q: | All right. So we're gonna go ahead and just start with, uh, simple stuff and we'll go through your background information, uh, real quick. So your full name is?                                 |
| 64<br>65             | A: | Brian, B-R-I-A-N, Steele, S-T-E-E-L-E, Wood.                                                                                                                                                     |
| 66<br>67             | Q: | And what's your date of birth, Brian?                                                                                                                                                            |
| 68<br>69             | A: |                                                                                                                                                                                                  |
| 70<br>71             | Q: | Thank you. And do you have a badge number?                                                                                                                                                       |
| 72<br>73             | A: | Yes. 2307.                                                                                                                                                                                       |
| 74<br>75             | Q: | All right. So when were you hired by Adams County?                                                                                                                                               |
| 76<br>77<br>78       | A: | Um, approximately 26 months ago. Um, it'd be the m- um, I guess mid-summer of 2013.                                                                                                              |
| 79<br>80             | Q: | Okay. So July, August?                                                                                                                                                                           |
| 81<br>82             | A: | Somewhere right in there.                                                                                                                                                                        |
| 83<br>84<br>85       | Q: | Okay. We'll just call it summer of '13. Okay. Did you work anywhere, uh, in a law enforcement capacity prior to                                                                                  |
| 86<br>87             | A: | Yes.                                                                                                                                                                                             |
| 88<br>89             | Q: | Adams County? Where did you work?                                                                                                                                                                |
| 90                   | A: | I worked for McCall Police Department. I don't have the exact dates. It was                                                                                                                      |

| 91         |        | almost exactly two years starting in 2010.                                     |
|------------|--------|--------------------------------------------------------------------------------|
| 92         |        | annost exactly two years starting in 2010.                                     |
| 93         | Q:     | Okay. So you worked roughly from summer 2010                                   |
| 94         | ζ.     | okay. So you worked roughly from summer 2010                                   |
| 95         | A:     | Yeah. I believe it was - it was                                                |
| 96         | 20.000 |                                                                                |
| 97         | Q:     | Or tw- or w-                                                                   |
| 98         |        |                                                                                |
| 99         | A:     | it's - it's - it was                                                           |
| 100        |        |                                                                                |
| 101        | Q:     | or '11.                                                                        |
| 102        |        |                                                                                |
| 103        | A:     | ear- early - no, it was, uh, I don't remember my hire date, but it'd be        |
| 104        |        | towards the beginning of 2010, so most of 2010, most of 2011.                  |
| 105        |        |                                                                                |
| 106        | Q:     | So you have a gap in your law enforcement?                                     |
| 107        |        |                                                                                |
| 108        | A:     | I did.                                                                         |
| 109        |        |                                                                                |
| 110        | Q:     | What'd you do?                                                                 |
| 111        |        | TV'-1 -1 0                                                                     |
| 112        | A:     | With the gap?                                                                  |
| 113        | 0.     | V1                                                                             |
| 114        | Q:     | Yeah.                                                                          |
| 115<br>116 | A:     | Um, all kinds of stuff. Odd jobs, uh, I worked the, uh, airport in McCall, um, |
| 117        | A.     | all kinds of stuff.                                                            |
| 118        |        | an kinds of stuff.                                                             |
| 119        | Q:     | So 2010, uh, in through 2011. Is that what we said?                            |
| 120        | ν.     | 50 2010, an, in through 2011. Is that what we said.                            |
| 121        | A:     | Yeah, tow- I think it was - it'd be most 2010, most of 2011.                   |
| 122        |        | Tour, to will think it was it does most zoro, most or zoro.                    |
| 123        | Q:     | You've been through POST?                                                      |
| 124        |        | ç                                                                              |
| 125        | A:     | Yes.                                                                           |
| 126        |        |                                                                                |
| 127        | Q:     | Currently what, uh, certificate do you hold?                                   |
| 128        |        |                                                                                |
| 129        | A:     | Uh, basic.                                                                     |
| 130        |        |                                                                                |
| 131        | Q:     | Basic?                                                                         |
| 132        |        |                                                                                |
| 133        | A:     | Yeah.                                                                          |
| 134        |        |                                                                                |
| 135        | Q:     | Any other law enforcement experience prior?                                    |

| 136 |            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

| 184 | Q:  | Okay. All right. What is your radio designator?                                  |
| 185 | Q.  | Okay. 7111 Fight. What is your radio designator:                                 |
| 186 | A:  | Uh, 2307. Same as the badge number.                                              |
| 187 | A.  | On, 2507. Same as the badge number.                                              |
| 188 | Q:  | Okay. Prior to the incident, when would you say was the last time you slept?     |
| 189 | Q.  | Okay. I flot to the incident, when would you say was the last time you slept:    |
| 190 | A:  | Um, I - I slept the night before, um, that was a, uh, then the night before that |
| 191 | Λ.  | was a Saturday so I would have got home about 3:00 and gone to sleep about       |
| 192 |     | 3:10 or so, um, and woken up pretty close to 9:00 in the morning.                |
| 193 |     | 3.10 of so, um, and worken up pretty close to 9.00 m the morning.                |
| 194 | Q:  | I'm sorry what time did you think you wake - woke up?                            |
| 195 | Q.  | I in sorry what time did you timik you wake - woke up:                           |
| 196 | A:  | Um, right around 9:00.                                                           |
| 197 | A.  | Oni, fight around 9.00.                                                          |
| 198 | Q:  | 9:00 am?                                                                         |
| 199 | Q.  | 9.00 am?                                                                         |
| 200 | A:  | Van                                                                              |
| 201 | A.  | Yep.                                                                             |
| 202 | Q:  | And that would have been the morning                                             |
| 203 | Q.  | And that would have been the morning                                             |
| 204 | A:  | Yes, that's be Sunday morning                                                    |
| 205 | A.  | res, that's be Sunday morning                                                    |
| 206 | Q:  | uh, Sunday morning                                                               |
| 207 | Q.  | uii, Suilday morining                                                            |
| 208 | A:  | is when I                                                                        |
| 209 | Λ.  | IS WHEH I                                                                        |
| 210 | Q:  | November 1st?                                                                    |
| 211 | Q.  | November 1st:                                                                    |
| 212 | A:  | Yep.                                                                             |
| 213 | A.  | тер.                                                                             |
| 214 | Q:  | Okay.                                                                            |
| 215 | Q.  | Okay.                                                                            |
| 216 | A:  | Yep.                                                                             |
| 217 | A.  | Tep.                                                                             |
| 218 | Q:  | Do you remember what the last time you are prior to?                             |
| 219 | Q.  | Bo you remember what the last time you are prior to:                             |
| 220 | A:  | Yes. I'm - I'm pretty sure - so we had a potluck at church, I went to church,    |
| 221 | A.  | um, and actually checked on, um, as soon as I left church, so, uh, I would have  |
| 222 |     | eaten right before my shift started, um, and I think that's - I think that's the |
| 223 |     | last time I ate.                                                                 |
| 224 |     | last time 1 atc.                                                                 |
| 225 | Q:  | Do you remember what you had?                                                    |
| 223 | Q.  | Do you remember what you had:                                                    |

| 226<br>227<br>228<br>229                      | A: | I had mostly some sort of a enchilada lookin' chicken thing. It was fantastic, uh, th- it's a potluck so there's lots of little, you know, you sample everything. |
|-----------------------------------------------|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 230<br>231<br>232                             | Q: | Okay. Uh, had you taken any medication? Do you - are you prescribed any medication?                                                                               |
| 233<br>234                                    | A: | No, sir.                                                                                                                                                          |
| 235<br>236                                    | Q: | Anything like that? Okay. So nothing in the last 24 hours?                                                                                                        |
| 237<br>238                                    | A: | No.                                                                                                                                                               |
| 239<br>240                                    | Q: | Okay. Uh, what about alcohol?                                                                                                                                     |
| 241<br>242                                    | A: | Nothing.                                                                                                                                                          |
| 243<br>244                                    | Q: | You - you weren't under the influence of alcohol at the time?                                                                                                     |
| <ul><li>245</li><li>246</li></ul>             | A: | Nothing.                                                                                                                                                          |
| <ul><li>247</li><li>248</li></ul>             | Q: | Okay.                                                                                                                                                             |
| 249<br>250                                    | A: | Not at all.                                                                                                                                                       |
| <ul><li>251</li><li>252</li><li>253</li></ul> | Q: | Uh, prior to the incident, what types of calls had you been, uh, involved in and how busy was shift pri- and - and when I say prior                               |
| <ul><li>254</li><li>255</li></ul>             | A: | Mm-hm.                                                                                                                                                            |
| <ul><li>256</li><li>257</li><li>258</li></ul> | Q: | I think what would be safe to do is say prior to the response to the crash because                                                                                |
| 259<br>260                                    | A: | Right.                                                                                                                                                            |
| 261<br>262                                    | Q: | if - if I'm not mistaken, the crash is what initially                                                                                                             |
| 263<br>264                                    | A: | Right.                                                                                                                                                            |
| 265<br>266                                    | Q: | brought us to the scene. Is that correct?                                                                                                                         |
| 267<br>268                                    | A: | That's - that's correct.                                                                                                                                          |
| 269<br>270                                    | Q: | Okay.                                                                                                                                                             |

| 271<br>272<br>273<br>274<br>275               | A: | Um, it was a, uh, you know, you could check the - the call record to know for sure. Uh, as I recall, it was a very slow day, uh, there was very little goin' on, um, and I don't know if I even made a traffic stop. It was, um, it was one of the - those dead days.                                                               |
|-----------------------------------------------|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 276<br>277                                    | Q: | Okay.                                                                                                                                                                                                                                                                                                                               |
| 278<br>279<br>280                             | A: | Um, they're - if - if something's in the call log that would job my memory, great, but I - I remember it being pretty slow.                                                                                                                                                                                                         |
| 281<br>282                                    | Q: | Okay. No - no- I mean, obviously no major incidents                                                                                                                                                                                                                                                                                 |
| 283<br>284                                    | A: | No.                                                                                                                                                                                                                                                                                                                                 |
| 285<br>286                                    | Q: | 'cause nothing really stands out in your mind?                                                                                                                                                                                                                                                                                      |
| 287<br>288                                    | A: | Exactly.                                                                                                                                                                                                                                                                                                                            |
| 289<br>290                                    | Q: | Okay. Did anything out of the ordinary, uh, happen prior to the incident?                                                                                                                                                                                                                                                           |
| 291<br>292                                    | A: | Um, actually if I could go back to that last question.                                                                                                                                                                                                                                                                              |
| 293<br>294                                    | Q: | Go ahead.                                                                                                                                                                                                                                                                                                                           |
| 294<br>295<br>296<br>297<br>298<br>299<br>300 | A: | Um, I just remembered earlier in the day, it wasn't a major thing, but there was a fire at a - there was a garage fire that the, uh, you know the fire department was called out to, I went as well, at, uh, on Meadows Drive, uh, which is just south of New Meadows. Uh, anyway, that's the only call I recall from that day, but |
| 301<br>302                                    | Q: | Okay.                                                                                                                                                                                                                                                                                                                               |
| 303<br>304                                    | A: | anyway. Sorry.                                                                                                                                                                                                                                                                                                                      |
| 305<br>306                                    | Q: | Okay. No, it's - it's all right.                                                                                                                                                                                                                                                                                                    |
| 307<br>308                                    | A: | Yeah.                                                                                                                                                                                                                                                                                                                               |
| 309<br>310<br>311                             | Q: | Um, I think we already know the answer to this one, but do you have any audio or video recordings of the incident?                                                                                                                                                                                                                  |
| 312<br>313                                    | A: | I don't believe I do. Would you like me to explain                                                                                                                                                                                                                                                                                  |
| 314<br>315                                    | Q: | Yeah, go for it.                                                                                                                                                                                                                                                                                                                    |

INTERVIEW WITH BRIAN WOOD Interviewer: Det. Jason Horst 11-04-15/2:57 pm Case # M15-140 Page 8

| 316 | A:   | Um, I was wearing chest camera.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

| 331 | A:   | Um, so I - I had it in the standby mode. Once I realized there was an issue                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 332 |      | with the bull - right after the bull incident, I turned it on - what I thought I                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 333 |      | turned it on, um, and so it should have gone back and caught the incident with                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 334 |      | the bull. It should have also then been running through the rest of it when I                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 335 |      | later - there's a button you can - and it's a status check button you can press,                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 336 |      | uh - uh, either red flashing light or a green flashing light comes on to tell you                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 337 |      | what it's doing. I was expecting to see a red flash and telling me it's recording                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 338 |      | because of what I had done. Um, and for whatever reason, it was green                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 339 |      | flashing. Um, in the past I've had that mean that I didn't hit the button hard                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 340 |      | enough the two times or that the memory was full. So it's got battery, but the                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

| 428<br>429<br>430                                                                | A: | Um, what, uh, um, I believe there would have been roughly 30. There could have been 28, but it'd be somewhere right in that range. Uh                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

We do, um, as a - whether it's p- for any reason I have to chamber my rifle, I discard, well, I set that s- round aside and later use it to either put down a deer or whatever. I don't - I don't rechamber that and use it for something where I'd need to protect myself, uh, 'cause that round has been made less reliable by the free-floating firing pin in an AR-15. So, um, if I chambered once or twice throughout the week on other calls, um, I might not have topped off that one round so I might be one or two rounds down, but I shouldn't be more than one or two rounds. I - I keep a generic idea in my head. Okay, I - I'm - if I get down to 27 rounds, I'm gonna go, you know, grab a box and top it off (unintelligible) |

| 500 | A:          | Um, I would need, uh, my lieutenant would have that record. It's - it's gonna   |
| 501 |             | be a while back, um, uh, quite a few months. I couldn't tell you exactly when I |
| 502 |             | - I'd - my lieutenant would have that record.                                   |
| 503 |             |                                                                                 |
| 504 | Q:          | Are - am I understanding that you're                                            |
| 505 |             |                                                                                 |
| 506 | A:          | Hm.                                                                             |
| 507 |             |                                                                                 |
| 508 | Q:          | estimating a - a few months, or?                                                |
| 509 |             |                                                                                 |
| 510 | A:          | I - I'd rather not put a number on it.                                          |
| 511 |             |                                                                                 |
| 512 | Q:          | Okay. That's                                                                    |
| 513 |             |                                                                                 |
| 514 | A:          | It's been a while.                                                              |
| 515 |             |                                                                                 |
| 516 | Q:          | Okay. We'll just say y- you don't know how long. What other firearms did        |
| 517 |             | you have access to at the time of the incident?                                 |
| 518 |             |                                                                                 |
| 519 | A:          | Um, the only other firearm I had on me was my, um, my duty handgun. It's a      |
| 520 |             | Glock 17. I had other weapons in the car.                                       |
| 521 |             |                                                                                 |
| 522 | Q:          | Okay.                                                                           |
| 523 |             |                                                                                 |
| 524 | Q1:         | Uh, these weapons are all - they're your own personal weapons? They're not      |
| 525 |             | department issue, right?                                                        |
| 526 |             |                                                                                 |
| 527 | A:          | That's correct.                                                                 |
| 528 |             |                                                                                 |
| 529 | Q:          | All right. Does your department issue?                                          |
| 530 | ζ.          |                                                                                 |
| 531 | A:          | Um, they issue hand- I mean, uh, rifles, um, and if you choose to, you know,    |
| 532 |             | carry own, assuming it's approved by the range master, you can. Uh              |
| 533 |             | carry own, assuming it is approved by the range master, you can own.            |
| 534 | Q:          | Okay.                                                                           |
| 535 | Χ.          |                                                                                 |
| 536 | A:          | they do not issue handguns so you have to buy your own when you - when          |
| 537 |             | you join.                                                                       |
| 538 |             | Jou John.                                                                       |
| 539 | Q:          | Okay. Solet's talk about the use of force options that you had available on     |
| 540 | ζ.          | your person. Uh, and by - by that I mean like your OC ASP.                      |
| 570 |             | your person. On, and by - by that I mean like your oc Asi.                      |

| 541 |    |                                                                                   |
|-----|----|-----------------------------------------------------------------------------------|
| 542 | A: | Uh-huh.                                                                           |
| 543 |    |                                                                                   |
| 544 | Q: | What other types of                                                               |
| 545 |    | **                                                                                |
| 546 | A: | Right.                                                                            |
| 547 |    |                                                                                   |
| 548 | Q: | use of force stuff did you                                                        |
| 549 |    |                                                                                   |
| 550 | A: | Right.                                                                            |
| 551 |    |                                                                                   |
| 552 | Q: | have available at the time?                                                       |
| 553 |    |                                                                                   |
| 554 | A: | Um, as far as equipment or tools, I - I didn't, except my flashlight. Um, I - I'm |
| 555 |    | probably the most reactive to OC that POST has ever seen to I don't dare          |
| 556 |    | carry it myself and get it on myself. Um, and, uh, my Taser that I was issued     |
| 557 |    | quit working and I have yet to be reissued a Taser so I didn't have either of     |
| 558 |    | those.                                                                            |
| 559 |    |                                                                                   |
| 560 | Q: | Uh, no - no ASP?                                                                  |
| 561 |    |                                                                                   |
| 562 | A: | That's correct.                                                                   |
| 563 |    |                                                                                   |
| 564 | Q: | Okay. All right. Let's talk about your dress, uh, can you describe the clothing   |
| 565 |    | that you were wearing at the time of the incident?                                |
| 566 |    |                                                                                   |
| 567 | A: | Yes. I was wearing black pants, uh, couldn't tell you the brand, but they're the  |
| 568 |    | generic 511 style. Um, wearing our department issued boots, which area a          |
| 569 |    | gray color, um, a duty belt, which is black nylon with black nylon, um, you       |
| 570 |    | know, ha- handcuff case and - and - and then black plastic for the holster and    |
| 571 |    | light holder. Um, wearing a tan uniform shirt, uh, believe 511 brand with         |
| 572 |    | Adams County patches on both shoulders and a silver star with circle badge        |
| 573 |    | on my left chest.                                                                 |
| 574 |    |                                                                                   |
| 575 | Q: | Is that, uh, star embroidered, s-                                                 |
| 576 |    |                                                                                   |
| 577 | A: | Uh, no. It's - it's a metal badge.                                                |
| 578 |    |                                                                                   |
| 579 | Q: | And that kind of goes into the markings, so, uh, is it safe to say that the       |
| 580 |    | markings that you had were the shoulders and then the metal badge, did you        |
| 581 |    | have anything on the rear or - or anything like that? Any other markings?         |
| 582 |    |                                                                                   |
| 583 | A: | I don't believe so.                                                               |
| 584 |    |                                                                                   |
| 585 | Q: | Okay. Okay. I think that pretty well covers the                                   |
|     |    |                                                                                   |

Q1:

What we want you to do is just kind of go back and kind a cover - well, cover in detail your response to the accident, the - the shooting of the bull, right on through, um, the critical incident itself.

Okay. Um, I was, um, I was up near New Meadows. I was going to take a lunchbreak and watch the World Series game with a couples friends a- and - at a house that's also on Meadows Drive, the same - same road where that fire was earlier in the day. Um, and I had just pulled onto that road off of Highway 95, you know, southbound, pull onto it, maybe 50 yards, and I heard the medics get dis- uh, dispatched to a wreck, um, on Fort Hall Hill. I knew that Cody Roland, the other deputy, was working that area and so I thought, okay, we've got a wreck down there, you know, typically we have one guy for a wreck. It's not that big of deal. I thought maybe I'll - maybe I won't, so I listened for a second, um, and dispatch said that, you know, there was extrication needed. I thought, "Okay, shoot. It's a bigger one." Still wasn't sure so I got on the radio and asked dispatch to have - check with Cody if he wanted help. And, um, we have a - a fantastic dispatcher on and she just responded that there was lane blockage so he probably would need help and I thought, "She knows what she's talking about." So I, uh, I turn on the lights and sirens and - and went to go because of the lane blockage, went to go help. Um, I drove through the canyon, passed a couples car, uh, and arrived on scene. I don't remember for sure. I think I got on scene a little bit before Cody, like two minutes or so. Um - um, that's the way I remember anyway. Um, parked on the left side of the roadway which is northbound lane, um, but I was parked facing south. I was, uh, you (unintelligible) take a diagram of where I was parked I guess, but, um, more or less in a driveway. Um, got out, um, multiple ambulances and - and, uh, first responders are already on scene so I went down. They were - the driver's seat was already empty so they had apparently already removed the driver and they were cutting apart the car to get the passenger out. The roof was pressed against her head. She was in least looked like very bad shape, um - um, m- you know blood all over her face and hands. And the windshield was pressed, touching her - her forehead. So as they were cutting apart the car, I was reaching in and another guy was reaching in to push up so that it wouldn't come down on her when - when things came, you know, disconnected. Um, one of the either firefighters or or, uh, um, other responders, you know, I was wearing short sleeved, uh, my uniform is short sleeve and I didn't have, uh, I had latex gloves on, but, uh, anyway, he came in, he had long sleeves and leather gloves. He said, "Here. Let me take over so you don't get hurt." So he reached in and started pushing up so I backed out. Um, I believe that's when I met up with Cody. H- he had parked on the - on the south end of the wreck 'cause that's the direction he came from and he walked up and we met and, uh, one of us said, "Let's go look for the cow." I don't recall who. And so we walked back up hill, um, broken safety glass from - from the wreck everywhere, you know, both lanes

INTERVIEW WITH BRIAN WOOD Interviewer: Det. Jason Horst 11-04-15/2:57 pm Case # M15-140 Page 15

all over. Um, so looking to - to figure out where the impact was and - and find the cow. And we located it in that same, um, driveway that I had parked in front of which I - I believe end, you know, ends up being Yantis' driveway. Um, and it was, uh, it was pretty close to the road at that time and I - I don't recall - well, right now I only recall for sure is that it was in the driveway there and it was, uh - uh, a steady stream. It wasn't like dripping. It was a steady stream for its nose to the ground, multiple streams of - of, um, mucus and blood, um, which I've seen before and usually a pretty - pretty bad sign for a cow. And it also had - trying to make sure I get it right what side it was. Um, towards the back on the one side of it it had cuts and something hanging down like it had been hit by a car. Um, and, uh, its - one of its back legs was broken to where it would - it would hobble, um, you know, because of th- I assume the pain. Um, we both recognized - Cody and I both recognized - I don't remember what we said about it, but that it was - it was looking pissed and you can't - I guess you can't blame it, but it was looking pissed, um, so, um, I believe it was Cody on the radio asked dispatch to contact the owner of the bull, um, and he had a guess as to who it was. I don't recall if that was Yantis, what his guess was, but he asked dispatch to contact the owner. Um um, would you like me to explain why we do that, or is that...

Sure.

A:

Um - um, we - anytime a - a cow was injured, um, we don't like to make the decision for the rancher i- in terms of can that cow be rescued or not. That's - that's - we just don't have that experience and it's a- it's a financial liability issue that, you know, we'd rather make them the decision, uh, have them make the decision. That's their cow, their decision kind of thing. So, uh, we, uh, anytime a cow is hit, it's sort of standard for us get a hold of the rancher, let them come down, and, uh, and make that determination. So, um, that's, uh, something that's helpful to us and - and I imagine they appreciate getting to make that call so that's what, uh, sort of standard and that's what we did is to have him located to come down. Um, it - I don't remember at this point if it went on its own or if it was from us yelling but it went up the driveway, which would be south, um, 20 yards, um, and so it was - I'm gonna screw up. I - I don't wanna...

Just relax.

Yeah. I think the first place it went was north. There's a - a spot in the bushes where the two fences come together and it got itself nosed in the corner and we thought, "Okay, it's not bugging anyone there. We'll leave it alone for a while." And directly, I guess west on the highway from where that was, um, there was one of the first responders doing flagging for traffic. And - and, uh, um, I was concerned for him that we have a - an injured and upset bull, you know, very close to him. So I just to him, "Okay, I'm gonna leave. It looks

719

720

like it's, you know it's not bothering anybody, but yell at me if - if it comes back down towards the road." And, uh, he said, "Okay." Um, I went back, I don't remember where Cody was at this point, but I know I went back towards the wreck to see if there was anything I could help with there and, um, I don't think there was, um, and I don't recall if it was just the passage of time or if there was - there was nothing I could do down there. I decided to go back and make sure the bull wasn't still being a problem. And I know at this point Cody was with me again. Um, and the bull had come back down and it was more or less sideways to my car that was sort of sideways in that driveway. Um, Cody got on the backend of my car by the tailgate, I was at the front by the hood, and the bull was sort of in between and it'd look at him and look at me and it'd take a few steps towards him and he'd yell at it and it would stop sometimes or keep going sometimes, then it'd take a couple t- steps towards me. Um, at one point, I turned my light, uh, that light mounted to rifle, uh, turn the light on it and, um, you know, 'cause yelling didn't work. As it's coming towards me, I'd turn the light on, thinking maybe that would help, and it didn't, it just sort of zeroed in on that and kept coming. And I really didn't wanna shoot. In fact Cody - I couldn't tell you exactly when, but it was - I think it was probably the first time we s- we were dealing with the cow, we had a brief discussion about how, you know, a cow's worth X amount of dollars, you know, depending - or a bull, you know, depending - or for meat. If you shoot it, oftentimes then that ends up being a prized bull that's worth \$50,000. We don't wanna make that - that call. Sort of like, uh, what I discussed earlier. So we had actually had a brief discussion about that that we really didn't wanna shoot this thing. So I backed up into the road as it approached the hood of my car so I could just stay away from it. I don't wanna shoot it. Um, and, uh, um, at - somewhere around here, uh, Cody on the radio, Cody Roland, um, said a second, um, to dispatch that the cow is getting really aggressive, um, 'cause it kept doing these little, uh, motions towards us, um, and, uh, and I think at that time he also asked either is the rancher en route or - or re-asked 'em to get the rancher en route. I don't recall the response. Um, I backed up across the road, keeping my light off 'cause I didn't wanna piss the thing off more that the light did seem to help the first time, um, and I got to where, uh, my heels - I could feel I was off, you know, I was into the shoulder and the - the bull went past the front of my car and started coming across the road and then it started picking up speed. It - it hard to describe because the back leg was injured and so it wasn't like a superfast charge, but it was - it - getting, I don't know what you call - a gallop type - type motion to it, coming - coming straight at me, um, and, uh, anyway, so, um, brought the rifle and I fired I think about three times at its head and it started to turn and then I kept firing I know several more times. I don't know how many, um, in- into its body. Um, and it s- sort of stumbled forward and it collapsed, um, I think up against but more or less right up against a Dodge truck that was parked the same direction as mine so pointed south in the, uh, in the northbound lane, uh, you know, towards - towards the shoulder and it...

Q1:

Behind your truck?

That's correct. Behind my truck. Um, and, uh, you know, my - my natural desire with any animal that's suffering is - is to put it out of its misery if it's if it's the kind of thing where it's gonna die, I'd rather not see it suffer. Um, so my expectation at that point was okay. It's already injured from the car and now I just put rounds in it. I gotta go up and put this thing down and I walked up and the cow was faced with its head faced north, um, and just behind its head is, uh, if I remember right, the wheel well area of this Dodge truck and I wasn't gonna shoot and risk the guy's truck. I would have loved to get in front of it for - for a shot i- you know, into the - the brain area in between the eyes, but that would have been directly ev- all the first responders are downrange for that. So while I'm trying to figure out that little, um, problem as far as there's - there's not really good safe way to put him down, um, the rancher showed up, um, uh, I now know it's Jack Yantis. I didn't know that at the time, um, and, uh, he walked - I - I don't know the exact distance. I was probably less than 10 feet from the full. He walked between me and the bull, loading a rifle. Um, I'm naturally interested in guns and so I - I peeked to try to figure out what it was, just out of curiosity and I - just the light was at that particular moment and spot, I couldn't see what he had, but I could see he was pushing shells (unintelligible) actions - near as I could tell, it was a bolt action rifle, uh, with a scope, wood stock, and blue barrel. It's, you know, under the conditions and the light and him walking by, that's what it looked like. Um, and I thought, "Okay, well great. Now the rancher's here. He can - he can make the, you know, he can take care of that. He's probably put down lots of these. He knows what he's doing." Uh, so I was happy, you know, that - that the bull's gonna be put out of its misery and - and, uh, and that he arrived. Um, so I stood back a little bit or - or stood there. I don't - I think I stepped back. Uh, he walked around to the front of the bull so he's now facing south down - directly down the highway and he leaned forward way down low and brought the rifle...

Did he say anything when he came passed you?

Oh, yes, he did. Um, right as he was walkin' passed me, he said, "Put that piece a shit away." As he was loading his rifle and I - I assumed he was talking about my rifle. I don't - I guess I don't know that but that's - that was my assumption. So, um, thank you. Um, so a- he - he was - I assumed he was pissed either 'cause I had shot it and not put it down. I - anyway, so he - he leaned down to, uh, what I assumed to shoot it between the eyes, um, and he's

809

810

pointing directly - directly down at all of our ambulance guys and fire guys. And I said, um, uh, "Whoa, whoa. Stop. Hang on." And I stepped forward. I had my - my rifle because I had just shot the bull. I had my rifle slung across my chest, my hand on the grip, and I stepped forward with my left hand to put my hand out, um, sort of a - I di- I didn't really expect I was gonna grab the rifle 'cause I expect he'd stop and - anyway, put the hand out like this and hum, and, uh, I said, uh, you know, um, something along the lines of, "Stop. Hang on." Um, and he stepped back like this and swung the rifle across the belly and right down at all the responders and it was a really weird stance, but all I could think is because of the incredible safety problem I'd just seen, I thought, "Okay. He just is, um, having an incredible safety problem with where he's pointing at." I didn't expect he was going to shoot me, but it was all so really weird and I didn't know. Um, and, uh, so then I yelled at him, "Point that rifle down. Point that - point it down." Um, and he didn't. Um, and at that point, I put my other hand on the rifle, 'cause I wasn't sure what was happening. Um, I - I don't recall if I heard or saw Cody stepped up, but I know Cody Roland stepped up to my left side and that brought the attention that he was either angry or frustrated or whatever with me on- onto Cody. Um, and Cody - I have no idea what he said, but I could hear him issuing some kind of command and - and Mr. Yantis turned towards him and immediately shoved the rifle, he was already holding it sort of waist level like this, and shoved it out towards him like that. Um, so at that point, I brought my rifle. It was, I mean, literally directly towards Cody's chest. I brought my rifle up and before I got my rifle anywhere near Mr. Yantis' chest, I heard a gunshot, um, and, uh, um, so my - my belief at the time was that was Mr. Yantis' rifle, uh, because that's the motion I'd just seen. The gun came up and I heard a shot. Um, so I started firing into Mr. Yantis', uh, really as fast as I could. Um, I then heard more shots, um, which I believed had to be Cody, um - um, he - I know Mr. Yantis turned - I believe he turned to his left, um, so past me again and then his rifle was something along the lines of pointing up an angle, sort of maybe like just past me. Um, I was expecting, with both Cody and I firing, that he would either fall down or that he would drop the rifle and that's what I was expecting and, uh, I - absolutely hoping. I don't, um, he didn't, um, and with him still holding a rifle pointed like that and with the shot that had just been fired, I kept shooting, expecting again for the, you know, for that rifle and, you know, or Mr. Yantis to fall. Um, he ended up falling and holding the rifle the whole time. When he fell he was - he was holding onto it. Um, I believe, um, the first - right after that, I heard on the radio, which, uh - uh, I heard Cody on the radio, uh, he grabbed his radio and said, "Shots fired." I don't know if he said anything else, but he said, "Shots fired." Um, and then I grabbed my radio and said, "Shots fired. We need medics to the no- the north end of the wreck." And, um, it - I - if I remember I had - had to ask for 'em a couple times. It was - it was strange. They were all, I don't know, 80 yards away or something. It just seemed like there's medics, there's gunfire, they'd come, but they probably thought we were puttin' the bull down and so no one

853

854

855

realized what was going on. And when I did get a medic there, it was a - the first medic was a male. I don't know his name, um, I'd recognize him I think, but he, uh, I had to tell him a couple times, "There's multiple gunshot wounds right here." And he just looked at me, like, what? Like, uh, so it was hard to explain to him, I - you know, anyway, so I told him a couple times and then he came, uh, one of our dispatchers, who's also a - a, uh, EMT came, uh, (Chrissy Gripe), and so the two of them I think were the two primary medics that worked on - on Mr. Yantis. Um, let me back up. Before they got there, and I don't know the exact timing, um, I went, uh, I think it was right after I called for the medics. It would have been right after I called for the medics, I went to Mr. Yantis and he's holding the rifle like this and I - I put a hand on his should, rolled him up a little bit and reached to feel for a pulse and velled. you know, "Can you hear me? Can you hear me?" Um, he made some kind of sound, um, I don't know if it's a groan or what, but some kind of sound and so I quit looking for a pulse 'cause if you're making a sound I assume you got a pulse. Um, and, uh, shortly thereafter, that's when the medics came up, pointed, you know, explained to 'em twice that - that this guy had gunshot wounds and then as the medics were coming to - and my focus was on Mr. Yantis, as the medics were coming to help with him, the male medic said, "Hey, over there." And pointed and I saw Cody struggling with someone over near my car and, um, there were either family members or friends of Mr. Yantis present and, uh, by the g- by the time I got to my car, I believe one of those people was in handcuffs, um, either sitting on the ground or on a 4wheeler or sitting over there somewhere and, um, Cody was holding a - a man against my car and asked me if I had cuffs so I pulled my cuffs out and we cuffed t- both of us together. We set him in my car, um, he was claustrophobic. We ended up leaving the door open and - and, uh, and he - he sat in the car, it's a small cage, he sat in the car with his - with his feet out at least for a little bit. Um, and Cody explained to me at that time, um, that he had - that gentleman had been told to leave the crime scene 'cause it's - that's, uh, anyway, told to leave the scene twice, um, it was either multiple times or twice. I don't remember what he told me, but it was - it was one of the two. Anyway, told to leave. He kept coming back and the last time he came back, Cody witnessed him picking up, um, spent shell casings off the ground and that obviously was a concern for - for evidence and so he - he, uh, in - in addition to being told to leave a couple times and not, so he was - he was put in the - in the car. Um, I don't, um, somewhere - somewhere after that point, um, a female, um, approached and I - someone, I don't remember if she said or someone said that that was the daughter of Mr. Yantis, um, and, uh, Cody had asked me to - to throw some cones out, just to protect where we saw shells, um, so I grabbed a couple cones out of my car and had 'em in my hands still, um, and she tried to pass a whole bunch of people to go to him and both for her own - I don't want her to see her father like that and it's now a - a scene that needs to be investigated. I didn't want her over there, uh, so I had the - the cones in one hand and still had my rifle. Anyway, I sa- basically held

899 Q:

896

897

898

900

her back with those cones for a minute and she was explaining to me that she's the highest level medical person on scene, that the others were just EMTs and she was something higher. And I thought well, "Shoot. I - I don't, uh, I don't want to have any chance that this - this man could be helped or not. I also don't want this - this gal to see her father and - and, uh, you know, uh, a traumatizing s- situation more than necessary." Anyway so I turned to (Chrissy) and - and called her over. I said, "(Chrissy), you make the call." You know, 'cause I didn't know hi- his exact condition if - if there was something where there was hope of - of someone with more experience or whatever so (Chrissy) Came over and, uh, she ended up brining this lady, um, over to her father and, um, uh, (Chrissy) and the lady sort of went back and forth. (Chrissy) basically was trying to show her that - that based on the wounds, she didn't expect there was any - any reason to try whatever it is they could have tried. Um, and the - the gal was frantic saying, "Well do you have this?" Sshe was naming some equipment. I don't know the name of the medical equipment, but it sounded like medical equipment. She was asking if she had these things and (Chrissy) was saying, "No, we don't have those." Um, and, uh, so (Chrissy), I'm pretty sure it was (Chrissy), pointed and said that that gal's father - or, uh, her husband was in the crowd and so I went over and I said, you know, "Who's - wh- who's the husband of this gal?" And this guy said he was and I asked him to come remover her from the scene and he did. Um, I don't know how long after that, but I believe it was fairly soon after that, Meadows Valley - 'cause all this happened near Council, it was mostly Council responders, uh, Meadows Valley, um - um, ambulance sh- uh, two ambulances showed up with - with people I'm used to seeing and working with in the Meadows, um, showed up and a couple of them grabbed, um, me by the arms to take me into, y- you know, into an ambulance, um, and, uh, I don't recall - backup - somewhere shortly - shortly after calling paramedics, it may have been after they got there, I got back on the radio with dispatch and told 'em we ne- uh, supervisors and to notify the coroner, um, and s- sorry, that's out of order somewhere. Um, anyway, the paramedics were - were pulling me into the - the ambulance and I thought, um, I - I - I clearly wasn't thinking clearly, but I - I - I had my rifle and I knew once I got in the ambulance I was gonna be taken somewhere and my rifle was part of the situation and so, um, I didn't wanna take it with me and have that mess up the scene. That's probably what I should a done. Anyway, I - I looked around for someone I knew I could trust and we have a guy who's our tow truck driver, who's also our - one of the lead paramedics and he's a whole bunch of other things, ci- city employee, anyway, um - um, so I looked at - I said, "Doug, you know, take my rifle." And I gave him my rifle and apparently in, um, ianyway, I gave him my rifle and I had my radio in my hand at that same and he took that, so, um, and that I got into the ambulance.

Oh. Okay. Okay. Okay. Let's go back to the point where Mr. Yantis is facing down to the south and he brings the gun up to dispatch the animal. Do you

| 901        |     | make physical contact with him?                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

| 944        |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 945        | A:  | the head's right about here and the body's back - back this way. Um, when                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

he - I was somewhere right about here. Minner - Mr. Yantis is, you know, right in front of it, pointed this way, and so I stepped up and put my hand out. And like I said, I - I expected, you know, I mean that if someone's told to stop, hang on, there's the hand motion that he'd put the gun down or back or somethin', so I didn't expect I was actually gonna grab it. I - I guess in my mind if - if it got to that, I could of, but it - h- he didn't. He s- he stepped back a couple big steps and that's when he swept it across me like this and I thought, you know, I - I, like I said, wasn't sure what that, um, what the reasoning for that was. Um, so I was somewhere back in here and I - I know I took a couple big steps at least to get towards him to be like, "No, no, no. Hang on." 'Cause I didn't - I didn't want him to - to fire before...

...you know, he stepped back, uh, 'cause the - the direction was, I mean, I - I probably got this, I mean, he was perfectly right down at all the, uh...

Where is Cody?

Cody, I believe, was somewhere right back over here. So when I came forward and stuck my hand out and - and told him, "Whoa, hang on." I think I - my - I think I said, "Who, whoa. Hang on. We're not gonna do this." Or "We're not gonna do that." Something - it was one of those two. So he took a couple big, I - I don't know how to describe it, but a couple sort of big steps back, um, at an angle, somewhere - somewhere off - off this way, um, and, uh, that's when he's - he's pointing towards me. I don't know - I don't - if that's where he ended up, I don't know if it was more steps than I realized, but - but to me it looked like, you know, two or three big steps, um, out this way. Um, I don't know - at that point, I don't think I moved forward, but I know that's when his attention and what seems like frustration - anger towards me, shifted because I, like I said, either heard or saw Cody out of the corner of my s- eye step up and that drew that - the rifle and the attention from me to him, um, and that's when he shoved it out towards me.

Okay. Which direction does he fire?

Um, s- a- the way I recall it, I - I wish I hadn't seen this hear because that's the way I recall it, we would have been very close to the center lane. Um, he would have been somewhere near the center, um, I would have been somewhere here and like I said, Cody had stepped up so at this point, uh, this'll be Cody, me and Mr. Yantis. Cody had the rifle still already like this and then shoved it directly out towards Cody's chest it looked like...

Okay.

| 991          | Q2:    | You mean Mr. Yantis did?                                                            |
|--------------|--------|-------------------------------------------------------------------------------------|
| 992          |        |                                                                                     |
| 993          | A:     | Yeah, sorry, Mr. Yantis                                                             |
| 994          |        |                                                                                     |
| 995          | Q:     | Right.                                                                              |
| 996          |        |                                                                                     |
| 997          | A:     | shoved the rifle forward towards - towards Cody. It looked to me like it was        |
| 998          |        | under the armpit level, so somewhere in here and it looked like it was right at     |
| 999          |        | his che- they were very close to- together and it's a rifle so I mean just the -    |
| 1000         |        | the pointing of it, you could see, um, and, uh - uh, and then like I said           |
| 1001         |        | immediately after that, I heard a shot.                                             |
| 1002         | _      |                                                                                     |
| 1003         | Q:     | Okay. Do you know if that shot came from Mr. Yantis' gun or from                    |
| 1004         | ****** |                                                                                     |
| 1005         | A:     | I don't know. I - I don't know.                                                     |
| 1006         | 0      |                                                                                     |
| 1007         | Q:     | Okay. Um, any - any kind of give me a direction where he may                        |
| 1008         |        | V - 1                                                                               |
| 1009         | A:     | Yeah.                                                                               |
| 1010         | 0.     | have been fining which direction if he'd                                            |
| 1011<br>1012 | Q:     | have been firing which direction if he'd                                            |
| 1012         | A:     | Um                                                                                  |
| 1013         | A.     | UIII                                                                                |
| 1014         | Q:     | fired - if Mr. Yantis had fired that gun                                            |
| 1015         | Q.     | med - it ivit. I and s had fired that guil                                          |
| 1017         | A:     | Right, um, I believe that it was pointed just like - more or less just like that it |
| 1018         | 11.    | would have gone, you know, if it didn't hit Cody, you know, out this way            |
| 1019         |        | somewhere                                                                           |
| 1020         |        | some where                                                                          |
| 1021         | Q:     | Okay.                                                                               |
| 1022         | ζ.     |                                                                                     |
| 1023         | A:     | um, into that field. Um                                                             |
| 1024         |        |                                                                                     |
| 1025         | Q:     | And then you engage Mr. Yantis?                                                     |
| 1026         |        |                                                                                     |
| 1027         | A:     | That's correct.                                                                     |
| 1028         |        |                                                                                     |
| 1029         | Q:     | Okay. And you're firing basically in this direction here?                           |
| 1030         |        |                                                                                     |
| 1031         | A:     | Yep.                                                                                |

| 1065         | A:   | Right. Well, um, I - I want you guys to figure out and or know exactly what                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 1066         |      | happened here and, uh, so I wanna be as helpful as I can towards that. Um, I,                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 1067<br>1068 |      | you know, my concern is that I'd be - I could be wrong about, you know, that                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 1069         |      | distance so obviously, um, n-                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 1070         | Q:   | Well, granted, whether you're talking about 10 feet or                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 1070         | Q.   | wen, granted, whether you're talking about 10 feet or                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

| 1084         | A: | Right.                                                                             |
| 1085         |    |                                                                                    |
| 1086         | Q: | as far as we are concerned.                                                        |
| 1087         |    |                                                                                    |
| 1088         | A: | Mm-hm.                                                                             |
| 1089         |    |                                                                                    |
| 1090         | Q: | Okay? Um, ultimately what, you know, w- we've gotta ask you why did you            |
| 1091         |    | engage him with lethal force?                                                      |
| 1092         |    |                                                                                    |
| 1093         | A: | Yeah. Um, I was in fear for Cody. I thought Cody was about to be or was            |
| 1094         |    | being shot or had been shot. Um                                                    |
| 1095         |    |                                                                                    |
| 1096         | Q: | Mm-hm. Okay.                                                                       |
| 1097         |    |                                                                                    |
| 1098         | A: | and, um, so I returned fire to stop that threat and I kept shooting until I        |
| 1099         |    | thought the threat was stopped which, like I said, I was - I was hoping to see     |
| 1100         |    | either him fall or down or the rifle drop. Um, and that's, I guess, what I was     |
| 1101         |    | expecting to see.                                                                  |
| 1102         |    |                                                                                    |
| 1103         | Q: | Prior to this, is there anything that he does that makes you think that he's       |
| 1104         |    | escalated this and become, I mean                                                  |
| 1105         |    |                                                                                    |
| 1106         | A: | Um, I knew he was - I - I - I don't know what the best word - I know he was        |
| 1107         |    | pissed by the sound of his voice and the thing he said, you know, "Put that        |
| 1108         |    | piece a shit away, " as he walks by me.                                            |
| 1109         |    |                                                                                    |
| 1110         | Q: | Right.                                                                             |
| 1111         |    |                                                                                    |
| 1112         | A: | So I know he's angry there at the situation or what I did, um, wh- when he         |
| 1113         |    | points this way and I tell him, "Whoa, hang on. We're not doin' that." And he      |
| 1114         |    | steps back, I don't know if he was, i- if that further made him angry that - that, |
| 1115         |    | you know, a- after - after his cow has been shot now and tellin' him he can't      |
| 1116         |    | put it down the way he's planning. I don't know, but - but he - yeah, he was       |
| 1117         |    | clearly agitated. I didn't, um, when he had the rifle leveled, I - I really        |
| 1118         |    | couldn't tell if that just a horrible, horrible safety problem for every first     |
| 1119         |    | responder down here, o- or if it was worse than that. I- to me, I - I - I guess I  |
| 1120         |    | just couldn't believe that it could be worse than that. I mean, we're here         |
| 1121         |    | because of an accident and there's a cow down. I- it - it didn't make sense to     |
| 1122         |    | me that this would rise to the level of a - that kind of a serious anger thing, so |
| 1123         |    | I still - I still was thinking - I - I obviously was concerned for my own safety.  |
| 1124         |    | He was sweeping across my belly and all these other people, um, but at that        |
| 1125         |    | point, I - I still thought it - there - there ha- it - it couldn't be a possibly a |
|              |    |                                                                                    |

| 1126<br>1127<br>1128<br>1129<br>1130                                                                         |          | violence thing. I- it - it just didn't make sense. We're here over a wreck and a cow. Uh, I probably should a recognized that sooner. I don't know. Um, but that - that just didn't seem right and then when Cody stepped forward and he turned towards Cody, um, it looked more like that 'cause now he's still leveling it, but it's still that - that - nothing about this made sense.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|--------------------------------------------------------------------------------------------------------------|----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1131<br>1132<br>1133                                                                                         | Q:       | But he's not - he's not up on his shoulder.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 1134<br>1135                                                                                                 | A:       | No, it's down                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| 1138<br>1139                                                                                                 | A:       | here still. And                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 1140<br>1141                                                                                                 | Q:       | Okay.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 1142<br>1143<br>1144<br>1145<br>1146<br>1147<br>1148<br>1149<br>1150<br>1151<br>1152<br>1153<br>1154<br>1155 | A:<br>Q: | and so that's still - I thought, oh my gosh, and this is horrible. He's pointing a rifle but still I thought, um, I'm trying to think of the right word for it. I mean, it just - unbelievably horrible safety is what I was hoping and - and at least mostly assuming - as - as he's facing Cody, I could tell he's angry, I mean, like - like I knew he was angry when he walked by me and said, "Put that piece a shit away." But, um, when he shoved it forward at Cody, that's when everything clicked and I thought, "Oh my gosh. Cody's about to get shot." And, um, and then I heard a shot. And I - I m- m- my concern as I was bringing the rifle up, I heard a shot and I thought, "I'm too late. I know Cody's been hit." Or I wasn't gonna take the time to look over and see if he'd been hit, um, so that's, uh, I thought Cody was either being shot or had been shot.  So from the time you begin to engage, if you can remember, what does Mr. Yantis do when you start to engage him with - with the rifle fire? |
| 1157<br>1158<br>1159<br>1160<br>1161<br>1162<br>1163<br>1164<br>1165<br>1166<br>1167<br>1168                 | A:       | Um, as soon as I heard the one shot, I think my shot was next, so I don't know if the first was Mr. Yantis or Cody. I - I haven't talked to Cody about that. Um, I believe my shot was the second I heard and then I kept hearing other shots, which, like I said, I - I have to assume it's Cody. Um, my rifle's a lot louder, but somehow I could hear his, um, his handgun. Um, the best of my recollection, he had - what I believe he had fired that shot right at Cody, um, as soon as the shooting started, as far as me firing, he - if I remember right, pulled the gun in like this and turned like that. If - if you're me, like, you know, he turned like this so he's aimed a little bit off so now I'm scared that, you know, if                                                                                                                                                                                                                                                                                      |

| 1173 | A:       | Yeah, a little bit past me, but - but yeah, so he's - he's - the gun's sort a held                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 1174 |          | like this so it's up and, uh, um, then as the firing continued, like I said, I - I                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 1175 |          | just kept expecting to fall or drop the rifle, but if I remember right, he took a                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 1176 |          | few steps and turned like this and then fell over. Um, and, uh, one of those                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 1177 |          | bullets apparently hit the gun 'cause as you probably seen, there's - the stock                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 1178 |          | shattered, um, so. I - I neglected a part of the story if I can go back.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| 1187 | A:       | hadn't broken off and, uh - uh, I wasn't about to let paramedics work on a                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 1188 |          | guy while he's clutching a rifle, so I was on this side so the - like the western                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 1189 |          | side if Mr. Yantis, knelt down, probably on both knees, I reach over and                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 1190 |          | grabbed the rifle and threw it straight ahead a me. And, uh, if I recall                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 1191 |          | correctly, it ended up against either the tire or something at the back. I think it                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 1192 |          | hit that truck. I think it was the tire, so I, um, chucked it that way and it slid,                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| 1206 | A:       | Um, I think - I think I immediately approached, um, the w- the way he fell on                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 1207 | 2.4.     | the way it was pointed - it was pointed away from me, uh, I couldn't believe, I                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 1208 |          | - I don't know how many rounds I fired, but I couldn't believe that he didn't                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 1209 |          | fall earlier or drop the weapon earlier. Um, so I had fired a number of times. I                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 1210 |          | - I assumed hitting him. I still don't know. I still don't know if I hit him at all.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 1211 |          | Um, but I assume that between Cody and myself and the amount of time i-                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 1212 |          | maybe it was a split second. In my mind, it dragged on because I wanted this                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 1212 |          | guy to - to stop being a threat so he'd stop. Um, I assumed he was very badly                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 1213 |          | injured. I - I - at that point wasn't as afraid of him being an aggression. He'd                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 1214 |          | just fallen away from us and the rifle's like this. So I - if I remember right, I                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 1213 |          | just failed away from us and the first 8 like this. 30 f - if f femention right, f                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

| 1216 |          | went up to him right away and I think that's when Cody went to deal with                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| 1280 | Q2: | He's just askin' you, did he shoot at the bull?                                  |
| 1281 |     |                                                                                  |
| 1282 | A:  | Absolutely not. Absolutely not. I stopped him before he did by going for it      |
| 1283 |     | and saying, "Hey, whoa. Stop."                                                   |
| 1284 |     |                                                                                  |
| 1285 | Q1: | Okay.                                                                            |
| 1286 |     |                                                                                  |
| 1287 | A:  | Um, no, he did not fire at the - at the cow - or the bull.                       |
| 1288 |     |                                                                                  |
| 1289 | Q:  | Did you know Mr. Yantis?                                                         |
| 1290 |     |                                                                                  |
| 1291 | A:  | I did not. Um, I didn't know it at the time, I can't remember - I can't          |
| 1292 |     | remember when I realized, but I have dealt with him - I believe just once        |
| 1293 |     | before                                                                           |
| 1294 |     |                                                                                  |
| 1295 | Q:  | Uh-huh.                                                                          |
| 1296 |     |                                                                                  |
| 1297 | A:  | a few - few miles up this same highway, uh, estimate five or six miles -         |
| 1298 |     | could a been a little further, um, there were - I could point it out. Anyway,    |
| 1299 |     | there was a cow hit, um, by a vehicle and, um, I believe that one - the cow was  |
| 1300 |     | dead at that time. I - I - if I recall that stop, um, and I called - same thing, |
| 1301 |     | called for, you know, dispatch to notify the rancher and he came out with a - a  |
| 1301 |     | trailer, um, and his - his plan was to, I guess, take the cow. That              |
| 1302 |     | traner, um, and ms - ms plan was to, I guess, take the cow. That                 |
|      | 01: | Any any confrontation or issues at that point from that                          |
| 1304 | Q1: | Any - any confrontation or issues at that point from that                        |
| 1305 |     |                                                                                  |

| 1306 | A:                  | Um, I wouldn't say confrontation. Um, he was unpleasant with the driver of        |
|------|---------------------|-----------------------------------------------------------------------------------|
| 1307 |                     | the vehicle that had hit the cow, um, and, uh, unpleasant, short. I don't know    |
| 1308 |                     | what the - the word would be, but, um - um, yeah, he - he - he was, uh, clearly   |
| 1309 |                     | agitated or upset about the cow being hit and, um                                 |
| 1310 |                     | -6,,,,,                                                                           |
| 1311 | Q1:                 | Was he agitated toward you?                                                       |
| 1312 | Q1.                 | was no agratou to wata you.                                                       |
| 1313 | A:                  | I don't recall if he was or not.                                                  |
| 1314 | Λ.                  | I don't recan it lie was of not.                                                  |
| 1314 | Q1:                 | Um Any indication from you know working within that department Door               |
|      | Q1.                 | Hm. Any indication from, you know, working within that department. Does           |
| 1316 |                     | he got a reputation for being agitating towards law enforcement or                |
| 1317 |                     | ***                                                                               |
| 1318 | A:                  | Um, I                                                                             |
| 1319 |                     |                                                                                   |
| 1320 | Q1:                 | anything like that that you knew of?                                              |
| 1321 |                     |                                                                                   |
| 1322 | A:                  | Nothing at all that I knew of.                                                    |
| 1323 |                     |                                                                                   |
| 1324 | Q1:                 | Okay. Do you have an estimate of the number of rounds that you may have           |
| 1325 |                     | fired at Mr. Yantis?                                                              |
| 1326 |                     |                                                                                   |
| 1327 | A:                  | Um, I fully expect this number to be incorrect but my estimate would be           |
| 1328 | 1777 <del>3</del> 5 | somewhere around nine or ten rounds. May- maybe less. I - I don't know.           |
| 1329 |                     | Some - s- it seems like it - it - yeah, somewhere in that range.                  |
| 1330 |                     | some s it seems like it it year, somewhere in that range.                         |
| 1331 | Q1:                 | Okay. How was lightening? Uh, I mean                                              |
| 1331 | Q1.                 | Okay. How was lightening: On, I mean                                              |
| 1333 | A:                  | IIm                                                                               |
|      | A.                  | Um                                                                                |
| 1334 | 0.1                 |                                                                                   |
| 1335 | Q1:                 | was there an issue with - I realize there was an accident down below              |
| 1336 | - <b>1</b>          |                                                                                   |
| 1337 | A:                  | Mm-hm.                                                                            |
| 1338 |                     |                                                                                   |
| 1339 | Q1:                 | but was - were there - were there lights that were shining up into this area?     |
| 1340 |                     |                                                                                   |
| 1341 | A:                  | Uh-huh.                                                                           |
| 1342 |                     |                                                                                   |
| 1343 | Q1:                 | Could you see well?                                                               |
| 1344 | 260                 |                                                                                   |
| 1345 | A:                  | Um, I could see - I could see fairly well. There were m- as I recall, if this Mr. |
| 1346 |                     | Yantis' driveway and my patrol car was parked more or less right here, some-      |
| 1347 |                     | somewhere in this opening.                                                        |
| 1348 |                     | some water w was observed.                                                        |
| 1349 | Q1:                 | Mm-hm.                                                                            |
| 1350 | ×1.                 | TAME IIII.                                                                        |
| 1330 |                     |                                                                                   |

| 1351 | A:  | Um, and I had my overhead lights as well as two black, blue - or bl- back blue      |
|------|-----|-------------------------------------------------------------------------------------|
| 1352 |     | flashers, um, so I'd have red and blue that go all directions and two blues to      |
| 1353 |     | the back. So those were on, um, there's some light coming from the - the, uh,       |
| 1354 |     | emer- you know, the scene down below and there's also traffic. And I don't          |
| 1355 |     | recall at this moment how much there was. I know during times there was             |
| 1356 |     | traffic stopped up here and their headlights were shining down so I'd have          |
| 1357 |     | those as well. Um, I know, um, I believe I saw the, um, so when Mr. Yantis          |
|      |     |                                                                                     |
| 1358 |     | walked by me for example, uh, if I'm somewhere out in the road here and he          |
| 1359 |     | walked by me, he was loading a rifle as he walked by, um, you know, if I had        |
| 1360 |     | had two more seconds, I could of probably s- just a idea of the - the size at       |
| 1361 |     | least of the caliber and - and a type of the rifle. There was enough light for      |
| 1362 |     | that, it's just that he was walking by me. So there's - there's a fair amount of    |
| 1363 |     | light and then when - when this sc- scene happened, um, I didn't activate the       |
| 1364 |     | light on my rifle. I didn't need to. Everything going on was, um                    |
| 1365 |     |                                                                                     |
| 1366 | Q1: | You remember any vehicles up above you? Headlights shining down into that           |
| 1367 |     | scene at the time?                                                                  |
| 1368 |     | some at the time.                                                                   |
| 1369 | A:  | I don't recall any d- uh, shining down. Um, and I don't know if that's because      |
| 1370 | Λ.  |                                                                                     |
|      |     | there weren't any or I just don't remember, but no, I don't remember any            |
| 1371 |     | any lights at that time.                                                            |
| 1372 | 0.1 |                                                                                     |
| 1373 | Q1: | Okay.                                                                               |
| 1374 |     |                                                                                     |
| 1375 | A:  | You know, I - I felt like I could see the, you know, like I said, the - the actions |
| 1376 |     | I've described of him, you know - you know, turning and pulling the rifle and       |
| 1377 |     | stuff like that, um, I saw those all pretty well, so I don't know, you know, it's   |
| 1378 |     | hard to quantify how much light there was, but I - it seemed like there was         |
| 1379 |     | enough to where that wasn't a concern to me.                                        |
| 1380 |     |                                                                                     |
| 1381 | Q:  | Okay. I'd - I'd really like to try and re-approach this, um, the - the distances    |
| 1382 |     | issue and - and the reason why is I'm trying to clarify in my mind, um, so          |
| 1383 |     | Cody's standing to your left?                                                       |
| 1384 |     | cody s standing to your lett.                                                       |
| 1385 | A:  | That's correct.                                                                     |
|      | A.  | That's correct.                                                                     |
| 1386 | 0   | A                                                                                   |
| 1387 | Q:  | Approximately how far would you - would you say?                                    |
| 1388 |     |                                                                                     |
| 1389 | Q2: | When?                                                                               |
| 1390 |     |                                                                                     |
| 1391 | Q:  | Wh- d- I mean, right prior to the confrontation. I'm talking about when Mr.         |
| 1392 |     | Yantis                                                                              |
| 1393 |     |                                                                                     |
| 1394 | A:  | Yeah.                                                                               |
| 1395 |     |                                                                                     |
|      |     |                                                                                     |

| 1396 | Q:              | ex- you know, turns                                                                                                   |
|------|-----------------|-----------------------------------------------------------------------------------------------------------------------|
| 1397 | 3 <b>≜</b> 1025 | 77. 1                                                                                                                 |
| 1398 | A:              | Yeah.                                                                                                                 |
| 1399 |                 |                                                                                                                       |
| 1400 | Q:              | past you.                                                                                                             |
| 1401 | as:             |                                                                                                                       |
| 1402 | A:              | I'm gonna see if I can recreate this in my mind here. Um, 'cause I wasn't                                             |
| 1403 |                 | looking at Cody, but I could - out of the corner of my eye I was aware of him.                                        |
| 1404 |                 | Um, I think it was pretty close to the distance you and I are now, so nine to                                         |
| 1405 |                 | eight feet - nine feet - something like that.                                                                         |
| 1406 | v.=             |                                                                                                                       |
| 1407 | Q:              | The distance between                                                                                                  |
| 1408 | 2005            |                                                                                                                       |
| 1409 | A:              | That's                                                                                                                |
| 1410 | (2)             |                                                                                                                       |
| 1411 | Q:              | Cody and you?                                                                                                         |
| 1412 | 8               |                                                                                                                       |
| 1413 | A:              | Cody and me. A- and again                                                                                             |
| 1414 |                 |                                                                                                                       |
| 1415 | Q:              | Okay.                                                                                                                 |
| 1416 | •               |                                                                                                                       |
| 1417 | A:              | this is gonna be a - the best                                                                                         |
| 1418 | 0               |                                                                                                                       |
| 1419 | Q:              | That's okay.                                                                                                          |

| 1441<br>1442<br>1443<br>1444<br>1445                         | A: | to Cody. He pushed out towards Cody and I - the distance I remembered was - was very close. I mean, um, you know, if they'd both taken a step forward and reached ha- uh, hands, I'm pretty sure they could of touched each other. I know they were n- I believe they were very close.                                                                                                                                                                                                                                                         |
|--------------------------------------------------------------|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1446<br>1447                                                 | Q: | Okay. So when you're looking at this, you're - you're seeing that rifle out?                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 1448<br>1449<br>1450<br>1451<br>1452                         | A: | Yep. And - and that's where all my focus went. So like I said, I didn't turn to see. I - I never saw Cody's gun, so I, you know, I didn't know if it was out or if it's in a holster at the time. Um, I just saw that, um, the gun come forward, uh, you know, at Cody. Um                                                                                                                                                                                                                                                                     |
| 1453<br>1454                                                 | Q: | Well if you don't see Cody's gun out                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 1455<br>1456                                                 | A: | Yeah.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 1457<br>1458                                                 | Q: | you're                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 1459<br>1460                                                 | A: | Yeah.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 1461<br>1462                                                 | Q: | you had stated earlier that you thought                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 1463<br>1464                                                 | A: | Yeah.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 1465<br>1466                                                 | Q: | you didn't know if Cody shot first or                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 1467<br>1468                                                 | A: | Right.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 1469<br>1470                                                 | Q: | if Yantis shot first.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 1471<br>1472<br>1473<br>1474<br>1475<br>1476<br>1477<br>1478 | A: | Yeah, because I didn't see Cody's gun. I didn't know. I - I didn't know. I - I heard lots of shots as I'm shooting, I heard other shots so at some point Cody's gun was out. I don't know, uh, like I said, my - Mr. Yantis, at that point, was the threat so I wasn't looking to turn to Cody. I was - I was - and maybe it was a lot of tunnel vision. I don't know, but I was looking at Mr. Yantis, um, and like I said, uh, Cody - Cody came forward and that took the frustration and anger, whatever you wanna call it, from me to Cody |
| 1479<br>1480                                                 | Q: | Mm-hm.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 1481<br>1482<br>1483<br>1484<br>1485                         | A: | as we're both telling him to point the rifle down. I was telling him to point the rifle down. I - I don't recall the command Cody was giving, um, and that's part of how I know where Cody was 'cause he came forward and - and drew that attention off of me. Um, then that's                                                                                                                                                                                                                                                                 |

| 1486<br>1487<br>1488 | Q:  | Well, maybe - maybe you would remember, um, so if - if Mr. Yantis fired, wwould you have noticed the recoil in his rifle? |
|----------------------|-----|---------------------------------------------------------------------------------------------------------------------------|
| 1489                 | A:  | No.                                                                                                                       |
| 1490                 |     |                                                                                                                           |
| 1491                 | Q:  | Because you were focused on Mr. Yantis.                                                                                   |
| 1492                 | *** | •                                                                                                                         |
| 1493                 | A:  | I know. Um, my rifle was, if I reca- maybe I was closer to him than I realize.                                            |
| 1494                 |     | Um, as I was bringing the rifle up and as the gun went out and I heard a shot,                                            |
| 1495                 |     | um, I don't know if my arms or rifle were blocking - so maybe the rifle's                                                 |
| 1496                 |     | higher then. I don't know. I didn't, um, I didn't and I know - don't know if I                                            |
| 1497                 |     | would have seen or heard, I mean had seen recoil or - or anything like that. I                                            |
| 1498                 |     | don't know.                                                                                                               |
| 1499                 |     |                                                                                                                           |
| 1500                 | Q:  | Okay. What about, uh, injuries? You - you - I'm - I'm just trying to clarify,                                             |
| 1501                 | 2   | did you say that you didn't know if Cody had been hit?                                                                    |
| 1502                 |     | • • •                                                                                                                     |
| 1503                 | A:  | That's correct.                                                                                                           |
| 1504                 |     |                                                                                                                           |
| 1505                 | Q:  | At any time, did you try and engage Cody about being hit or anything like                                                 |
| 1506                 |     | that, or?                                                                                                                 |
| 1507                 |     | *                                                                                                                         |
| 1508                 | A:  | Um, after                                                                                                                 |
| 1509                 |     |                                                                                                                           |
| 1510                 | Q:  | How did that go?                                                                                                          |
| 1511                 |     |                                                                                                                           |
| 1512                 | A:  | um, after Mr. Yantis fell, and I believe it was - it was after the - the initial                                          |
| 1513                 |     | confrontation with the family members, then I went over and helped them, we                                               |
| 1514                 |     | were standing, I believe over on this side of the road again, uh, or maybe                                                |
| 1515                 |     | towards the middle, but I know we were back a little ways from my vehicle,                                                |
| 1516                 |     | uh, it's like, maybe it was down here. Anyway, we were back a little ways and                                             |
| 1517                 |     | Cody said, "Am I hit?" And I was like, "Oh, shit." I know that can get happen                                             |
| 1518                 |     | where you get hit and you don't know because of the adrenaline or whatever.                                               |
| 1519                 |     | And I said, you know, "Where?" And he said, "On my side." And so I started                                                |
| 1520                 |     | yankin' his shirt, untucking his shirt out of his pants and - and trying to feel                                          |
| 1521                 |     | and look around to see if there's, you know, if there's blood or anything like                                            |
| 1522                 |     | that. Um, I didn't find any- I didn't take his armor off, but I didn't find any a-                                        |
| 1523                 |     | find any blood seeping down or anything like that. Um, and he's like, "Oh, I -                                            |
| 1524                 |     | I'd - I" He told me that he felt something and, uh, um, I don't recall the way                                            |
| 1525                 |     | he described it, but he - he said he, um, when the rifle came out, um, he said                                            |
| 1526                 |     | when - when it - when it was fired, he said he was turned - I think it was to                                             |
| 1527                 |     | avoid the bullet, but he was turned and then something hurt. So I don't know                                              |
| 1528                 |     | if it's a m- I don't know what it was, but - but I checked to make sure he                                                |
| 1529                 |     | wasn't hit.                                                                                                               |

1530

| 1531 | Q: | Okay. Brief- just - I'm sorry.                                                      |
|------|----|-------------------------------------------------------------------------------------|
| 1532 |    |                                                                                     |
| 1533 | A: | Yeah.                                                                               |
| 1534 |    |                                                                                     |
| 1535 | Q: | Tell me one more time, when did that occur? You said that you guys stepped          |
| 1536 |    |                                                                                     |
| 1537 | A: | Yeah, and I - I believe it was after we got the second family member, s- like I     |
| 1538 |    | said, the first one, um, I wasn't involved in the first on, I - but if I remember   |
| 1539 |    | right, they were handcuffed either on - on the 4-wheeler or sitting down -          |
| 1540 |    | something. And it was after we got the second one, that male that had been          |
| 1541 |    | picking up shells off the scene, we got him in my truck, um, so maybe we're         |
| 1542 |    | standing right back here. I - it was - it was after - I believe it was after we got |
| 1543 |    | some of that scene more                                                             |
| 1544 |    |                                                                                     |
| 1545 | Q: | Okay.                                                                               |
| 1546 |    |                                                                                     |
| 1547 | A: | under control.                                                                      |
| 1548 |    |                                                                                     |
| 1549 | Q: | All right. So                                                                       |
| 1550 |    |                                                                                     |
| 1551 | A: | Uh                                                                                  |
| 1552 |    |                                                                                     |
| 1553 | Q: | what you can remember is you guys were almost like at a moment of pause             |
| 1554 |    | maybe?                                                                              |
| 1555 |    |                                                                                     |
| 1556 | A: | Mm-hm.                                                                              |
| 1557 |    |                                                                                     |
| 1558 | Q: | Or                                                                                  |
| 1559 |    |                                                                                     |
| 1560 | A: | Yeah. Yeah.                                                                         |
| 1561 |    |                                                                                     |
| 1562 | Q: | y- that's - I get - if - if that                                                    |
| 1563 |    |                                                                                     |
| 1564 | A: | Yeah.                                                                               |
| 1565 |    |                                                                                     |
| 1566 | Q: | makes any sense what I just said.                                                   |
| 1567 |    |                                                                                     |
| 1568 | A: | Yeah, there - yeah, there wasn't a huge amount of pause 'cause we're the only       |
| 1569 |    | two deputies on this                                                                |
| 1570 |    |                                                                                     |
| 1571 | Q: | Right. You guys were working                                                        |
| 1572 |    |                                                                                     |
| 1573 | A: | Yeah, but                                                                           |
| 1574 |    |                                                                                     |
| 1575 | Q: | on securing the scene, etcetera, etcetera?                                          |

| 1576 |         |                                                                                 |
|------|---------|---------------------------------------------------------------------------------|
| 1577 | A:      | yeah, but that was pretty important when he says, "Am I hit?" I mean, that      |
| 1578 |         | was a, you know                                                                 |
| 1579 |         |                                                                                 |
| 1580 | Q:      | So he didn't ask you that like right after                                      |
| 1581 |         | 3                                                                               |
| 1582 | A:      | I don't think it was right after. I think                                       |
| 1583 | //75/TE |                                                                                 |
| 1584 | Q:      | You don't                                                                       |
| 1585 |         |                                                                                 |
| 1586 | A:      | I think it was a little bit, like I said - like you said, in a moment of pause  |
| 1587 |         | afterwards. Uh, I don't think it was right, right after.                        |
| 1588 |         |                                                                                 |
| 1589 | Q:      | Okay.                                                                           |
| 1590 |         | <b>y</b>                                                                        |
| 1591 | A:      | Um                                                                              |
| 1592 |         |                                                                                 |
| 1593 | Q:      | Okay.                                                                           |
| 1594 | ζ.      | ,·                                                                              |
| 1595 | A:      | but as you've seen, some of my, uh, it's - it's hard to recall                  |
| 1596 | ***     | out as you ve seen, some or my, an, it's not a hard to recall                   |
| 1597 | Q:      | Yeah. Sure.                                                                     |
| 1598 | ۷.      | Tour. Sure.                                                                     |
| 1599 | A:      | some - some of the - the timing or exact distances. Um                          |
| 1600 | 4 1.    | some some of the third of exact distances. On                                   |
| 1601 | Q:      | I'm just trying to help you refresh your memory because                         |
| 1602 | ۷.      | I m just trying to help you renesh your memory occurse                          |
| 1603 | A:      | Yeah.                                                                           |
| 1604 | 11.     | Tour.                                                                           |
| 1605 | Q:      | you're - you're making some statements that make me think that, you know,       |
| 1606 | Q.      | spatially, you're set back far enough that you see this picture                 |
| 1607 |         | spatially, you're set ouch far chough that you see this picture                 |
| 1608 | A:      | Right.                                                                          |
| 1609 | 11.     | Night.                                                                          |
| 1610 | Q:      | between Cody and Mr. Yantis                                                     |
| 1611 | Q.      | oetween cody and ivit. Tantis                                                   |
| 1612 | A:      | Yeah.                                                                           |
| 1613 | 11.     | Tour.                                                                           |
| 1614 | Q:      | where a - a gun barrel is coming up, but, you know, there's                     |
| 1615 | Q.      | where a a gair ourier is coming up, out, you know, there s                      |
| 1616 | A:      | Yeah.                                                                           |
| 1617 | 4.4.    | 1 Vani.                                                                         |
| 1618 | Q:      | there's just some details that, you know, I - I think if you're seeing that pi- |
| 1619 | ζ.      | like for me if I'm seeing that                                                  |
| 1620 |         | nke for me if i in seeing that                                                  |
| 1020 |         |                                                                                 |

| 1621 | A:   | That I should have seen?                                                             |
|------|------|--------------------------------------------------------------------------------------|
| 1622 |      |                                                                                      |
| 1623 | Q:   | picture, that                                                                        |
| 1624 |      |                                                                                      |
| 1625 | A:   | Yeah.                                                                                |
| 1626 |      |                                                                                      |
| 1627 | Q:   | that maybe you could re- recall                                                      |
| 1628 |      |                                                                                      |
| 1629 | A:   | Right.                                                                               |
| 1630 | ***  | Mgm.                                                                                 |
| 1631 | Q:   | like the recoil of one gun or Cody's gun being out or                                |
|      | Q.   | ince the recon of one gun of Cody's gun being out of                                 |
| 1632 | ۸.   | Diela                                                                                |
| 1633 | A:   | Right.                                                                               |
| 1634 | 0    | 1 (0.1 )                                                                             |
| 1635 | Q:   | because if there's a confusion                                                       |
| 1636 |      |                                                                                      |
| 1637 | A:   | That's                                                                               |
| 1638 |      |                                                                                      |
| 1639 | Q:   | of - of                                                                              |
| 1640 |      |                                                                                      |
| 1641 | A:   | what makes me think I may be much closer than I realize.                             |
| 1642 |      |                                                                                      |
| 1643 | Q:   | Okay.                                                                                |
| 1644 | 1000 |                                                                                      |
| 1645 | A:   | Um, I - in that that would make more sense that I'm seeing him jut the rifle         |
| 1646 |      | towards him without seeing the whole scene, um, and the other thing I know,          |
| 1647 |      | when I brought - I have a - a EOTech red dot sight. It's - it's one of the two       |
| 1648 |      | fastest sights, I believe, for - for that type of weapon. So bringing it up and      |
| 1649 |      | using the red dot is very easy, i- intuitive, quick, and I didn't do that. It was so |
| 1650 |      | close that I brought the gun up like this and I was watching Mr. Yantis while        |
| 1651 |      | firing over my gun and at least initially I had no concern. I still don't know if I  |
|      |      |                                                                                      |
| 1652 |      | hit 'em, but I had no concern at the time about missing. He was close enough         |
| 1653 |      | that I was looking over the gun, um, and, um, some - so maybe even based on          |
| 1654 |      | that, maybe I was closer than I realized. Uh                                         |
| 1655 | 0    |                                                                                      |
| 1656 | Q:   | Okay. I wanna ask you one more, uh, thing as far as - as far as that and in -        |
| 1657 |      | I'm not worried about distances or anything. I'm talkin', um, I - I - I'm trying     |
| 1658 |      | to get my mind around how Mr. Yantis responded                                       |
| 1659 |      |                                                                                      |
| 1660 | A:   | Right.                                                                               |
| 1661 |      |                                                                                      |
| 1662 | Q:   | to your - to the gunfire.                                                            |
| 1663 |      |                                                                                      |
| 1664 | A:   | Right.                                                                               |
| 1665 |      |                                                                                      |
|      |      |                                                                                      |

| 1668       A:       Mm-hm.         1669       Q:      um, Cody         1671       A:       Yeah.         1672       A:       Yeah.         1673       C:      you, right?         1675       A:       Yep.         1676       A:       Yep.         1677       C:       Is that - he - close to you         1679       C:       Is that - he - close to you         1680       A:       Yeah, a little bit more space, but yes. Yep.         1681       C:       Yeah, sure. Cody's to your left?         1683       A:       Yep.         1684       A:       Yep.         1685       Q:       And I'm Mr. Yantis.         1687       Yep.         1688       A:       Yep.         1690       Q:       Okay. |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | 1710 |      |                                                                              |

| 1711         | Q:  | All right. And then the gunfight breaks out?                                        |
|--------------|-----|-------------------------------------------------------------------------------------|
| 1712<br>1713 | A:  | Mm-hm.                                                                              |
| 1714         |     |                                                                                     |
| 1715         | Q:  | Talk me through how to turn as                                                      |
| 1716         |     |                                                                                     |
| 1717         | A:  | Yeah.                                                                               |
| 1718         |     |                                                                                     |
| 1719         | Q:  | I'm Mr. Yantis.                                                                     |
| 1720         |     |                                                                                     |
| 1721         | A:  | Yep. Uh, during the first - very few, you know, I don't know if that's two or       |
| 1722         |     | three, but during the r- first very few rounds, you would have crossed me and       |
| 1723         |     | then aimed right about up - ri- probably right here at first with - with the rifle. |
| 1724         |     | Then as more shots fired, you'd continue turning that way. Bo- bring the rifle      |
| 1725         |     | close to your body and eventually fall over to your left side.                      |
| 1726         |     |                                                                                     |
| 1727         | Q:  | Okay.                                                                               |
| 1728         |     |                                                                                     |
| 1729         | A:  | Or                                                                                  |
| 1730         |     |                                                                                     |
| 1731         | Q:  | So he's doing                                                                       |
| 1732         |     |                                                                                     |
| 1733         | A:  | yeah.                                                                               |
| 1734         |     |                                                                                     |
| 1735         | Q:  | basically this kind of motion?                                                      |
| 1736         |     |                                                                                     |
| 1737         | A:  | Yes, 'cause                                                                         |
| 1738         |     |                                                                                     |
| 1739         | Q:  | Here                                                                                |
| 1740         |     |                                                                                     |
| 1741         | A:  | Yep.                                                                                |
| 1742         |     |                                                                                     |
| 1743         | Q:  | and then down?                                                                      |
| 1744         |     |                                                                                     |
| 1745         | A:  | That's - that's the way I recall it, yes.                                           |
| 1746         |     |                                                                                     |
| 1747         | Q:  | Okay. Okay. Okay. I think that's all the clarifying questions I wanted to ask.      |
| 1748         |     | Sergeant Boone, if you, uh, have any others.                                        |
| 1749         |     |                                                                                     |
| 1750         | Q1: | Um, you remember weather, temperature, anything like that?                          |
| 1751         |     |                                                                                     |
| 1752         | A:  | I don't remember any precipitation, um, obviously dark with the exception of        |
| 1753         |     | the lights, um, the wind was blowing - I don't know miles per hour, but - but       |
| 1754         |     | somewhere around five, six, to eight miles an hour roughly this direction, uh,      |
| 1755         |     | a- in relation to the roadway, um, uphill. Uh, I know, uh                           |

| 1756 |     |                                                                                           |
|------|-----|-------------------------------------------------------------------------------------------|
| 1756 | 01  | W1 1                                                                                      |
| 1757 | Q1: | Why do you                                                                                |
| 1758 | Na  | TT T P1 N 2 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1                                             |
| 1759 | A:  | Um, I didn't notice that at the time, like right at the moment, but very shortly          |
| 1760 |     | after, there were little bits of - what it first look like little bits of cotton ball or, |
| 1761 |     | you know, almost like you'd have it off a cottonwood tree, blowing up the                 |
| 1762 |     | street, and it took me a second, it was sort of surreal, to figure out what in the        |
| 1763 |     | world is that? Uh, I believe it was stuffing from Mr. Yantis' jacket and it was           |
| 1764 |     | moving that direction.                                                                    |
| 1765 |     |                                                                                           |
| 1766 | Q1: | Okay. All right.                                                                          |
| 1767 |     |                                                                                           |
| 1768 | Q:  | You've had time, I mean, you've had a couple days to digest this, um, in your             |
| 1769 |     | mind and, you know, we've - we've just re- re-lived everything from                       |
| 1770 |     | beginning to end. Is there something that he could have done different that               |
| 1771 |     | would have prevented you guys from engaging him with lethal force?                        |
| 1772 |     |                                                                                           |
| 1773 | A:  | Absolutely. Um, at - at - at any point, um, at any point, he could of, um, well,          |
| 1774 |     | honestly, we - we didn't engage him when he was sweeping across me and the                |
| 1775 |     | other I, uh - uh, um, all these first responders and myself, we didn't engage             |
| 1776 |     | him them. So even - even not pointing the rifle down may have been just fine              |
| 1777 |     | for him. It was, um, so - so, yes, what he could of done to - to prevent that is          |
| 1778 |     | not shove the rifle towards Cody, um, and - and nothing other than that, um               |
| 1779 |     |                                                                                           |
| 1780 | Q:  | And - and                                                                                 |
| 1781 |     |                                                                                           |
| 1782 | A:  | yeah.                                                                                     |
| 1783 |     |                                                                                           |
| 1784 | Q:  | in your mind, he shot at Cody?                                                            |
| 1785 | ζ.  |                                                                                           |
| 1786 | A:  | Yes. I - I believe                                                                        |
| 1787 |     |                                                                                           |
| 1788 | Q:  | A- a- all right.                                                                          |
| 1789 | ζ.  |                                                                                           |
| 1790 | A:  | yeah, I be-                                                                               |
| 1791 |     | yean, roe                                                                                 |
| 1792 | Q:  | Well, I mean, we're                                                                       |
| 1793 | Q.  | Wen, I mean, we Ie                                                                        |
| 1794 | A:  | Yeah.                                                                                     |
| 1795 | 11. | rean.                                                                                     |
| 1796 | Q:  | You're gonna - you're gonna hear all kinds of different things, all right?                |
| 1797 | ζ.  | Tou to gomia - you to gomia near an kinds of different timigs, an fight:                  |
| 1797 | A:  | Yeah.                                                                                     |
| 1798 | Λ.  | 1 can.                                                                                    |
| 1800 | 0:  | But we're interested in what you believe happened.                                        |
| 1000 | Q:  | But we to interested in what you believe happened.                                        |

| 1801         | ۸.  | Diale                                                                                |
|--------------|-----|--------------------------------------------------------------------------------------|
| 1802         | A:  | Right.                                                                               |
| 1803<br>1804 | 0.  | Not you know                                                                         |
| 1805         | Q:  | Not, you know                                                                        |
| 1806         | A:  | And I - I don't - it probably sounds weird 'cause everything happened so fast.       |
| 1807         | A.  | When that shot happened and I started shooting and then I - I assumed he had         |
| 1808         |     | shot at Cody and I didn't know if Cody was hit or not and I, you know, wasn't        |
| 1809         |     | gonna take a second to look, um, as I was shooting, then I heard Cody                |
| 1810         |     | shooting. And I didn't know, um, all of a sudden, i- I had somehow time in           |
| 1811         |     | that moment to go, "Oh, if that wasn't him shooting." I know he threatened           |
| 1812         |     | him. He shoved it out at him. If that wasn't him shooting, there's a still a         |
| 1813         |     | round in that gun, and the chamber, and it's a bolt action. They usually have        |
| 1814         |     | easy triggers so I was very concerned when it came across me and was still           |
| 1815         |     | being held like this that - that he's ready to fire again. So I had both             |
| 1816         |     | possibilities were in my mind. Um, not when I started - when I started               |
| 1817         |     | shooting, I - I believe that Cody had been shot at. Um, but, you know,               |
| 1818         |     | whatever that was a half second later, I thought, "Oh, shoot, you know, he           |
| 1819         |     | may be ready to shoot again."                                                        |
| 1820         |     |                                                                                      |
| 1821         | Q1: | Okay. I'm - I'm good.                                                                |
| 1822         |     |                                                                                      |
| 1823         | Q:  | All right. You have anything?                                                        |
| 1824         |     |                                                                                      |
| 1825         | Q2: | No, I - no, no I think he's adequate. I mean, the - I think the important part,      |
| 1826         |     | he's touched on it two or three times, is notwithstanding everything that I'm        |
| 1827         |     | seeing on social media and the news channels, the rancher having a gun there         |
| 1828         |     | didn't create any concern.                                                           |
| 1829         |     |                                                                                      |
| 1830         | A:  | No.                                                                                  |
| 1831         |     |                                                                                      |
| 1832         | Q2: | That was a welcome sight at that point. And, y- I think he's described that that     |
| 1833         |     | as even as he's muzzling folks with that rifle, there's no - it's not like a typical |
| 1834         |     | scenario, no- but there's not urgency or that fear yet until he points at Cody.      |
| 1835         |     | But I think he's gotten that out, 'cause it's not - this isn't a typical scenario.   |
| 1836         |     | Not that any of them are typical.                                                    |
| 1837         | 0   |                                                                                      |
| 1838         | Q:  | Okay. No v- um, uh, one - one last question. Do you recall s- making or do           |
| 1839         |     | you recall Cody making any verbal commands to Mr. Yantis prior to the                |
| 1840         |     | shots?                                                                               |
| 1841         |     | T. 17                                                                                |
| 1842         | A:  | Uh                                                                                   |
| 1843         | 0   | A C 1                                                                                |
| 1844         | Q:  | As far as the, you know                                                              |
| 1845         |     |                                                                                      |

| 1846 | A:                 | as - as far as it being jutted out or the moving around?                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| 26<br>27                                                    | Q1: | Okay. Sorry.                                                                                                                                                                                                                                                                                                                                                                                                             |
| 28<br>29<br>30<br>31<br>32<br>33<br>34                      | Q:  | No, no problem. So, uh, Cody we, uh, I just wanna make sure that you, you know, are - are fully aware and understand that this is a criminal investigation. Um, right now you're not required to make a statement to us, um, but we wanna make sure that - that you do understand, for the record, that, um, you - you have the right to have an attorney present and you don't have to talk to us. Do you still wish to |
| 35<br>36                                                    | A:  | Yes I do.                                                                                                                                                                                                                                                                                                                                                                                                                |
| 37<br>38<br>39<br>40                                        | Q:  | make a statement to us? Okay. Today. All right, so we've already establishes you're - this is, uh, Cody Roland. How old are you? What's your date of birth Cody?                                                                                                                                                                                                                                                         |
| 41<br>42                                                    | A:  |                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 43<br>44                                                    | Q:  | All right. And, what, uh, rank do you currently hold?                                                                                                                                                                                                                                                                                                                                                                    |
| 45                                                          | A:  | Uh, Deputy.                                                                                                                                                                                                                                                                                                                                                                                                              |

| 141<br>142                      | Q:  | Mm-hm.                                                                                                                                                                                                                                                    |
| 143<br>144                      | A:  | so it was never because trouble or                                                                                                                                                                                                                        |
| 145<br>146                      | Q:  | Okay.                                                                                                                                                                                                                                                     |
| 147<br>148                      | A:  | write-ups or anything like that.                                                                                                                                                                                                                          |
| 149<br>150                      | Q1: | No. How long did you work down at Gooding?                                                                                                                                                                                                                |
| 151<br>152<br>153<br>154        | A:  | Um, just one year. He just needed help getting the - they were basically starting from scratch. He just needed help getting set up, he needed a sex crimes detective                                                                                      |
| 155<br>156                      | Q1: | Mm-hm.                                                                                                                                                                                                                                                    |
| 157<br>158<br>159               | A:  | I - I've been doin' the internet crimes against children stuff with, uh, Canyon County and so I went to Gooding.                                                                                                                                          |
| 160<br>161                      | Q1: | Mm-hm. Where'd you go after Gooding?                                                                                                                                                                                                                      |
| 162<br>163                      | A:  | Valley County.                                                                                                                                                                                                                                            |
| 164<br>165                      | Q1: | Okay.                                                                                                                                                                                                                                                     |
| 166<br>167                      | Q:  | What capacity did you work for Valley County?                                                                                                                                                                                                             |
| 168<br>169                      | A:  | I worked for 'em twice, um, the first time I was Patrol Sergeant.                                                                                                                                                                                         |
| 170<br>171                      | Q:  | Mm-hm.                                                                                                                                                                                                                                                    |
| 172<br>173<br>174<br>175        | A:  | Um, I left to do the, uh, police missions in Iraq and when I came back to Valley County in 20- let's see, when did I leave? I left in '08 and I came back in 2010 and then I was just hired on as Patrol Deputy.                                          |
| 176<br>177                      | Q:  | So then, uh, 2008 you re- you returned to Valley County?                                                                                                                                                                                                  |
| 178<br>179                      | A:  | No, I left Valley County in '08 to                                                                                                                                                                                                                        |
| 180                             | Q:  | Oh, that's right.                                                                                                                                                                                                                                         |

| 181 |    |                                                                            |
|-----|----|----------------------------------------------------------------------------|
| 182 | A: | go overseas.                                                               |
| 183 |    |                                                                            |
| 184 | Q: | Okay.                                                                      |
| 185 |    |                                                                            |
| 186 | A: | And I came back in 2010. It was either January of 2010 or December of, uh, |
| 187 |    | 2009 but it's right there at first of the year.                            |
| 188 |    |                                                                            |
| 189 | Q: | Okay, so 2010 you returned to Valley County and you said as a              |
| 190 |    |                                                                            |
| 191 | A: | Just Patrol Deputy.                                                        |
| 192 |    |                                                                            |
| 193 | Q: | Patrol Deputy? So how long did you work for Valley?                        |
| 194 |    |                                                                            |
| 195 | A: | 2012. So, another two years.                                               |
| 196 |    | Saleston di Nobel X. Emilia internati, statuta i X. Protestano.            |
| 197 | Q: | All right. So 2012, where did you go after Valley County?                  |
| 198 |    | ,                                                                          |
| 199 | A: | Um, I started my own business and worked with - in my uncle's business in  |
| 200 |    | North Dakota.                                                              |
| 201 |    |                                                                            |
| 202 | Q: | Interested in what kind of business was that?                              |
| 203 |    |                                                                            |
| 204 | A: | I had a mobile pressure washing business and my uncle's had (frack) water  |
| 205 |    | hauling trucks.                                                            |
| 206 |    | · · · · · · · · · · · · · · · · · · ·                                      |
| 207 | Q: | That was in North Dakota?                                                  |
| 208 |    |                                                                            |
| 209 | A: | Yeah.                                                                      |
| 210 |    |                                                                            |
| 211 | Q: | Okay. How - and when did you complete doing that? When were you            |
| 212 |    |                                                                            |
| 213 | A: | 20- uh, last year, 2014, November.                                         |
| 214 |    |                                                                            |
| 215 | Q: | Okay. What did you do after that?                                          |
| 216 |    | ,                                                                          |
| 217 | A: | Then I went to the gas fields in, uh, Pennsylvania in December of 2014.    |
| 218 |    |                                                                            |
| 219 | Q: | How long did you work out there?                                           |
| 220 |    |                                                                            |
| 221 | A: | Um, 'til June 26th.                                                        |
| 222 |    |                                                                            |
| 223 | Q: | 2015?                                                                      |
| 224 |    |                                                                            |
| 225 | A: | Yeah.                                                                      |
|     |    |                                                                            |

| 226 |     |                                                                                 |
|-----|-----|---------------------------------------------------------------------------------|
| 226 | 0.  | A11 .:.1.4                                                                      |
| 227 | Q:  | All right.                                                                      |
| 228 | 14  |                                                                                 |
| 229 | A:  | And then, um, I - I actually still work for that company but I was supposed to  |
| 230 |     | leave this Saturday, I had to call 'em and tell 'em that's probably not gonna   |
| 231 |     | happen.                                                                         |
| 232 |     |                                                                                 |
| 233 | Q:  | Okay. And is it safe to say that after you returned from there that's when you  |
| 234 |     | began your employment with Adams County? Or                                     |
| 235 |     |                                                                                 |
| 236 | A:  | Y- yeah, I was just, uh, gonna reserve just to keep my certifications up. The   |
| 237 |     | Sheriff was shorthanded and needed help and                                     |
| 238 |     |                                                                                 |
| 239 | Q:  | Okay.                                                                           |
| 240 | Q.  | Okty.                                                                           |
| 241 | A:  | talked me into                                                                  |
| 242 | A.  | talked life lifto                                                               |
| 243 | 0.  | Full time?                                                                      |
|     | Q:  | run time?                                                                       |
| 244 | A : | C 11 ( ) P 11 ( ) ( )                                                           |
| 245 | A:  | full time. Full time temporary.                                                 |
| 246 | 0   |                                                                                 |
| 247 | Q:  | So it - it's pretty clear that you do have quite a breadth of law enforcement   |
| 248 |     | experience, uh, albeit, it's not for one agency, we're just trying to establish |
| 249 |     | that you have, you know, a - a breadth of law enforcement experience, so. All   |
| 250 |     | right. Do you have any questions, uh, before we?                                |
| 251 |     |                                                                                 |
| 252 | Q1: | No.                                                                             |
| 253 |     |                                                                                 |
| 254 | Q:  | Um, zero in on the other night and, uh, with regards to the shooting situation, |
| 255 |     | um, what time did you come to work that night?                                  |
| 256 |     |                                                                                 |
| 257 | A:  | I believe I was - it was either 8:00 or 9:00 in the morning.                    |
| 258 |     |                                                                                 |
| 259 | Q:  | Okay. Is that your regular shift, or?                                           |
| 260 |     |                                                                                 |
| 261 | A:  | No, I - I've been on swing shift for a couple weeks. We have a deputy that      |
| 262 |     | was, uh, day shift that's been on vacation. I kinda covered for him. I was      |
| 263 |     | kinda varying my times, 8:00 to I - I think one day I come out at 8:00, one day |
| 264 |     | I come out at 9:00 so it was right there 8:00 or 9:00 in the morning.           |
| 265 |     | reome out at 7.00 so it was right there 0.00 or 7.00 in the morning.            |
| 266 | Q:  | So I'm sorry, you said you were - you - you came in to cover shift early?       |
| 267 | Q.  | 30 1 m sorry, you said you were - you - you came in to cover sinit carry:       |
| 268 | A:  | Yes.                                                                            |
| 269 | л.  | 105.                                                                            |
| 270 | 0:  | Okov                                                                            |
| 270 | Q:  | Okay.                                                                           |

| 271 |             |                                                                             |
|-----|-------------|-----------------------------------------------------------------------------|
| 272 | A:          | Uh, the - what is today, Tuesday? So this Saturday, Sunday, yesterday and   |
| 273 | 13.62       | today I was supposed to be covering day shift for the other deputy.         |
| 274 |             | today I was supposed to be covering day sinte for the other deputy.         |
| 275 | Q:          | Okay. Okay, what's your radio designator?                                   |
| 276 | Q.          | Okay. Okay, what's your radio designator?                                   |
|     | ۸.          | 2302                                                                        |
| 277 | A:          | 2302.                                                                       |
| 278 | 0           | 2202 P                                                                      |
| 279 | Q:          | 2302. Prior to coming on duty, um, did you get a good night sleep before    |
| 280 |             | then?                                                                       |
| 281 | A.c.        |                                                                             |
| 282 | A:          | Uh, I don't recall anything out of the ordinary so I must - must have.      |
| 283 |             |                                                                             |
| 284 | Q:          | Approximately how many hours would you say?                                 |
| 285 |             |                                                                             |
| 286 | A:          | Probably six or seven.                                                      |
| 287 |             | *                                                                           |
| 288 | Q:          | Okay.                                                                       |
| 289 | ~           |                                                                             |
| 290 | A:          | I have two little kids so I don't get massive amounts of sleep.             |
| 291 |             | That the mile mas so I don't get massive amounts of steep.                  |
| 292 | Q:          | I understand. When was the last time you ate prior to the shooting?         |
| 293 | Q.          | T understand. When was the last time you are prior to the shooting.         |
| 294 | A:          | Actually right before it, I was at my daughter's 1-year-old birthday party. |
| 295 | A.          | Actually right before it, I was at my daughter's 1-year-old birthday party. |
| 296 | 0:          | Okay.                                                                       |
|     | Q:          | Okay.                                                                       |
| 297 |             | 6 - 171 - 4 - 1 1 - 6                                                       |
| 298 | A:          | So like two hours before.                                                   |
| 299 | 0           |                                                                             |
| 300 | Q:          | Okay. Um, do you remember what you had to eat?                              |
| 301 | 4           |                                                                             |
| 302 | A:          | I do. Stew and cake and biscuits and bread and                              |
| 303 |             |                                                                             |
| 304 | Q:          | Okay.                                                                       |
| 305 |             |                                                                             |
| 306 | A:          | a lot.                                                                      |
| 307 |             |                                                                             |
| 308 | Q:          | Um, you on any medication at all?                                           |
| 309 |             |                                                                             |
| 310 | A:          | No.                                                                         |
| 311 |             |                                                                             |
| 312 | Q:          | Okay, um, did you have anything to drink alcohol wise                       |
| 313 |             |                                                                             |
| 314 | A:          | No.                                                                         |
| 315 | <u> ४००</u> |                                                                             |
| 010 |             |                                                                             |

| 316<br>317                             | Q: | at the - at this little gathering?                                                                                                                                                                                                                                                                                                                                   |
|----------------------------------------|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 318<br>319                             | A: | No.                                                                                                                                                                                                                                                                                                                                                                  |
| 320<br>321                             | Q: | Okay. Throughout the day had you been - it had been a fairly busy day?                                                                                                                                                                                                                                                                                               |
| 322<br>323<br>324<br>325<br>326<br>327 | A: | No, um, I'm trying to think of what calls I may have had. Like I said, I was scheduled to leave this Saturday so I've been, you know, completely tryin' to only do what I have to do so I don't generate a lot of reports and court time and other than cows in the road I can't, uh, I think I had a vandalism complaint and some livestock on the road type calls. |
| 328<br>329                             | Q: | Uh-huh.                                                                                                                                                                                                                                                                                                                                                              |
| 330<br>331                             | A: | No crashes, nothing serious, I do know that much.                                                                                                                                                                                                                                                                                                                    |
| 332<br>333                             | Q: | Anything out of the ordinary that day?                                                                                                                                                                                                                                                                                                                               |
| 334<br>335                             | A: | Nothing. Absolutely nothing.                                                                                                                                                                                                                                                                                                                                         |
| 336<br>337                             | Q: | Okay. Um, do you carry a audio/video, uh, device on your uniform                                                                                                                                                                                                                                                                                                     |
| 338<br>339                             | A: | Yes                                                                                                                                                                                                                                                                                                                                                                  |
| 340<br>341                             | Q: | when on duty?                                                                                                                                                                                                                                                                                                                                                        |
| 342<br>343<br>344<br>345               | A: | yes and no. I carry it in the vehicle. Any call for service that could result in arrest, um, complaints, for instance, all traffic stops, um, responding to someone's house, car crashes, vehicle versus cow, or deer, or elk                                                                                                                                        |
| 346<br>347                             | Q: | Mm-hm.                                                                                                                                                                                                                                                                                                                                                               |
| 348<br>349                             | A: | I - I never take it out.                                                                                                                                                                                                                                                                                                                                             |
| 350<br>351                             | Q: | Mm-hm. Okay.                                                                                                                                                                                                                                                                                                                                                         |
| 352<br>353<br>354<br>355               | A: | This case was no different. I was - I showed up on scene and I had to park back in traffic and I ran up to the crash scene and had - never even thought about the camera or had a reason to get it.                                                                                                                                                                  |
| 356<br>357<br>358<br>359<br>360        | Q: | Okay, well that's - I mean that's all we're covering is the fact that you didn't have it on you at the time of the incident. Um, so you have, I mean, because you didn't have anything you don't have the ability to go back and re-you know and                                                                                                                     |

| 361                      | A:  | Right.                                                                                                                                                                                                  |
|--------------------------|-----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 362<br>363<br>364<br>365 | Q1: | and review that. Can you tell me about the weapon that you used in this incident?                                                                                                                       |
| 366<br>367               | A:  | It's a Glock Model 30, um, it's the, uh, just a little shorter than the Glock 21.                                                                                                                       |
| 368<br>369               | Q1: | Mm-hm.                                                                                                                                                                                                  |
| 370<br>371               | A:  | I have had it since 2001 I believe. 2001 or 2002.                                                                                                                                                       |
| 372<br>373               | Q1: | Mm-hm.                                                                                                                                                                                                  |
| 374<br>375               | A:  | Uh, no, I mighta bought it in 2000.                                                                                                                                                                     |
| 376<br>377               | Q1: | But it's personally owned?                                                                                                                                                                              |
| 378<br>379               | A:  | Yes.                                                                                                                                                                                                    |
| 380<br>381               | Q:  | And you use it as your primary duty?                                                                                                                                                                    |
| 382<br>383               | A:  | Yes.                                                                                                                                                                                                    |
| 384<br>385<br>386        | Q:  | Do you have any, uh, any modifications to it or extended magazines or anything?                                                                                                                         |
| 387<br>388<br>389<br>390 | A:  | I do, I have a extended mags in my magazine pouch, not in the - I have the short mag in the gun, in the holster and then the two extended mags in my holder.                                            |
| 391<br>392               | Q:  | Okay. How many rounds in the short mag?                                                                                                                                                                 |
| 393<br>394               | A:  | Uh, I believe 10.                                                                                                                                                                                       |
| 395<br>396<br>397        | Q:  | Was the - was the magazine - do you carry it like, uh, 10 in the magazine and then one in the chamber or do you just stick it in and then                                                               |
| 398<br>399<br>400<br>401 | A:  | Normally I load it full, um, I have a couple of the different short mags and I can't, I'm embarrassed, it's kind complacency, um, some of the mags if you load 'em full you're not gonna get it to lock |
| 402<br>403               | Q:  | Mm-hm.                                                                                                                                                                                                  |
| 404<br>405               | A:  | in the gun so sometime - some of the mags, um, are carried minus one.                                                                                                                                   |

| 406               | Q:  | Okay.                                                                                                    |
|-------------------|-----|----------------------------------------------------------------------------------------------------------|
| 407<br>408<br>409 | A:  | I, like I said, I'm embarrassed, I can't tell ya if that's one of those mags, if I had 10 in it or nine. |
| 410<br>411        | Q:  | Oh, okay, you don't know if you had 10 or nine in the                                                    |
| 412<br>413<br>414 | A:  | In the                                                                                                   |
| 415<br>416        | Q:  | in the weapon as it was in your holster prior to the shooting?                                           |
| 417<br>418        | A:  | The                                                                                                      |
| 419<br>420        | Q:  | That's - that's all I'm tryin' to get at is just the gun itself.                                         |
| 421<br>422        | A:  | The gun would've had at least 10 because there would've been one in the gun.                             |
| 423<br>424        | Q:  | Okay. At least 10, possibly 11 but you don't know for sure?                                              |
| 425<br>426        | A:  | Eleven max, I know it had 10 though.                                                                     |
| 427<br>428        | Q:  | Okay. No less than 10                                                                                    |
| 429<br>430        | A:  | No less than 10.                                                                                         |
| 431<br>432        | Q:  | Okay.                                                                                                    |
| 433<br>434        | Q1: | What kinda ammunition do you guys use?                                                                   |
| 435<br>436        | A:  | Um, I use, uh, department issued Winchester Ranger 230 grain jacketed hollow-point.                      |
| 437<br>438<br>439 | Q1: | They're department issues?                                                                               |
| 440<br>441        | A:  | Yes. I was gonna bring the box and I forgot it.                                                          |
| 442<br>443        | Q:  | When's the last time you qualified your gun with them?                                                   |
| 444<br>445        | A:  | Uh, I'm gonna say July.                                                                                  |
| 446               | Q:  | You know- July 2015?                                                                                     |
| 447<br>448        | A:  | Yes.                                                                                                     |
| 449<br>450        | Q1: | Did you have any other firearms on you at the time of the incident?                                      |

| 451                                                  |                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

Okay, do you have patches on the sleeve or                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

A:

I was out on (Kenza Kupa) Road, um, another call with cows on the road, I heard the call to EMS about the injury crash, um, I believe they said two miles north of (Council), I turn around, start comin' this way, then they dispatch me. When I start up (Fort Hall) Hill which is 140 and 1/2ish, I can see a whole mess of lights up there. I'd already heard, uh, EMS, you know, sayin' they need the extraction, I get there, I can't really tell who is what vehicles are. people passin' through, and what vehicles are, uh, volunteers, so I just park in the line of cars, jump out of my pick-up, run up to the crash site, um, there was just swarms of people around the car helpin'. Um, I gave dispatch the plate number, I went back down to my pick-up and got my camera, went back up, I couldn't really get any pictures, uh, I - I had heard Deputy Wood check out on scene, um, at that time he had come down, I started askin' him, you know, where's the animal that this car hit, the car was just - I would - I mean it was just destroyed, I - it was a little bit shocking. Um, we walked north to see if we could fine where the accident occurred. There was a large boulder under the car and I - I didn't know if they had gone off the road and carried that boulder or if EMS had put that there to keep the car from moving. So, we walk north and I - I remember tellin' Deputy Wood that I've been to 100's of accidents and never seen that much glass, um, that whatever got hit has gotta be layin' here dead somewhere. I - I can't say for sure if it was 100 yards, 200 yards or how many feet it was, um, I shine my light to the east, um, there was a dirt road going kind of to the southeast up a hill and when I shined my flashlight up there I seen a large, uh, black angus bull, um, I grew up in a ranching community, I've owned cattle, I knew exactly what it was. Deputy Wood started walking up the hill, um, the bull had his tail up and his head down which means he's gonna get va, and I start yellin' at Wood to get away from that animal. I can see some blood and hide, like a strip of hide that has been - would've been on his left - left flank, so I - I was 99% sure that was obviously the animal that'd been hit. Deputy Wood comes back down, I told him, you know, that - to stay away from him, you know, there's nothin' - he -

INTERVIEW WITH CODY ROLAND Interviewer: Robert Boone 11-03-15/9:41 am Case # M15-140 Page 13

he will get ya. So we stayed there, um, tried to keep the animal there, he was he wasn't charging anybody at that time, he, like I said, he was 100 feet up the road and probably 30 feet, 40 feet from the highway going east. At some point I left and walked back down to the traffic crash because, uh, I - Deputy, uh, (Bower) was down there in a firefighter capacity. He told me that was a 4Y brand on the bull and I - I - I had heard the (Yantis) name before but I - I thought Deputy (Bower) was saying (Jantis) or (Jauntice) so when I - I radios dispatch and told 'em it was a 4Y brand...

Q1: Mm-hm.

551 552 A:

...I walked back up, the bull had come down the road and there was like a - I'm not really sure how to describe it, where two fences met there was kinda of a corner he was in, in some tall grass. Uh, Deputy's Wood - Deputy Wood's vehicle was facing south on the east side of the highway, um, kinda blockin' that bull in. There was an old ambulance facing northeast kinda nosed in with his headlights on the bull and then we just stood there watching the bull. I don't know when it was, I know I told dispatch at least once, maybe twice that the bull was agitated, um, we gotta get somebody down here. I told Deputy Wood several times, "We cannot shoot this bull unless we absolutely have to," um, number 1 I can't shoot him with my sidearm, it's not gonna do nothin' but agitate him. I said - by this time Deputy Wood had got his rifle out in case the bull did charge. I told him, "You're gonna be lucky if the rifle does anything." So we stand there, we're just talking, um, it was - it was fairly calm other than the mess around the traffic accident.

Q1: Mm-hm.

569 A:

Um, this wasn't anything new, um, I had just done one of these, um, it wasn't a car crash but it was an injured, uh, rancher's cow up in New Meadows. You gotta really treat 'em with kid gloves, you know, ranchers care about their animals, that was another reason I explained to Wood, you know, let the rancher do what he needs to do and pretty soon the bull to-turned towards us and he took maybe a step and I yelled at him and he stopped. A minute went by, seconds went by, I don't know, the bull came at us again. I yelled at him, threw up my arms, he stopped. This kept happening, he kept working closer and closer to the pick-up. Um, me and Deputy Wood were both around the driver's side door, front fender of his pick-up. As the bull got closer Deputy Wood, uh, I believe was standing in front of the grill, I had moved around and kinda taken cover behind the rear passenger of his pick-up and then I was kind of out of sight but we were still talking back and forth and I could tell he was right around the driver's side headlight of his pick-up. The bull made another change and came right up to the pick-up kind of front of the bed, back of the rear door on the driver's side and stood there. I don't know how long he stood there, um, he started workin' his way towards the back of the pick-up and then

INTERVIEW WITH CODY ROLAND Interviewer: Robert Boone 11-03-15/9:41 am Case # M15-140 Page 14

stopped again. On the other side of the highway there was a either fire or EMS person, I'm not sure who it was, flagging traffic. Um, at one point Deputy Wood came around and moved towards the person flagging the traffic. Uh, it's just a little bit fuzzy, um, the bull then walked out on the highway, I would say he was - wasn't quite to the - to the center line yet, maybe a foot of the center line and stopped, um, I wasn't on a 90 degree from Wood, I was a little bit further than that, um, I, like I said before, um, my pistol wouldn't have done anything, I couldn't shoot but I couldn't shoot regardless because I would've been shooting towards, um, the flagger.

596 Q1: Mm-hm.

598 A:

All of a sudden the bull just puts his head down and goes right after Wood. I seen some of the shots, I heard all the rest, I'm, you know, watching, I don't know how many shots were fired, I think initially three and then another three, um, so six. The bull didn't even flinch, I - I do remember that but he stopped. He worked his way - then he went back over to the other side of the highway and laid down facing north right on the fog line, white Dodge pick-up right there. As soon as, um, that happened a four wheeler pulled up. I'm still kind of towards the center line, um, Deputy Wood approached the four wheeler, there was a man and a woman on the four wheeler. They have a rifle, um, I - I just knew it was the owner, I mean...

609 Q1: Mm-hm.

 A:

...and this is where it - it's always tough, um, it's one of the few incidents or calls for service, whatever you wanna call it, where there's gonna be somebody you don't know in your scene with a loaded gun and you let 'em do it.

616 Q1: Mm-hm.

618 A:

Um, like I said before, I just had an incident in New Meadows and you're just kinda there to, if they need any help or, you just there to help. Um, so when Deputy Wood approached the four wheeler, the male said, um, I'll never forget it the rest of my life, I should've acted on it then. He said, "Get that piece of shit away from my animal." Automatically assumed he's talkin' about, um, Deputy Wood's rifle. But, like I said, this isn't - this isn't our first rodeo, the incident I just handled a month or two months ago, the rancher showed up with a loaded gun, he's very upset because he's gonna have to kill an animal, um, his livelihood. I should've put more stock in those words but I totally understood he was upset. I've had to do the same thing with my own animals. Deputy Wood nor myself said a word to him, um, he walked - he was - he walked north towards the bull, he stood there with his back to me, um, the rifle barrel was in the air and I could tell he was loading. He started walkin',

674

675

after he got it loaded, he started walkin' towards the bull, uh, me and Deputy Wood, if I remember correctly, Deputy Wood was to his right at that time. He started walking towards the bull. There was a lot of light there but I, for a few minutes, I did have my flashlight on the bulls head, um, just to help him get, uh, have - have a better site picture and just help illuminate it. Uh, Deputy Wood had already instructed the flagger to clear all the southbound traffic, let them go, everything was clear to the north, um, it was safe to put the bull out of his misery. When the owner got towards the bull, he walked around to the side of the bull and I thought he was gonna shoot, you know, maybe under the ear or, you know, whatever, but there was a pick-up sittin' right there, so I got - I got ready to say something but then he kept moving around the front. I didn't know at - then I was startin' to, you know, speculate, okay is he just lookin', you know, checkin' the bull out, deciding where to shoot it or what. Deputy Wood was right there with him, um, all of a sudden he pulls that rifle up and is gonna shoot straight south, um, the Y, uh, I didn't - at the time I didn't know his wife, but the, uh, female on the four wheeler was directly behind the bull on the south side of the bull and then you have all the EMS personnel to the south. Um, I personally know how thick those bulls skulls are and regardless of that point, I was not gonna allow him to shoot south towards all those people. I don't know my exact words, if I said, "No, no, no," "Hey, hey, hey," uh, what I said, I said something, um, and then Deputy Wood said something to the effect of, "Hey, we're not doing this," um, it - the owner had kind of wh- when one of us, I don't - I'm not sure when he - he - he kinda lifted his head up, uh, and kinda took his attention away from pulling the trigger right that second and then he went - he kinda re-aimed like he was gonna do it anyway and then Deputy Wood tried to intervene. I don't know if Deputy Wood grabbed the gun, pushed the gun, what happened, I know Deputy Wood, um, used his left hand to try and stop the situation. I thought so I started movin', 'cause I was a little ways away, I'm not sure how far, I started trying to get up there to him, the owner, for whatever reason just shoved Deputy Wood sideways, I seen Deputy Wood, his left leg was in the air and he kinda hopped to the side on his right foot. As soon as Deputy Wood lost control of that, uh, loaded gun, I reached down to try and unholster my pistol. The owner and - and this is what has really been bothering me is I don't know why he turned to me, um, don't get me wrong, I didn't want him to turn on anybody but I complacency, I - I don't know, the - just a delicate situation and I - I just don't know why, but he just turned to me and pulled up and fired from the hip. Um, by the time he was facing me, um, I don't know how far drawn I was, um, I don't know if, you know, if I was here or just barely leaving the holster, it was almost simultaneous, um, all's I - I - I remember the - the blast of that rifle and it just, for the lack of a better term, just rung my bell, um, between that rifle goin' off and my pistol, I - I just barely started getting, you know, a lot of my hearing back yesterday. I - I know I was zeroed in on that rifle, um, I - I know I had some tunnel vision because I - I don't recall anything peripheral wise, um, all's I remember is zeroing in on that rifle

719

720

and, uh, I just, I could be way off but I'm pretty sure I fired three to four rounds. I know my - my last shot, I need to back up just a little bit. When that rifle went off, I felt the - the best way I can explain it is like a very light breeze on my leg and a heavy one underneath, uh, my armpit kind of between the armpit and, uh, side protection of my vest and I had a pain in my ribs. My left hand was over my right side and I'm holding my right side. It - it had spun me so my left - my left side would've been canted towards the, um, what I call suspect at this point. I think I started to move. I remember after the first shot he was fidgeting with the gun, some of it is supers slo-mo in my he- slow motion in my head, I know it was seconds if not hundreds of seconds but that gun goin' off is like 10 minutes in my head. The last shot I fired it - it stuck in my head that if it wouldn't have - the last shot I seen the rifle barrel start to go back down and then he started to go backwards, kind of, uh, kind of back and to his right. When that gun barrel went down, I - I stopped firing. If I remember correctly, I wouldn't have - I wouldn't have been able to fire anymore because I was a little bit off balance and the next one could've gone -I just didn't know, but regardless the - when that gun barrel went down and he started to tip, um, that was - that was my last - the last shot I fired. Um, there had been a skidster coming up the southbound lane coming north, the person presumably that was driving that come running around, he's screamin' and yellin', the female had gotten off the four wheeler, was screaming and yelling, I backed up so I - one of 'em was to my left, one of 'em's to my right, uh, I started yelling at them to get down on the ground, um, Deputy Wood's tryin' to deal with the suspect, I seen him grab the rifle, throw it. Um, after Deputy Wood threw the rifle, he - the- the male complied after I don't know how many commands, he laid down, Deputy Wood took care of him, um, I went the female was laying down at this point, I had holstered, um, was tryin' to cuff her, I had the cuffs on her left wrist, I only had one pair of cuffs, somebody had come behind me, said, "I need cuffs," and taken one pair out. I wanna say - I don't know if it was Deputy Wood or, um, like I said, Deputy (Bower) was there in a firefighter capacity, I don't know if he did it, I don't know who did it, somebody took a pair of cuffs. The female, I had her left hand behind her back, her right arm was still extended, I'm tellin' her to put her hand behind her back. She's saying she can't do it, um, because of her shoulder. I, uh, pat search her as best I can, um, at that point I didn't care it was a female, I checked her waist, I checked shoulders, coat pockets, took the cuffs off and had her sit on that four wheeler, checked the four wheeler for weapons and then I went and dealt with - after the male was cuffed, um, I'm assuming Deputy Wood has searched him, Deputy Wood went back to the suspect. The male that was on the ground, um, was complainin' that the, I believe it was the right cuff, was too tight. I loosened it up, um, the - the incident with the male and female was a - a little bit blurry, just my focus was so much on what had just happened. At some point I stood him up and walked him to the four wheeler and I remember him asking if, um, I could put another set of cuffs on him, so I put, uh, I added a second set of cuffs to him and

764

765

explained to him after what just happened, we don't know who everybody is, you - everybody's yellin' and screamin', you know, I'm not gonna get shot in the back. I said, "You're not in any trouble but I'm not takin' you out of these cuffs," and then he starts tellin' me, at some point during that, he was telling me he was this person's nephew. Um, after he was at the four wheeler, I don't know exactly what or where - I'm not sure what I was doing, I was away from them about 20 feet, um, I kept checking my left hand for - that was actually before when he was - I gotta back up, when he was still on the ground and, 'cause I don't know, uh, at - at some point I don't know if they're on the ground already up, or before they ever got taken down, I'm checkin' my left hand, um, for blood. I - I don't know why the pain was there, if it was the way I moved, if it was the shock from the rifle, I don't know. Regardless, I kept checkin' my left hand. The female is screaming at me, "Why did you shoot him," um, I do know I replied, "Because he shot me in the side." After they were at the four wheeler, Deputy Wood, I don't know if he saw me holding my side, if he saw something, I - I didn't know, he comes running over and starts rippin' my clothes up and runnin' his hand up the inside of my vest. Um, and - and he's yellin' at me, "Where you hit, where you hit," uh, I said, "I don't know, I - I'm not seeing any blood." Um, I'm not sure how much time went by, another individual had come into the scene, Deputy Wood asked him who he was, he said, he was a neighbor or he said somethin' about somebody's pick-up was in his driveway or a four wheeler or something and he was asked to leave. He came back in to the scene and the male that I had handcuffed, they start chatterin' back and forth how, um, something to the effect that we just shot him for no reason, yada, yada. I tell him, "You need to leave, you've already been asked to leave," he starts pickin' up shell casings and I grabbed him by the back of the coat and I'm - I'm like, "You're under arrest, um, you just tampered with a major crime scene," and he didn't throw the casings off the road, I don't know how many he had, another thing - I don't know why certain things bug you and why certain things stick in your mind, he picked up - when - when I seen him pickin' up the brass, for whatever reason, um, I did see him pick up one of my shiny, uh, shell casings that I - I knew was mine and for whatever reason that is sticking in my head, um, I know he picked up two casings, I don't - I - I - I know for sure one was mine. I'm not sure what else he picked up. He didn't toss 'em to either side of the road, he just - he didn't really throw 'em down he just kinda - didn't drop 'em but kind of a cross between a drop and a throw, tossed 'em, uh, back on the pavement. He took two or three steps to the southeast as - and then he tossed 'em back down, um, I had him up against, uh, Deputy Wood's pick-up, um, I'm yelling at Deputy Wood for handcuffs, um, Deputy Wood came over, uh, he fought me a little bit, not - not fight but was pushin' off the pick-up and tryin' to turn around and, you know, just pull his hands away. We get him cuffed, we sit him in the pick-up, these, uh, legs facin' out, door was open, um, then he starts apologizing and we talked, um, got him settled down, I'm -I - I said, "Whatever happens, it's not up to me or Deputy Wood. When the

766 Idaho State Police get here, um, it - it'll be completely up to them if you go to 767 jail or go home." I never did get his name, um, uh, I - I stood there for a little 768 bit and somebody relieved me and I, for the life of me don't know who it was, 769 um, it might've been Deputy (Merritt) that stood there and watched him. All's 770 I know is EMS come runnin' over and said, "You need to get in the 771 ambulance now," they got me in the ambulance, started rippin' my clothes up 772 and that's, uh, Deputy Wood was already in the ambulance, uh, it was such a 773 chaotic scene and so short on help. I know during the incident I had gotten on 774 the radio and asked - told dispatch that I - I don't know my exact words, I - I 775 just told her, "Whoever's comin' they need to hurry," um, like I said, when I 776 got in the ambulance, Deputy Wood was already in there. Um, there was two 777 people with us on the ambulance crew, one of 'em was kinda comin' and 778 goin' and Deputy Wood, um, did tell them that somebody - somebody has to 779 stay in the ambulance 'cause we cannot, you know, we can't be together. The 780 one personnel on board said, "We know that, one of us'll stay here with you 781 guys," then they gave me this piece of paper and I started jottin' notes right 782 there in the ambulance. Um, it was - I - I don't know what time when 783 somebody said is - nobody - nobody actually said, um, he was dead, the - the -784 the reason I knew is they - they asked me to call for the coroner and then 785 somebody said, "No, no, no, I'll take care of that." Um, I don't know how 786 long I sat in the ambulance, um, (Mark) and (Vick) showed up, um, I was begging people to take my clothes. I wasn't sure if I was close enough, I know 787 GSR I wanna say, three to seven feet, I don't think I was quite that close but I 788 789 wasn't willing to take the chance, um, I asked (Mark), you know, "Can you please take my clothes," and, um, I - I know I have some time but I - I didn't 790 791 wanna take that chance, I wanted my clothes gone, um, sat in the ambulance 792 for a while longer, (Mark) came and got me and, or, uh, excuse me, I think the 793 - might've been the Chief Deputy said I was gonna - I could go sit in (Mark)'s 794 car and then - so then I don't know if I walked to (Mark)'s car myself or if the 795 Chief Deputy or - regardless, I got to (Mark)'s car, got in the passenger seat, 796 um, we pulled up to the - I don't want, uh, (Mark) made a little tiny mistake, I 797 - I - I would appreciate nobody says a word to him, he figured it out almost 798 immediately but we pulled up to the crime scene tape and, um, just like staring 799 at 'em workin' on the suspect, (Mark) got out, immediately jumped back in, 800 got the car turned around, um, sat there for a while, I don't know how long 801 and I forget his name, the sergeant, uh, drove me here and that's when I 802 worked with your guys' crew.

Do you have that, uh, drawing?

806 Q: Yes.

Q1:

803 804

805

807

All right, you guy- can you give us kind of an indication where you were standing at the time of the shooting, where he were - the suspect was, um, where your partner was?

INTERVIEW WITH CODY ROLAND Interviewer: Robert Boone 11-03-15/9:41 am Case # M15-140 Page 19

811 812 A:

Um, I can use that as a pointer.

813

814 Q1: Yeah. Well you can mark it, I don't care.

815

816 A: This bull, even after the shooting, was clear - his head was somewhere in this vicinity...

818

819 Q1: Okay.

820

821 A: ...and his body was here. His legs were kinda under him but he was facing

822 north.

855

824 Q1: Okay.

826 A:

Um, obviously we s- uh, when he was loading the rifle we were more by the four wheeler. I was standing near - I - I don't know if I was standing on the center line, I was either on it or to the east of it because I remember I was facing the four wheeler because I remember - I ke- kept looking left to make sure, you know, just watching for cars, um, etcetera. Um, when they walked up here, it all - hi- him and Deputy Wood were right at the head of the bull. I'm not sure - I don't know where I was in relation to that center line. I know that when the struggle broke out I had started moving towards, um, Deputy Wood to assist him before that gun went off, or, you know, if I, you know, emotions were high, obviously, I just - I - I moved - I - I don't even know how many steps I took, it just - it was so fast. In my mind it took a half an hour but I know it was seconds if not hundreds of a second it - it happened. I - after my last shot I immediately, like I said, I - I'm tryin' to watch - he, the male, was somewhere - that had come runnin' up, was somewhere, yeah, I'm not sure, somewhere between here and the skidster and then like I said, she was at the four wheeler and I had, um, kinda ran, or backed up, whatever I did, to get them more in front of me, uh, so I didn't get shot in the back, um, when the individual, I know an individual's pickin' up shell casings, we were kind of towards the center line in front of the skidster but in - I - I - I don't know where I was standing. I - I knew where I was standing before it all started, when it - when he first got there and was loading the rifle but I, and that was just because I was looking up the highway. Um, we walked up to the bull when it all started, we walked with him and then I had stopped, um, uh, just assumed he was gonna shoot him in the back of the head where it's clear so I obviously wasn't gonna walk around in front of the bull. I stopped somewhere to the - to the west and rear and then when that rifle - when he turned and fired I, like I said, I spun to the right, um, I - I know I was moving 'cause I thought I was hit. I - I didn't' see the bullet, it could went 10 feet over my head, coulda hit the pavement, I don't know. All's I know is I felt the slight gust on my leg and a pain in my ribs and something that went by my side. Bullet,

| shockwave, I don't know.<br>857                                           |                                                                    |  |
|---------------------------------------------------------------------------|--------------------------------------------------------------------|--|
|                                                                           |                                                                    |  |
| Where was your partner?                                                   | Where was your partner?                                            |  |
| 859                                                                       |                                                                    |  |
|                                                                           | Him, uh, Deputy Wood and the suspect were right at the bulls head. |  |
| 861                                                                       |                                                                    |  |
| Okay. And that - that would've been toward the bed of the                 | e pick-up there?                                                   |  |
| 863                                                                       |                                                                    |  |
| 864 A: Um, you know, actually this was probably a little bit furth        |                                                                    |  |
| fact that I was thinkin' that, um, if he shot him in the head             | ·                                                                  |  |
| thought he was gonna shoot him, um, to the east and I rer                 |                                                                    |  |
| that goes through that head it's gonna put a hole right thro              | ough the door of that                                              |  |
| pick-up so I'm probably just slightly off.                                |                                                                    |  |
| 869                                                                       |                                                                    |  |
| 870 Q1: Okay. But he comes around and starts facin' back to the s         | south?                                                             |  |
| 871<br>872 A. Was                                                         |                                                                    |  |
| 872 A: Yes.                                                               |                                                                    |  |
| 873 874 Q1: And as he's startin' to line up on the bull, facing to the so | systh.                                                             |  |
| And as he's startin' to line up on the bull, facing to the so             | outii                                                              |  |
| 876 A: He - he completely, like he kinda looked at the bulls head         | land like I said I                                                 |  |
| was a little bit nervous he was gonna shoot through side i                |                                                                    |  |
| 878                                                                       | into he pick-up.                                                   |  |
| 879 Q1: Mm-hm.                                                            |                                                                    |  |
| 880                                                                       |                                                                    |  |
| 881 A: When he moved towards the front, I was like okay he's ju           | ust, you know.                                                     |  |
| checkin' him out, seein' what he's gonna do, um, and the                  |                                                                    |  |
| pulls up that rifle like he's gonna shoot to the south and the            |                                                                    |  |
| don't know what I yelled but - I don't know if it was, "St                |                                                                    |  |
| "Don't do that," I don't know what I said. I said somethin                |                                                                    |  |
| only words I ever spoke to the person and then that's whe                 | •                                                                  |  |
| tried to intervene, um                                                    | 1 ,                                                                |  |
| 888                                                                       |                                                                    |  |
| Where was Deputy Wood standing in - in proximity if - in                  | f we can - if you're                                               |  |
| saying that, um, Mr. (Yantis) was approximately here, rig                 | ght, and pointing this                                             |  |
| 891 direction?                                                            |                                                                    |  |
| 892                                                                       |                                                                    |  |
| 893 A: Mm-hm.                                                             |                                                                    |  |
| 894                                                                       |                                                                    |  |
| 895 Q1: Where was Deputy Wood in comparison?                              |                                                                    |  |
| 896                                                                       |                                                                    |  |
| 897 A: I th                                                               |                                                                    |  |
| 898                                                                       |                                                                    |  |
| 899 Q: And we're not gonna nail you down                                  |                                                                    |  |
| 900                                                                       |                                                                    |  |

| 901 | Q1: | Yeah.                                                                                 |
|-----|-----|---------------------------------------------------------------------------------------|
| 902 |     |                                                                                       |
| 903 | Q:  | we're just tryin' to - we're just tryin' to probe your memories and what you          |
| 904 |     | - what you - you ma- you know, you remember, um, you know there's - we're             |
| 905 |     | not gonna nail you down to feet and inches here.                                      |
| 906 |     | ner genna nun yen de na te sett mid mente sett.                                       |
| 907 | Q1: | Yeah, just - just proximity to - to him.                                              |
| 908 | Q1. | real, just proximity to to lim.                                                       |
| 909 | A:  | That's - it's not that I don't necessarily member as so much as I wasn't really       |
| 910 | 11. | watching, uh, Deputy Wood, I was watching him because I was starting to get           |
| 911 |     | nervous. We just - I                                                                  |
| 912 |     | nervous. We just - 1                                                                  |
|     | 01. | What were you starting to get namens about?                                           |
| 913 | Q1: | What were you starting to get nervous about?                                          |
| 914 | A   | W-11 1 - 1 - 1 - 1 - 1 - 1 - 1 - 1 - 1 -                                              |
| 915 | A:  | Well when he started movin' around to the - first I was nervous, like I said,         |
| 916 |     | 'cause I thought he was gonna shoot through the side and hit that pick-up.            |
| 917 | 0.1 | No. 1                                                                                 |
| 918 | Q1: | Mm-hm.                                                                                |
| 919 |     |                                                                                       |
| 920 | A:  | And then when he started movin' around the front of the bull, that's when I           |
| 921 |     | started getting really nervous and then I wanna say Deputy Wood was                   |
| 922 |     | somewhere near the side or rear of the bull and then moved in to try and stop         |
| 923 |     | him from shooting to the south. Um, I - I'm not exactly sure where he was,            |
| 924 |     | all's I know is I - I - I seen him get up to the, uh, suspect and try to intervene    |
| 925 |     | to keep him from shooting from the south. I don't know where he was when              |
| 926 |     | the suspect walked - was walking around the head, I'm not exactly sure. I'm           |
| 927 |     | sure I did at the time I wou- I mean I would've never let him - I - I know he         |
| 928 |     | was there I just - I - I can't tell you where he was standing.                        |
| 929 |     |                                                                                       |
| 930 | Q1: | That's okay. Approximately how far away from Mr. (Yantis) were you at the             |
| 931 |     | time of the shooting? Just                                                            |
| 932 |     |                                                                                       |
| 933 | A:  | It's - I wanna say I believe I told the sheriff I - I believed I was six to ten feet, |
| 934 |     | um, I think six feet I think is a little close, um, I was a little bit farther away   |
| 935 |     | until Deputy Wood got in the struggle and I'm gonna say ten feet but I - it's         |
| 936 |     | not necessarily a guess but I - I'm not 100% sure if that's a good estimate.          |
| 937 |     |                                                                                       |
| 938 | Q1: | Okay. When - when he turned and faced back to the south, what were you                |
| 939 |     | thinkin' that he was gonna do?                                                        |
| 940 |     | timin that he was going do.                                                           |
| 941 | A:  | When he - it - it kinda all goes back to when he first looked at the side of the      |
| 942 | **  | bulls head, that's when I started getting nervous but when he moved around            |
| 943 |     | and faced south and looked at the bulls head instead of pointing the rifle at it,     |
| 944 |     | then my nerv- nervousness kinda came down 'cause then I was like, okay,               |
| 945 |     | he's just looking at his bull                                                         |
| 773 |     | ne s just looking at his buil                                                         |

| 946 |             |                                                                                   |  |
|-----|-------------|-----------------------------------------------------------------------------------|--|
| 947 | Q1:         | Mm-hm.                                                                            |  |
| 948 |             |                                                                                   |  |
| 949 | A:          | and in a split second he just pulled that rifle up and started to take aim and    |  |
| 950 |             | then that's when I - that's when I yelled, like I said, I don't know what I said. |  |
| 951 |             | then that I what I when I yellou, mic I baid, I don't mic i what I baid.          |  |
| 952 | Q1:         | So                                                                                |  |
| 953 | Q1.         | 50                                                                                |  |
| 954 | ۸.          | To to all his attention arrows                                                    |  |
|     | A:          | It took his attention away.                                                       |  |
| 955 | 0.1         | 11' 1' 0                                                                          |  |
| 956 | Q1:         | Why were you yelling at him?                                                      |  |
| 957 |             |                                                                                   |  |
| 958 | A:          | Because there was no way I was ever gonna let him shoot south and hit any of      |  |
| 959 |             | the EMT's that were down below or the female on the four wheeler. There           |  |
| 960 |             | was no way we were gonna, uh, just let him shoot in that direction so we were     |  |
| 961 |             | tryin' to get him stopped.                                                        |  |
| 962 |             |                                                                                   |  |
| 963 | Q1:         | Okay. Okay. And then from that point, you yellin' at him, um, Officer             |  |
| 964 |             | (Woods) is it?                                                                    |  |
| 965 |             | ( )                                                                               |  |
| 966 | A:          | Officer Wood, yeah.                                                               |  |
| 967 |             | officer wood, years.                                                              |  |
| 968 | Q1:         | Officer Wood, makes - there's some sort of confrontation between 'em, does -      |  |
| 969 | Q1.         | do you - does he grab him or yell at him or?                                      |  |
| 970 |             | do you - does ne grao min or yen at min or:                                       |  |
| 970 | ۸.          | They were almost shoulden to shoulden and like I said I wh. Denuty Wood           |  |
|     | A:          | They were almost shoulder to shoulder and like I said, I, uh, Deputy Wood         |  |
| 972 |             | either was - either pushing the gun or trying to get a hold of it and that's when |  |
| 973 |             | the suspect shoved Wood, um, put his hands on Deputy Wood's left side and         |  |
| 974 |             | shoved him to the right and that's when Deputy Wood was off balance               |  |
| 975 |             | standing on his right foot and that's when                                        |  |
| 976 |             |                                                                                   |  |
| 977 | Q1:         | And that's when he comes up with the rifle at you?                                |  |
| 978 |             |                                                                                   |  |
| 979 | A:          | Yes. I - and                                                                      |  |
| 980 |             |                                                                                   |  |
| 981 | Q1:         | And he touches a round off?                                                       |  |
| 982 |             |                                                                                   |  |
| 983 | A:          | Yes.                                                                              |  |
| 984 |             |                                                                                   |  |
| 985 | Q1:         | And at this point you're - you're kind of closing the gap a little bit, you've    |  |
| 986 | <b>~</b> 1. | already reached - started to remove your - your handgun, um, and that             |  |
| 987 |             |                                                                                   |  |
|     |             | gun comes up, I mean you just at this point, if I'm following you correctly,      |  |
| 988 |             | that gun comes up, he touches a round off, you're almost simultaneously           |  |
| 989 |             | engaging him.                                                                     |  |
| 990 |             |                                                                                   |  |

INTERVIEW WITH CODY ROLAND Interviewer: Robert Boone 11-03-15/9:41 am Case # M15-140 Page 23

| 991<br>992<br>993                                                                       | A:  | Um, like I said, the - the small things stick in my head. I had or- ordered a new level three holster I'd never used before                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

| 994                                                                                     | Q1: | Mm-hm.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 995<br>996<br>997<br>998<br>999<br>1000<br>1001<br>1002<br>1003<br>1004<br>1005<br>1006 | A:  | when I started here. I've practiced and practiced and practiced with it, it's still a little bit slow, I was thinking when I come back in the spring and go to work for the sheriff's office, I'm - I'm goin ' to a different, a - a level two holster but this'll work for this - the remainder of this year. I will never forget it the rest of my life, when that gun went off thinkin' I - how did this happen, I should've been so much faster. I just - when I felt the shock I just - thinkin' that round should've never - should've never gone off. I should've beat him. I'm just, like I said, I had just left my 1-year-old's birthday party and I just - I sat in that ambulance lookin' at a picture from - from her birthday party thinkin' I should've ditched that God damn holster a long time ago and got somethin' quicker. |
| 1007<br>1008<br>1009<br>1010<br>1011<br>1012                                            | Q1: | As you're approaching him, there's a - you see a struggle between (Yantis) and Wood, what are you thinking at that point is about to happen? I'm just tryin' to get into your mind because I know how you responded, I'm tryin' to ex- I want you to explain to me why you responded that way.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 1012<br>1013<br>1014<br>1015<br>1016<br>1017                                            | A:  | Um, the best way, I'm not gonna say, I mean you guys are the interviewers, I'm not gonna say you guys, but cops in general for the most part, their partner or fellow law enforcement gets into a struggle, I mean, they - they automatically move towards it.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 1018<br>1019                                                                            | Q1: | Mm-hm.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 1020<br>1021<br>1022<br>1023<br>1024<br>1025<br>1026<br>1027                            | A:  | To - to help. At that point I - I'm gonna call it complacency, I would've never in a million years expected him to turn on us. Um, I should've - it was emotional, he's gonna have to put down his bull, I just thought it was gonna be a struggle, we're gonna have to take the gun, get somebody to bring, uh - uh, y- we're just not gonna be able to - if he's wanting to shoot to the south we're just gonna have to take the gun and somebody else is gonna have to do it.                                                                                                                                                                                                                                                                                                                                                                |
| 1028<br>1029                                                                            | Q1: | Mm-hm.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 1030<br>1031                                                                            | A:  | Um                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 1032<br>1033<br>1034<br>1035                                                            | Q1: | All right. He comes up on you with the rifle, he fires, you spin, you said he's doing something, wh- describe to him what you see him doing after he fires that gun.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

INTERVIEW WITH CODY ROLAND Interviewer: Robert Boone 11-03-15/9:41 am Case # M15-140 Page 24

| 1036<br>1037 | A:       | He was looking down at the rifle and I'd already fired and I'm thinkin', why isn't he stopping, um, it was such a split second, I thought he was re- I - I - I |  |
|--------------|----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| 1038<br>1039 |          | thought he was re-loading to go again, um, I - I - I didn't know - I                                                                                           |  |
| 1039         | Q1:      | But - but you had already fired a round at that point?                                                                                                         |  |
| 1040         | Q1.      | But - but you had already fired a found at that point?                                                                                                         |  |
| 1041         | A:       | Yes.                                                                                                                                                           |  |
| 1042         | A.       | 1 63.                                                                                                                                                          |  |
| 1043         | Q1:      | Okay.                                                                                                                                                          |  |
| 1045         | QI.      | Okdy.                                                                                                                                                          |  |
| 1046         | A:       | Um, when he - I just remember thinkin', I - I was kind of in shock thinking,                                                                                   |  |
| 1047         | 11.      | why hasn't he stopped, why is he still - still trying to go, I - I just - I - I don't                                                                          |  |
| 1048         |          | know if I thought I missed or I just - I - I - it was - when he was initially                                                                                  |  |
| 1049         |          | loading that weapon he had his back turned to me, um, so I didn't see how                                                                                      |  |
| 1050         |          | many rounds he put in it. When the female had, um, I - I believe the female                                                                                    |  |
| 1051         |          | handed him that rifle or he had pulled it from the four wheeler, I thought I saw                                                                               |  |
| 1052         |          | it was a lever actur- level - lever action rifle. My first thought was, um, he was                                                                             |  |
| 1053         |          | tryin' to lever another round into it. I could not see at that angle if - if the lever                                                                         |  |
| 1054         |          | was moving. Uh, I just remember thinkin', he's gonna get another round in                                                                                      |  |
| 1055         |          | there and I may not be - I might not be standin' here the next one.                                                                                            |  |
| 1056         |          | mare and a may never a magnitude of animal mare the man con-                                                                                                   |  |
| 1057         | Q1:      | Have you ever had any contact with him in the past?                                                                                                            |  |
| 1058         | <b>C</b> | y y p                                                                                                                                                          |  |
| 1059         | A:       | No.                                                                                                                                                            |  |
| 1060         |          |                                                                                                                                                                |  |
| 1061         | Q1:      | So you don't know him at all?                                                                                                                                  |  |
| 1062         |          | ·                                                                                                                                                              |  |
| 1063         | A:       | If - if I've met him in town, I didn't know it. Um, I try to, you know, I -                                                                                    |  |
| 1064         |          | this is a little bit different community, um, you can't - what I liked about                                                                                   |  |
| 1065         |          | coming here, it was a little bit slower paced and you have a chance to talk to                                                                                 |  |
| 1066         |          | people and, um, get to know people. Uh, I don't write a lot of tickets, make a                                                                                 |  |
| 1067         |          | lot of arrests, I just - so if I did meet him, I've met a lot of people here, I just                                                                           |  |
| 1068         |          | don't recall names so if I did meet him I - I don't know. But I don't think so.                                                                                |  |
| 1069         |          |                                                                                                                                                                |  |
| 1070         | Q1:      | Okay. About how many shots do you think you fired?                                                                                                             |  |
| 1071         |          |                                                                                                                                                                |  |
| 1072         | A:       | Uh, three to four, I believe.                                                                                                                                  |  |
| 1073         |          |                                                                                                                                                                |  |
| 1074         | Q1:      | Did anybody else fire?                                                                                                                                         |  |
| 1075         |          |                                                                                                                                                                |  |
| 1076         | A:       | I can tell you I know Deputy Wood did, the only reason I do know that is                                                                                       |  |
| 1077         |          | when they put me in the ambulance and they asked me where I was hit I said,                                                                                    |  |
| 1078         |          | "Deputy Wood already checked my side, it would've - it'd be on my side but I                                                                                   |  |
| 1079         |          | don't think I was hit." Um, they were saying, "Do you have any other                                                                                           |  |
| 1080         |          | injuries," I said, "My - my bell is rung, I can't hear that well," and Deputy                                                                                  |  |
|              |          |                                                                                                                                                                |  |

| 1081<br>1082                                                                         |             | Wood said, "Sorry about that." That's the only reason, um, that I know he had fired.                                                                                                                                                                                                                                                                                                                                                                         |
|--------------------------------------------------------------------------------------|-------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1083                                                                                 |             |                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 1084                                                                                 | Q1:         | Okay. Anything that you can think of that you did after the shooting that                                                                                                                                                                                                                                                                                                                                                                                    |

| 1126 |                |                                                                              |
|------|----------------|------------------------------------------------------------------------------|
| 1127 | Q1:            | Okay. Anything?                                                              |
| 1128 |                |                                                                              |
| 1129 | Q:             | I don't.                                                                     |
| 1130 |                |                                                                              |
| 1131 | Q1:            | Do you have any questions for us?                                            |
| 1132 |                |                                                                              |
| 1133 | A:             | I do, but I don't think you can answer it.                                   |
| 1134 |                |                                                                              |
| 1135 | Q1:            | Okay.                                                                        |
| 1136 |                |                                                                              |
| 1137 | A:             | I'll ask anyway. I don't even know if I wanna know, but can you tell me what |
| 1138 |                | caliber rifle that was?                                                      |
| 1139 |                |                                                                              |
| 1140 | Q1:            | The rifle itself was a 204 bolt action.                                      |
| 1141 |                |                                                                              |
| 1142 | A:             | Bolt action. So, 42, 4300 feet per second.                                   |
| 1143 |                |                                                                              |
| 1144 | Q1:            | Yeah, it's (unintelligible) round. Let's go ahead and finish this up here.   |
| 1145 |                |                                                                              |
| 1146 | Q:             | Okay. We're gonna go ahead and conclude the interview. It's 11/4 - 11:04 am, |

#### LABORATORY REPORT

To: Rodney O. Draper

Date: December 8, 2015

Salt Lake City

Case ID No.: 282A-SU-6764232

Lab No.: 2015-02796-3

Communication(s):

November 24, 2015

Agency Reference(s):

Subject(s):

Brian S. Wood; Cody W. Roland

Victim(s):

Jack Yantis

Discipline(s):

Chemistry - Paints/Polymers

FBI Laboratory Evidence Designator(s):

Item 1

Two cartridges from rifle of Jack Yantis (1B1, E5381516)

Item 2

Baton from Cody Roland (1B5, E5381520)

Item 3

Bullet (1B4, E5381519)

Item 4

Bullet (1B3, E5381518)

Item 5

Belt with accessories from Cody Roland (1B2, E5381517)

This report contains the results of the requested paint and polymer examinations.

#### Results of Examinations:

The Item 2 baton and Item 5 belt with accessories were examined for the presence of red material transfer. Red marks were observed on the end of Item 2, but none were observed on Item 5. The red marks on Item 2 were examined and determined to be paint, whereas the tips of Item 1 are plastic. Therefore, a tip like those from Item 1 is not the source of the red marks on Item 2 (Elimination).

Visual and stereomicroscopical exams and Fourier transform infrared spectroscopy (FTIR) were used in the examination of these items of evidence.

Page 1 of 3

#### UNCLASSIFIED

## Interpretation:

The following descriptions are meant to provide context to the conclusions reached in this report. Every type of conclusion may not be applicable in every case nor for every material.

Type I Association: Physical/Fracture Match — The compared items exhibit physical features that demonstrate they were once part of the same object.

## Associations of Evidence with Class Characteristics:

Class characteristics are physical and/or chemical properties that place an item within a particular group of items. Associations of class evidence can have varying degrees of significance. As the size of the class decreases, the significance of the association between items in that class increases. A class association does not definitively establish that the items came from the same source.

Type II Association: Association with atypical characteristics — An association in which items could not be differentiated based on observed and/or measured properties and/or chemical composition. Therefore, the possibility that the items came from the same source cannot be eliminated. Further, the items share unusual characteristics that would not be expected to be encountered in the relevant population.

Type III Association: Association with typical characteristics — An association in which items could not be differentiated based on observed and/or measured properties and/or chemical composition. Therefore, the possibility that the items came from the same source cannot be eliminated. Other items have been manufactured that would also be indistinguishable from the submitted items and could be encountered in the relevant population.

Type IV Association: Association with limited characteristics/examinations—
An association in which items could not be differentiated based on observed and/or measured properties and/or chemical composition. Therefore, the possibility that the items came from the same source cannot be eliminated. As compared to the categories above, this type of association has decreased evidential value as a result of items that are more commonly encountered in the relevant population, the inability to perform a complete analysis, or minor variations observed in the data.

Inconclusive – No conclusion could be reached regarding an association or an elimination between the items.

Elimination/Exclusion – The compared items exhibit differences in observed and/or measured properties and/or chemical composition that demonstrate they did not originate from the same source.

Case Number: M150000140 Report Number: TS215008

# **Executive Summary**

Device Analyzed: Axon Body™ camera system with serial number X78021462. Primary Findings:

- The camera was received by TASER with the power switch in the ON position and the battery depleted.
- No video files were recorded on November 1, 2015 because the memory of the camera was full.
- The camera is not functioning and will not power on after charging the battery.

# Report from TASER International, Inc. Analysis of TASER® Axon Body Camera X78021462, TS #215008

# Report:

TASER International was asked to analyze the data and file system on the Axon Body camera with serial number X78021462, manufactured on March 11, 2014, to determine if there was any video recorded on November 1, 2015 at approximately 19:15 Mountain Standard Time (MST). TASER was also asked to analyze whether the device clock is in sync with the local date and time. The camera was received at the TASER headquarters facility in Scottsdale, Arizona on November 17, 2015. The analysis was performed with the device's engineering log file obtained from the device and video files present on the device. The analysis was performed at TASER's headquarters facility in Scottsdale, Arizona on January 7 and 8, 2016.

## Axon Body Generally:

The Axon Body camera is an on-officer video and audio recording system. When powered on via the camera's power slide switch, the system boots up and enters "Buffering Mode", where it begins buffering up to 30 seconds of video (no audio) into memory. When the camera's event button is pressed twice, the system enters "Event Mode", where it begins

recording video and audio (depending on audio settings), and gives an audible (depending on the tone volume level) double-beep tone. The device has 4 tone volume levels: mute, low, medium, and high. The event tone is repeated every 2 minutes as long as the device remains in Event Mode.

The camera will store approximately 7.3 GB of video data in memory. If there is an insufficient amount of memory to record a video file, the camera will issue warning tones (3 fast beeps) and not record the video. If memory runs out of space while a video is in progress of being recorded, the camera will stop the video and issue the same warning tones.

Event Mode is stopped by either: (1) holding the camera's event button down for at least 3 seconds (a temporary press of the button will not stop Event Mode); (2) powering off the device with the camera's power slide switch; or (3) a depleted battery.

The video files (events) are recorded in 30 minute segments in MP4 format. The first segment usually contains the pre-buffered video with no audio for a maximum of 30 seconds. If an event is started within 30 seconds of powering on the system or within 30 seconds after an event ends, the buffer time will be less than 30 seconds.

The Axon Body camera also records information into a log file for engineering and investigative purposes. This file can only be accessed by TASER International. The log file contains information about the system status, battery voltage, and faults. However, the log file does not indicate the cause of a power shutdown; it only notes that the device shutdown. The log file is created with timestamps for each log event entry. The timestamps in the log file are referenced to Greenwich Mean Time (GMT).

The Real Time Clock (RTC) of the Axon Body camera is set at the factory to reference to GMT. Any conversions to local time are calculated by Evidence Sync software, evidence.com, or Axon mobile apps. Due to electrical component tolerances and environmental conditions, the internal RTC of the Axon Body camera can drift up to  $\pm\,1$  minute per day.

#### X78021462 Analysis:

The Axon Body camera with serial number X78021462 was received by TASER on November 17, 2015 with the power slide switch in the "ON" position. The battery was depleted and would not power on the camera nor illuminate the battery status LEDs.

The Axon Body camera was connected to a computer to read the clock value to verify if it was in sync with the current date and time. The clock value was read within 1 minute of connecting the camera to the computer. The reading was compared to the time displayed on <a href="https://www.time.gov">www.time.gov</a> set to UTC (Universal Time Constant, which is equal to GMT). The clock

was read on January 7, 2016 at 15:50:06 GMT, per <a href="www.time.gov">www.time.gov</a>. The Axon Body camera's clock read November 5, 2015, 17:54:36 GMT, as shown in Figure 1 below. This indicates that the Axon Body's clock stopped running on November 5, 2015. It is possible that the clock stopped running due to a depleted battery. In the case of a depleted battery, clock will reset to a factory default of January 1, 2000 at midnight. The Axon Body camera periodically stores clock values in memory to update the clock when powering on in a case where the battery depleted. If the clock is read on power up as reset, the Axon Body will "sync" the clock with the latest stored clock value. With this operation, the battery in the Axon Body camera with serial number X78021462 depleted on November 5, 2015 and the clock reset. When connected to the computer on January 7, 2016, the camera read the internal clock value, recognized that it reset, and loaded the last stored clock value of November 5, 2015 at 17:54 GMT.

Figure 1- Clock Synchronization Data

The Axon Body camera with serial number X78021462 was downloaded on January 7, 2016. All video files were downloaded along with the log file. There were 31 videos files in the memory, totaling 7.27 GB of disk space.

The enclosed log file, *log.txt*, indicates that the Axon Body camera did not record video on November 1, 2015. An excerpt of the log file entries from November 1, 2015 (local MST) is enclosed with this report.

Because the timestamps in the log file are referenced to GMT, conversion to local MST and Daylight Savings is necessary when interpreting the logs. Daylight Savings ended on November 1, 2015 at 02:00; therefore conversion to local MST is GMT - 7 hours.

The log file for X78021462 indicates the following sequence of events on November 1, 2015 (all times from the log file listed below have been converted from GMT to MST):

- The Axon Body camera was powered on November 1, 2015 at 19:36:26 MST via the power slide switch.
- The camera was attempted to be placed in Event Mode at 19:45:02 MST on November 1, 2015, but the camera did not have memory space and did not begin recording.
- The camera was again attempted to be placed in Event Mode at 19:48:31 MST on November 1, 2015, but the camera did not have memory space and did not begin recording.
- The camera was idle until it was powered down at 09:31:46 MST on November 2, 2015.

The logs indicate that the memory on the camera was reported as full (no space) after a video was recorded on October 24, 2015 at 17:24:26 Mountain Daylight Time (MDT). No video files have been recorded since that time.

After reading the logs and copying all video files from memory, a functional test was attempted to determine if the camera is functional and if the audible tones that are given when memory is full or the battery is low can be heard. The camera is not functional and will not power on, so the functional test could not be completed. The battery was charged for 8 hours and re-tested, however, the camera would still not power on.

# Summary:

The file analysis of the Axon Body camera with serial number X78021462 indicates that there are 31 video files on the camera, taking 7.26 GB of space. The memory of the camera is full.

The log file in Axon Body camera with serial number X78021462 indicates that a video was initiated on November 1, 2015 at 19:45 MST and again at 19:48 MST, however, no video was recorded because there was no space available in memory. The memory has been full since the last video was recorded, on October 24, 2015.

The Axon Body camera is able to be connected to USB and download, however the camera is not functional in camera mode. The camera is also running an outdated version of firmware and should be updated. A firmware update is not likely to restore functionality.

The Axon Body with serial number X78021462 is being returned 'as is'.

# Sincerely,

Bryan Chiles Technical Compliance Manager TASER International

Det. Kessinger,

Please find attached the report for your investigation, TS215008.

I am having a hard time copying all of the videos to a USB drive to send you (the camera was full, so there is 7.6 GB of video after encryption). As soon as I get it copied over, I will ship the camera, cable, and holster, hard-copy of the report, and USB drive to you. I will also send a separate email with a passcode to decrypt the video files. Please let me know if you have any questions.

Sincerely,

#### **Bryan Chiles**

**To:** Kessinger, Bret **Cc:** Uriel Halioua

Subject: RE: Axon Body Camera

#### Hi Bret,

I can definitely help you. Unfortunately, when a camera is in Offline mode, we cannot access the logs of the camera without having it in hand. What I can do is have you open an investigation on our website, send in the camera, and I'll attempt to extract the logs for you. If that is all you need, and I don't need to open the camera up to recover the logs manually, I can do that for no charge.

We can do video recovery if needed, however that gets into where I have to charge for the investigation. For AXON products, we can do a full analysis of the logs and attempt recovery of any previously deleted videos, and write a formal report on the findings for \$500. Of course, if the video is deleted, we cannot guarantee success in the recovery, but we make every effort to try to get it if it is available in memory.

To start, please go to <a href="https://www.taser.com/support/investigations">https://www.taser.com/support/investigations</a> and begin the form. It will say that the charge is \$500, but if you only want the logs extracted, write that in the description field, and I will not charge for that. I follow chain of custody and evidence handling protocol, so feel free to seal it in an evidence bag or what ever you prefer.

Please let me know if you have any questions. Please also let me know if you decide to send it in and if you just want the logs or the full analysis. My current lead-time for reports is about 8 weeks, but I can get the logs pretty fast.

Sincerely,

# **Bryan Chiles**

Device Analyzed: Axon Body™ camera system with serial number X78021462. Primary Findings:

- The camera was received by TASER with the power switch in the ON position and the battery depleted.
- No video files were recorded on November 1, 2015 because the memory of the camera was full.
- The camera is not functioning and will not power on after charging the battery.

# Report from TASER International, Inc. Analysis of TASER® Axon Body Camera X78021462, TS #215008

## Report:

TASER International was asked to analyze the data and file system on the Axon Body camera with serial number X78021462, manufactured on March 11, 2014, to determine if there was any video recorded on November 1, 2015 at approximately 19:15 Mountain Standard Time (MST). TASER was also asked to analyze whether the device clock is in sync with the local date and time. The camera was received at the TASER headquarters facility in Scottsdale, Arizona on November 17, 2015. The analysis was performed with the device's engineering log file obtained from the device and video files present on the device. The analysis was performed at TASER's headquarters facility in Scottsdale, Arizona on January 7 and 8, 2016.

## Axon Body Generally:

The Axon Body camera is an on-officer video and audio recording system. When powered on via the camera's power slide switch, the system boots up and enters "Buffering Mode", where it begins buffering up to 30 seconds of video (no audio) into memory. When the camera's event button is pressed twice, the system enters "Event Mode", where it begins

recording video and audio (depending on audio settings), and gives an audible (depending on the tone volume level) double-beep tone. The device has 4 tone volume levels: mute, low, medium, and high. The event tone is repeated every 2 minutes as long as the device remains in Event Mode.

The camera will store approximately 7.3 GB of video data in memory. If there is an insufficient amount of memory to record a video file, the camera will issue warning tones (3 fast beeps) and not record the video. If memory runs out of space while a video is in progress of being recorded, the camera will stop the video and issue the same warning tones.

Event Mode is stopped by either: (1) holding the camera's event button down for at least 3 seconds (a temporary press of the button will not stop Event Mode); (2) powering off the device with the camera's power slide switch; or (3) a depleted battery.

The video files (events) are recorded in 30 minute segments in MP4 format. The first segment usually contains the pre-buffered video with no audio for a maximum of 30 seconds. If an event is started within 30 seconds of powering on the system or within 30 seconds after an event ends, the buffer time will be less than 30 seconds.

The Axon Body camera also records information into a log file for engineering and investigative purposes. This file can only be accessed by TASER International. The log file contains information about the system status, battery voltage, and faults. However, the log file does not indicate the cause of a power shutdown; it only notes that the device shutdown. The log file is created with timestamps for each log event entry. The timestamps in the log file are referenced to Greenwich Mean Time (GMT).

The Real Time Clock (RTC) of the Axon Body camera is set at the factory to reference to GMT. Any conversions to local time are calculated by Evidence Sync software, evidence.com, or Axon mobile apps. Due to electrical component tolerances and environmental conditions, the internal RTC of the Axon Body camera can drift up to  $\pm\,1$  minute per day.

#### X78021462 Analysis:

The Axon Body camera with serial number X78021462 was received by TASER on November 17, 2015 with the power slide switch in the "ON" position. The battery was depleted and would not power on the camera nor illuminate the battery status LEDs.

The Axon Body camera was connected to a computer to read the clock value to verify if it was in sync with the current date and time. The clock value was read within 1 minute of connecting the camera to the computer. The reading was compared to the time displayed on <a href="https://www.time.gov">www.time.gov</a> set to UTC (Universal Time Constant, which is equal to GMT). The clock

was read on January 7, 2016 at 15:50:06 GMT, per <a href="www.time.gov">www.time.gov</a>. The Axon Body camera's clock read November 5, 2015, 17:54:36 GMT, as shown in Figure 1 below. This indicates that the Axon Body's clock stopped running on November 5, 2015. It is possible that the clock stopped running due to a depleted battery. In the case of a depleted battery, clock will reset to a factory default of January 1, 2000 at midnight. The Axon Body camera periodically stores clock values in memory to update the clock when powering on in a case where the battery depleted. If the clock is read on power up as reset, the Axon Body will "sync" the clock with the latest stored clock value. With this operation, the battery in the Axon Body camera with serial number X78021462 depleted on November 5, 2015 and the clock reset. When connected to the computer on January 7, 2016, the camera read the internal clock value, recognized that it reset, and loaded the last stored clock value of November 5, 2015 at 17:54 GMT.

Figure 1- Clock Synchronization Data

The Axon Body camera with serial number X78021462 was downloaded on January 7, 2016. All video files were downloaded along with the log file. There were 31 videos files in the memory, totaling 7.27 GB of disk space.

The enclosed log file, *log.txt*, indicates that the Axon Body camera did not record video on November 1, 2015. An excerpt of the log file entries from November 1, 2015 (local MST) is enclosed with this report.

Because the timestamps in the log file are referenced to GMT, conversion to local MST and Daylight Savings is necessary when interpreting the logs. Daylight Savings ended on November 1, 2015 at 02:00; therefore conversion to local MST is GMT – 7 hours.

The log file for X78021462 indicates the following sequence of events on November 1, 2015 (all times from the log file listed below have been converted from GMT to MST):

- The Axon Body camera was powered on November 1, 2015 at 19:36:26 MST via the power slide switch.
- The camera was attempted to be placed in Event Mode at 19:45:02 MST on November 1, 2015, but the camera did not have memory space and did not begin recording.
- The camera was again attempted to be placed in Event Mode at 19:48:31 MST on November 1, 2015, but the camera did not have memory space and did not begin recording.
- The camera was idle until it was powered down at 09:31:46 MST on November 2, 2015.

The logs indicate that the memory on the camera was reported as full (no space) after a video was recorded on October 24, 2015 at 17:24:26 Mountain Daylight Time (MDT). No video files have been recorded since that time.

After reading the logs and copying all video files from memory, a functional test was attempted to determine if the camera is functional and if the audible tones that are given when memory is full or the battery is low can be heard. The camera is not functional and will not power on, so the functional test could not be completed. The battery was charged for 8 hours and re-tested, however, the camera would still not power on.

# Summary:

The file analysis of the Axon Body camera with serial number X78021462 indicates that there are 31 video files on the camera, taking 7.26 GB of space. The memory of the camera is full.

The log file in Axon Body camera with serial number X78021462 indicates that a video was initiated on November 1, 2015 at 19:45 MST and again at 19:48 MST, however, no video was recorded because there was no space available in memory. The memory has been full since the last video was recorded, on October 24, 2015.

The Axon Body camera is able to be connected to USB and download, however the camera is not functional in camera mode. The camera is also running an outdated version of firmware and should be updated. A firmware update is not likely to restore functionality.

The Axon Body with serial number X78021462 is being returned 'as is'.

# Sincerely,

Bryan Chiles Technical Compliance Manager TASER International

# **Enclosures:**

**Subject:** Lab Exam on section of roadway

Jason,

On 12/17/2015, I contacted the FBI Lab about sending in evidence for examination. In particular, we discussed the asphalt/roadway that was removed from Highway 93 near Council, ID. I spoke with John Webb, a supervisor at the Firearms and Toolmarks Unit who advised me that it was possible to determine the direction of the round, depending upon several factors. Prior to sending in the very large section of asphalt/roadway, Mr. Webb asked me to send him photographs that included an overhead with scale and an oblique angle.

At the Lab's direction, on 12/17/2015, I emailed the FBI Laboratory four digital photographs of the asphalt/roadway that was removed from the scene near Council, ID. The four photographs I emailed were: MG_0029.JPG, MG_0030.JPG, MG_0031.JPG and MG_0036.JPG. I subsequently spoke to Mr. Webb about the photographs I sent to him and the possibility of examining the section of road to determine the travel of the round that struck it. Mr. Webb advised that they would not be able to determine the direction of travel.

This morning (01/13/2016) on our internal e-mail I received the following summary from Mr. Webb which I'm sharing with you for your documentation:

Because the Lab never examined the actual evidence, we cannot issue an official report. For documentation purposes, this email must suffice.

Extrapolating a trajectory requires two points in space, or in simple jargon, two bullet holes. A single impact can be used if there is another point of reference. Occasionally an impact bears enough information for general directionality to be discerned. The images sent exhibited an elongated defect in the asphalt that did not appear to be defined well enough to accurately determine directionality. Compounding the issue is the heterogeneous nature of the material, and the influence of possible intervening objects such as a body. Considering all of these factors, accurate determination of the origin of the bullet that created the defect would not be possible. We would have processed the asphalt the same way it was already done, testing for lead and copper to determine if residues consistent with a bullet impact are present.

If you have any questions please let me know.

Respectfully,

Rod Draper FBI – Boise Resident Agency From: Hendershot, Danielle

RE:

Final Report (CFH1038997-0_F1)

Gunshot Residue Analysis Case Number: M15000137

Subject: ZAVALA, Patrick Anthony

RJ Lee Group Work Order Number: CFH1038997-0

#### INTRODUCTION

One gunshot residue (GSR) kit containing a total of five samples was received on November 10, 2015 from the Idaho State Police for GSR analysis. The samples were identified as follows:

| Client Sample ID                | RJLG Sample Number |
|---------------------------------|--------------------|
| Zavala Right Back               | 10349257           |
| Zavala Right Palm               | 10349258           |
| Zavala Left Back (Not Analyzed) | 10349259           |
| Zavala Left Palm (Not Analyzed) | 10349260           |
| Zavala Control                  | 10349261           |

The samples were placed directly into the PSEM (PERSONAL SEM*) for analysis without any further preparation.

#### **SEM ANALYSIS**

The samples were initially examined using manual microscopy to set run parameters and sample analysis area. They were then analyzed using an automated scanning electron microscope (PERSONAL SEM®) equipped with a full gunshot residue analysis package, including automated stage, backscattered electron (BSE) detector, energy dispersive x-ray spectrometer (EDS) and automated GSR analysis software.

The SEM analysis, on a particle-by-particle basis, retains the individual feature characteristics and can relate the presence of lead (Pb), antimony (Sb) and barium (Ba) to a single particle. When the instrument detects particles with the presence of Pb, Sb and/or Ba, it flags the particles as potential GSR. The images are stored along with the composition and coordinate data for relocation and confirmation by manual microscopy after the automated analysis is completed. A summary run sheet is printed with stored images and spectral data for relocation and confirmation applications. Representative flagged particles are relocated for compositional confirmation.

A particle is confirmed as being characteristic of GSR when Pb, Sb, and Ba, condense into a single particle, exhibiting the proper morphology and chemistry. Any particle, with these features, and a combination of two of the three elements (Pb/Sb and Pb/Ba or Sb/Ba) is classified as a two component particle. Any particle with one of the three elements (Pb, Sb, or Ba) that exhibits the proper morphology and chemistry is classified as a one component particle.

#### **ANALYTICAL RESULTS**

A list of confirmed particles detected during the analysis is as follows:

| Sample ID         | RJLG<br>Sample No. | Classification and Number of Particles                                          |
|-------------------|--------------------|---------------------------------------------------------------------------------|
| Zavala Right Back | 10349257           | Total Particles Characteristic of GSR - 2  Total Two Component Particles - ≥ 16 |
| Zavala Right Palm | 10349258           | Total Particles Characteristic of GSR – 3  Total Two Component Particles – 27   |
| Zavala Control    | 10349261           | No GSR related particles                                                        |

## **CONCLUSIONS**

#### Anthony Patrick Zavala

Right Back (RJLG sample number 10349257) contained particles characteristic of GSR and two component particles (see Figure 1). One component particles were also detected.

Right Palm (RJLG sample number 10349258) contained particles characteristic of GSR and two component particles (see Figure 2). One component particles were also detected.

Control (RJLG sample number 10349261) contained no GSR related particles.

RJ Lee Group Report Number CFH1038997-0_F1 Page 3 of 5

### **QUALIFIERS**

GSR can be deposited by circumstances such as discharging a firearm, being in the proximity of a discharging firearm or coming into contact with a surface/object that has GSR on it.

Two component and one component particles are found in GSR but may also originate from other sources.

The absence of GSR does not eliminate the possibility that the subject handled or discharged a firearm.

These results are submitted pursuant to RJ Lee Group's current terms and conditions of sale, including the company's standard warranty and limitation of liability provisions. No responsibility or liability is assumed for the manner in which the results are used or interpreted. The submitted items are being returned to your office and are enclosed.

RJ Lee Group Work Order Number: CFH1039003-0

#### INTRODUCTION

One gunshot residue (GSR) kit and two items of clothing were received on November 10, 2015 from the Idaho State Police for GSR analysis. Particle extraction samples were collected from the items of clothing at RJ Lee Group using adhesive stubs. The samples were identified as follows:

| Client Sample ID                   | RJLG Sample Number |
|------------------------------------|--------------------|
| Yantis Right Back                  | 10349318           |
| Yantis Right Palm                  | 10349319           |
| Yantis Left Back                   | 10349320           |
| Yantis Left Palm                   | 10349321           |
| Yantis Control                     | 10349322           |
| Roland Uniform Shirt               | 10349323           |
| Roland Uniform Shirt Right Side PE | 10349323A          |
| Roland Uniform Shirt Left Side PE  | 10349323B          |
| Roland Uniform Pants               | 10349324           |
| Roland Uniform Pants Right Leg PE  | 10349324A          |
| Roland Uniform Pants Left Leg PE   | 10349324В          |

The samples from the GSR kit were placed directly into the PSEM (PERSONAL SEM $^{\circ}$ ) for analysis without any further preparation.

The particle extraction samples from the clothing were carbon coated and then placed directly into the PSEM (PERSONAL SEM®) for analysis.

## **CONCLUSIONS**

### **Jack Yantis**

Right Back (RJLG sample number 10349318) contained a particle characteristic of GSR and two component particles (see Figure 1). One component particles were also detected.

Right Palm (RJLG sample number 10349319) contained particles characteristic of GSR and two component particles (see Figure 2). One component particles were also detected.

Left Back (RJLG sample number 10349320) contained particles characteristic of GSR and two component particles (see Figure 3). One component particles were also detected.

Left Palm (RJLG sample number 10349321) contained particles characteristic of GSR and two component particles (see Figure 4). One component particles were also detected.

Control (RJLG sample number 10349322) contained no GSR related particles.

#### Cody Roland Uniform Shirt

Right Side PE (RJLG sample number 10349323A) contained particles characteristic of GSR and two component particles (see Figure 5). One component particles were also detected.

Left Side PE (RJLG sample number 10349323B) contained particles characteristic of GSR and two component particles (see Figure 6). One component particles were also detected.

#### **Cody Roland Uniform Pants**

Right Leg PE (RJLG sample number 10349324A) contained particles characteristic of GSR and two component particles (see Figure 7). One component particles were also detected.

Left Leg PE (RJLG sample number 10349324B) contained particles characteristic of GSR and two component particles (see Figure 8). One component particles were also detected.

² Full user defined area was not analyzed.

## INTRODUCTION

Six items of clothing, three firearms and four boxes of ammunition were received at RJ Lee Group from the Idaho State Police on January 14, 2016, for distance determination analysis by modified Griess and sodium rhodizonate testing. Additional evidentiary items: "Broken Front Stock and "3 CDs with Photographs" were received at RJ Lee Group from the Idaho State Police on January 21, 2016 for further analysis. The samples were identified as follows:

| Client Sample ID                            | Date Received | RJLG Sample Number |  |
|---------------------------------------------|---------------|--------------------|--|
| Roland Uniform Shirt                        | 01-14-16      | 10349323           |  |

# MACROSCOPIC & MICROSCOPIC ANALYSIS

#### Roland Uniform Shirt (RJLG Sample Number 10349323)

Roland Uniform Shirt (RJLG Sample Number 10349323) was examined for the presence of holes. No holes were observed. An area of discoloration, ~21.0 cm from the bottom of the shirt and ~24.0 cm triangulated from the right underarm/torso seam was observed.

The front and rear of the shirt were screened using the Spex Crimescope CS16-500 between 455, 475, "CSS", 495, and 515 nm using orange and red barrier glasses. Several items fluoresced but they were not organized and had misshapen, fiber-like appearances.

The shirt was also examined microscopically. Fine, fractured, gray-like particles were observed at the approximate center of shirt to right of the midline. The particles were observed at ~30.0 cm from the bottom of the shirt and ~27.0 cm triangulated from the right underarm/torso seam.

## Roland Uniform Pants (RJLG Sample Number 10349324)

Roland Uniform Pants (RJLG Sample Number 10349324) were examined for the presence of holes. No holes were observed.

The front and rear of the pants were screened using the Spex Crimescope CS16-500 between 455, 475, "CSS", 495, and 515 nm using orange and red barrier glasses. Several items fluoresced but they were not organized and had misshapen, fiber-like appearances.

The pants were also examined microscopically. In the area where the pinpoint fluorescent particles were found, numerous, small white-clear particles were observed without having any real shape. Some were apparently flat but microscopically did not appear consistent with gun powder.

## 2761-1 Lewis Machine & Tool Defender Rifle (RJLG Sample Number 10356162)

This item is a "Lewis Machine & Tool Company" firearm, 5.56mm Nato caliber, model: Defender 2000 rifle. The serial number is LMT35830 and it has multiple accessories. A zip-tie was observed through the ejection port and magazine well. The rifle is capable of discharging 223 Remington caliber cartridges.

#### 2761-16 Glock Model 30 Handgun (RJLG Sample Number 10356163)

This item is a 45 Auto caliber Glock model 30 firearm. The serial number is DKY931US. No magazine present. Zip-ties were observed through the ejection port and magazine well.

## Yantis 2806-4 Down Vest (RJLG Sample Number 10356166)

Yantis 2806-4 Down Vest (RJLG Sample Number 10356166) was examined for the presence of holes. Several apparent bullet holes were observed on the vest. One particular hole observed on the right side of the vest is in the approximate area of HOLE M and HOLE N on "Yantis 2806-5 Down Jacket (RJLG Sample Number 10356167) which is discussed below. An additional hole on the lower left panel of the vest was in the approximate area of HOLE R on "Yantis 2806-5 Down Jacket". There were multiple areas of grey/black discoloration and pinpoint holes near this hole which appear to be consistent with a fragmented bullet.

## Yantis 2806-5 Down Jacket (RJLG Sample Number 10356167)

Yantis 2806-5 Down Jacket (RJLG Sample Number 10356167) was examined for the presence of holes. There were multiple areas of fabric separation observed on the jacket. These areas were visually consistent with the passage of bullets:

- Twelve (12) areas on the front right sleeve as worn.
- Four (4) areas on the front right panel as worn.
- Two (2) areas on the front left panel as worn.
- One (1) area on the front left sleeve as worn.
- Four (4) areas on the back right sleeve as worn.
- Two (2) areas on the back left sleeve as worn.

The holes were arbitrarily labeled A through Y. Approximate locations of Holes A-Y are as follows:

- HOLE A: ~2.5cm above right sleeve cuff (front) and ~13.5cm above right underarm seam (front). Length ~3.5cm and width ~2.3cm.
- HOLE B: ~1.4cm above right sleeve cuff (front) and ~11.0cm above right underarm seam (front). Length ~1.4cm and width ~0.8cm.
- HOLE C: Exactly on the right sleeve cuff (front) and ~9.5cm above right underarm seam (front). Length ~1.6cm and width ~0.6cm.
- HOLE D: ~5.1cm above right sleeve cuff (front) and ~1.5cm above right underarm seam (front)._Length ~2.3cm and width ~0.9cm.
- HOLE E: ~13.0cm to the center from above right sleeve cuff (front) and ~4.5cm above right underarm seam (front). Length ~7.9cm and width ~0.8cm.
- HOLE F: ~26.3cm above right sleeve cuff (front) and ~16.5cm above right underarm seam (front). Length ~1.0cm and width ~0.3cm.
- HOLE G: ~27.7cm above right sleeve cuff (front) and ~18.0cm above right underarm seam (front). Length ~0.5cm and width ~0.3cm.
- HOLE H: ~29.0cm above right sleeve cuff (front) and ~3.6cm above right underarm seam (front). Length ~4.2cm and width ~2.1cm.
- HOLE I: ~33.3cm above right sleeve cuff (front) and ~20.8cm above right underarm seam (front). Length ~0.3cm and width ~0.3cm.

- HOLE J: ~37.7cm above right sleeve cuff (front) and ~21.5cm above right underarm seam (front). Length ~0.4cm and width ~0.3cm.
- HOLE K: ~43.1cm above right sleeve cuff (front) and ~21.2cm above right underarm seam (front). Length ~1.0cm and width ~1.0cm.
- HOLE L: ~51.3cm above right sleeve cuff (front) and ~20.8cm above right underarm seam (front). Length ~3.9cm and width ~0.6cm.
- HOLE M: ~58.0cm from bottom (front) and ~20.7cm from button edge of right panel (front). Length ~2.1cm and width ~0.3cm.
- HOLE N: ~63.0cm from bottom (front) and right on button edge of right panel (front).
   Length ~2.0cm and width ~0.6cm.
- HOLE O: ~47.5cm from bottom (front) and ~12.3cm from button edge of right panel (front). Length ~1.4cm and width ~0.2cm.
- HOLE P: ~38.2cm from bottom (front) and ~20.0cm from button edge of right panel (front). Length ~1.4cm and width ~0.8cm.
- HOLE Q: ~46.0cm from bottom (front) and ~22.2cm from button edge of left panel (front). Length ~2.1cm and width ~1.1cm.
- HOLE R: ~23.4cm from bottom (front) and ~8.6cm from button edge of left panel (front). Length ~2.3cm and width ~1.8cm.
- HOLE S: ~27.2cm above left sleeve cuff (front) and ~14.1cm above left underarm seam (front). Length ~1.4cm and width ~0.9cm.
- HOLE T: ~24.9cm above right sleeve cuff (back) and on left underarm seam (back).
   Length ~4.0cm and width ~2.0cm.
- HOLE U: ~42.7cm above right sleeve cuff (back) and ~21.1cm above right underarm seam (back). Length ~1.1cm and width ~0.4cm.
- HOLE V: ~46.4cm above right sleeve cuff (back) and ~16.5cm above right underarm seam (back). Length ~0.6cm and width ~0.3cm.
- HOLE W: ~54.3cm above right sleeve cuff (back) and ~16.5cm above right underarm seam (back). Length ~1.8cm and width ~0.5cm.
- HOLE X: ~29.0cm above left sleeve cuff (back) and ~19.5cm above left underarm seam (back). Length ~4.0cm and width ~1.6cm.
- HOLE Y: ~54.4cm above left sleeve cuff (back) and ~18.8cm above left underarm seam (back). Length ~1.2cm and width ~0.2cm.

The jacket was screened using the Spex Crime Scope CS16-500 between 455, 475, "CSS", 495, and 515nm using orange barrier goggles. No concentrated areas of fluorescent material were observed around any holes on the back of the item. An area of sporadic, sparsely concentrated pinpoint-like fluorescence around the approximate area of HOLE H was observed. Another area of pinpoint-like fluorescence in the area of HOLE R was also observed. The fluorescent material is sparsely concentrated and not well organized.

The jacket was also examined microscopically. In the area of HOLE H, one (1) apparent metallic gray, flattened ball particle was observed slightly to the right of the hole. Above and to the left

of HOLE H, a cluster of approximately five (5) off-white to metallic gray particles were observed. In the area of HOLE E, above the hole, approximately six (6) off-white to metallic gray particles were observed. One (1) off-white to metallic gray particle was observed to the left of HOLE L. One (1) copper fragment was observed in the upper right chest area near HOLE M. The fragment was removed and preserved. One (1) off-white to metallic gray particle was observed below and to the left of HOLE P. Approximately four (4) off-white to metallic gray particles were observed in area of HOLE R: three (3) above the hole and one (1) below it.

## Yantis 2806-6 White Long-John Shirt (RJLG Sample Number 10356168)

Yantis 2806-6 White Long-John Shirt (RJLG Sample Number 10356168) was examined for the presence of holes. There were holes on the chest area of the shirt that appear to be consistent with those on "Yantis 2806-5 Down Jacket" (RJLG Sample Number 10356167) and "Yantis 2806-4 Down Vest (RJLG Sample Number 10356166). This item was not chemically processed.

#### Yantis 2806-7 Blue Shirt (RJLG Sample Number 10356169)

Yantis 2806-7 Blue Shirt (RJLG Sample Number 10356169) was examined for the presence of holes. There were multiple holes on the shirt:

- Six (6) holes on the right sleeve and armpit area.
- Five (5) holes on the right front panel.
- Five (5) holes on the left front panel.
- Two (2) holes on the front and back of the left sleeve.

All of these holes were relatively consistent with holes on "Yantis 2806-5 Down Jacket" (RJLG Sample Number 10356167).

Two (2) additional torn holes in relatively close proximity were observed on the right front panel of the shirt. Their relative location is consistent with HOLE N on the jacket. There is a greyish discoloration around the holes. The holes together measure ~67.0 cm up from the bottom of the shirt and ~4.5 cm to the right of the right panel button edge and are ~3.0 cm long and 2.3 cm wide.

The shirt was also examined microscopically. There was no particulate or observations of note.

#### 2830-3 Ruger M77 .204 Cal (RJLG Sample Number 10356170)

This item is a 204 Ruger caliber Ruger, model: M77 Mark II rifle. The serial number is 790-97365. Zip-ties were observed holding the firearm in place and holding the bolt action back. Biological staining was observed on the butt of the stock. Apparent damage was observed to the scope of the rifle and the forend was partially missing. An apparent ricochet mark was observed on the front upper right side of the scope. The major and minor axes of the ricochet mark were measured and determined to be approximately 4.0cm and 0.7cm, respectively. The incident angle of the ricochet mark was calculated using the measured major and minor axes. The incident angle of the ricochet mark on the front right of the scope is *approximately* 10

degrees. The origin of the projectile that made the mark is from a position that is forward and to the right of the scope. A shoulder strap and ammunition sleeve were also received with the Ruger.

## Broken Front Stock (RJLG Sample Number 10356544)

Broken Front Stock (RJLG Sample Number 10356544) was used to piece together the Ruger M77 rifle's stock and forend. A channel was observed that goes through the forend and is consistent with a projectile path. Damage to the forend makes determining directionality difficult with any degree of certainty.

# SAMPLE PREP & ANALYSIS

# 2761-16 Glock Model 30 Handgun (RJLG Sample Number 10356163) and Box of Winchester .45 Ammunition (RJLG Sample Number10356171)

Thirteen (13) cartridges from "Box of Winchester .45 Ammunition" (RJLG Sample Number 10356171) were used to test fire the "2761-16 Glock Model 30 Handgun" (RJLG Sample Number 10356163). Nine (9) of the cartridges (referred to as Cartridge 1 through Cartridge 9) were used on 01-24-2016 for test firing at distances of contact, 6", 12", 18", 24", 36", 48", 60" and 72" respectively. Four (4) additional cartridges (referred to as Cartridges 10-13) were used for a second test fire on 02-10-2016 in which the Glock was discharged four times in succession. The hands of the shooter were then wiped on cloth fabric pieces. All samples resulting from these test fires were identified as follows:

| Client Sample ID                       | Date Created | RJLG Sample Number |
|----------------------------------------|--------------|--------------------|
| Cartridge 1 – Contact Target           | 01-24-16     | 10356171A          |
| Cartridge 2 – 6" Target                | 01-24-16     | 10356171B          |
| Cartridge 3 – 12" Target               | 01-24-16     | 10356171C          |
| Cartridge 4 – 18" Target               | 01-24-16     | 10356171D          |
| Cartridge 5 – 24" Target               | 01-24-16     | 10356171E          |
| Cartridge 6 – 36" Target               | 01-24-16     | 10356171F          |
| Cartridge 7 – 48" Target               | 01-24-16     | 10356171G          |
| Cartridge 8 – 60" Target               | 01-24-16     | 10356171H          |
| Cartridge 9 – 72" Target               | 01-24-16     | 103561711          |
| Cartridge 10–13 Right Hand Swipe Cloth | 02-10-16     | 10356171J          |
| Cartridge 10-13 Left Hand Swipe Cloth  | 02-10-16     | 10356171K          |

# 2830-3 Ruger M77 .204 Cal (RJLG Sample Number 10356170) and Hornady 204 Ruger Ammunition (32gr) (RJLG Sample Number 10356172)

Seventeen (17) cartridges from the "Box of Hornady 204 Ruger Ammunition (32gr)" (RJLG Sample Number 10356172) were used to test fire the "2830-3 Ruger M77 .204 Cal" (RJLG Sample Number 10356170). Ten (10) of the cartridges (referred to as Cartridge 1 through Cartridge 10) were used on 01-24-2016 for test firing at distances of contact, 6", 12", 18", 24",

36", 48", 60", 72" and 60" respectively. (An additional shot was taken at 60" as the first 60" shot was off-center).

Seven (7) additional cartridges (referred to as Cartridge 11 through Cartridge 17) were used for a second set of test fires on 02-10-2016 using the Ruger rifle. The difference between this set and the test fires conducted on 01-24-16 was that the targets were situated parallel to the bore of the Ruger rife.

The first four (4) cartridges (referred to as Cartridge 11 through Cartridge 14) were discharged with the cloth targets placed at distances of near contact, 1", 3", and 6" from the side of the barrel, respectively. The remaining three (3) cartridges (referred to as Cartridge 15 through Cartridge 17) were discharged with the cloth targets placed five (5) feet ahead of the muzzle and at distances of near contact, ~3", and ~6" from the trajectory of the fired bullet, respectively.

All samples resulting from these test fires were identified as follows:

| Client Sample ID                                                 | Date<br>Created | RJLG Sample<br>Number |
|------------------------------------------------------------------|-----------------|-----------------------|
| Cartridge 1 – Contact Target                                     | 01-24-16        | 10356172A             |
| Cartridge 2 – 6" Target                                          | 01-24-16        | 10356172B             |
| Cartridge 3 – 12" Target                                         | 01-24-16        | 10356172C             |
| Cartridge 4 – 18" Target                                         | 01-24-16        | 10356172D             |
| Cartridge 5 – 24" Target                                         | 01-24-16        | 10356172E             |
| Cartridge 6 – 36" Target                                         | 01-24-16        | 10356172F             |
| Cartridge 7 – 48" Target                                         | 01-24-16        | 10356172G             |
| Cartridge 8 – 60" Target                                         | 01-24-16        | 10356172H             |
| Cartridge 9 – 72" Target                                         | 01-24-16        | 103561721             |
| Cartridge 10 – 60" Target B                                      | 01-24-16        | 10356172J             |
| Cartridge 11 – Near Contact Side Target (Muzzle by Target)       | 02-10-16        | 10356172K             |
| Cartridge 12 – 1" Side Target (Muzzle by Target)                 | 02-10-16        | 10356172L             |
| Cartridge 13 – 3" Side Target (Muzzle by Target)                 | 02-10-16        | 10356172M             |
| Cartridge 14 – 6" Side Target (Muzzle by Target)                 | 02-10-16        | 10356172N             |
| Cartridge 15 – Near Contact Side Target (Muzzle 5ft from Target) | 02-10-16        | 103561720             |
| Cartridge 16 - ~3" Side Target (Muzzle 5ft from Target)          | 02-10-16        | 10356172P             |
| Cartridge 17 - ~6" Side Target (Muzzle 5ft from Target)          | 02-10-16        | 10356172Q             |

2761-1 Lewis Machine & Tool Defender Rifle (RJLG Sample Number 10356162) and Speer Gold Dot 223 Ammunition (RJLG Sample Number 10356174)

Nine (9) cartridges from the "Box of Speer Gold Dot 223 Ammunition" (RJLG Sample Number 10356174) were used to test fire the "2761-1 Lewis Machine & Tool Defender Rifle" (RJLG Sample Number 10356162). The cartridges (referred to as Cartridge 1 through Cartridge 9)

were used on 01-24-2016 for test firing at distances of contact, 6", 12", 18", 24", 36", 48", 60" and 72" respectively. All samples resulting from these test fires were identified as follows:

| Client Sample ID             | Date Created | RJLG Sample<br>Number |
|------------------------------|--------------|-----------------------|
| Cartridge 1 – Contact Target | 01-24-16     | 10356174A             |
| Cartridge 2 – 6" Target      | 01-24-16     | 10356174B             |
| Cartridge 3 – 12" Target     | 01-24-16     | 10356174C             |
| Cartridge 4 – 18" Target     | 01-24-16     | 10356174D             |
| Cartridge 5 – 24" Target     | 01-24-16     | 10356174E             |
| Cartridge 6 – 36" Target     | 01-24-16     | 10356174F             |
| Cartridge 7 – 48" Target     | 01-24-16     | 10356174G             |
| Cartridge 8 – 60" Target     | 01-24-16     | 10356174H             |
| Cartridge 9 – 72" Target     | 01-24-16     | 103561741             |

## **CHEMICAL ANALYSIS**

Selected items were chemically processed for the presence of nitrites using the direct application method for the modified Griess test. In addition, these items were then chemically processed for the presence of lead using the transfer method for the sodium rhodizonate test.

## Roland Uniform Shirt (RJLG Sample Number 10349323)

Roland Uniform Shirt (RJLG Sample Number 10349323) did not possess a visually apparent bullet hole. As noted in the "Macroscopic & Microscopic Analysis" section on page 2, an area of discoloration was observed on the shirt. The direct application technique of the Modified Griess test was applied from the approximate right armpit area to the bottom of the shirt and from the approximate midline of the shirt to the right front edge encompassing the area of discoloration. No reactions were observed.

The transfer method of the sodium rhodizonate test for lead was then performed in the area of the discoloration. No reaction was observed. The entire front right side of the shirt was then processed using the direct application technique of the sodium rhodizonate test. A faint, irregularly shaped purple-in-color reaction was observed on the lower right side of the shirt. It was approximately 1.5cm by 1.0 cm and approximately 31.0cm above the bottom of the shirt and 17.5cm triangulated from the right underarm/torso seam.

## Yantis 2806-4 Down Vest (RJLG Sample Number 10356166)

A hole on the front left panel of the vest is consistent in position with HOLE R on "Yantis 2806-5 Down Jacket" (RJLG Sample Number 10356167) and was processed for the presence of nitrites using the direct application method of the modified Griess test. A positive, ring-like reaction was observed immediately around the edges of the hole.

RJ Lee Group Report Number CFH1039003-1_F1 Page 9 of 11

This area was also processed for the presence of lead using the transfer method of the sodium rhodizonate test. A positive, ring-like reaction was observed immediately around the edges of the hole.

## Yantis 2806-5 Down Jacket (RJLG Sample Number 10356167)

The areas surrounding the holes on the jacket were processed for the presence of the nitrites using the direct application method of the modified Griess test. Clusters of positive, pinpoint-like reactions were observed in the areas of HOLES F, G, H, I and J and separately in the area of HOLES K and L. Three pinpoint-like reactions in the area of HOLE M and also separately in the area of HOLE R were observed. Additional pinpoint-like reactions were observed in the areas of HOLES O and P and separately in the area of HOLE Y.

The areas surrounding the holes were also processed for the presence of lead using the transfer method of the sodium rhodizonate test. Every area exhibited positive reactions for the presence of lead. The reactions varied from large cloud-like reactions, to larger irregularly shaped reactions to small pinpoint-like reactions of varying sizes and apparent concentrations.

#### Yantis 2806-7 Blue Shirt (RJLG Sample Number 10356169)

The area surrounding a hole on the front left panel is consistent in position with HOLE R on "Yantis 2806-5 Down Jacket" (RJLG Sample Number 10356167) and was processed for the presence of the nitrites using the direct application method of the modified Griess test. No reaction was observed.

The area surrounding the hole was also processed for the presence of lead using the transfer method of the sodium rhodizonate test. A positive, ring-like reaction was observed immediately around the edges of the hole.

## Broken Front Stock (RJLG Sample Number 10356544)

The broken front stock was reassembled and fitted onto the "2830-3 Ruger M77 .204 Cal" rifle (RJ Lee Group Sample Number 10356170). Two holes defining the previously mentioned channel in the "Macroscopic & Microscopic Analysis" section on page 6 were observed on the right side and bottom of the broken front stock. Both holes were processed for the presence of lead using the transfer method of the sodium rhodizonate test. Positive reactions for the presence of lead were observed encircling both holes and extending into the areas surrounding both holes.

## **Test Fired Targets**

Selected test fired targets from test fires of the "2830-3 Ruger M77 .204 Cal" rifle (RJ Lee Group Sample Numbers 10356170), the "2761-1 Lewis Machine & Tool Defender Rifle (RJ Lee Group Sample Numbers 10356162), and the "2761-16 Glock Model 30 Handgun" (RJ Lee Group Sample Numbers 10356163) were processed for nitrites using the direct application method of the modified Griess test and for the presence of lead using the sodium rhodizonate test. The direct application method or transfer method of the sodium rhodizonate test were selected

based on which item of evidence the test fired targets were being compared to and how the sodium rhodizonate test was applied on that item.

## **CONCLUSIONS**

## Roland Uniform Shirt (RJLG Sample Number 10349323)

Due to the fact that the faint positive lead reaction on the shirt was unlike any of the reactions on the test fired targets from the 204 Ruger caliber Ruger rifle (RJLG Sample Numbers 10356172A-10355672G, 10356172J, and 10356172L-10356172Q) or the hand swipe targets from the Glock pistol (RJLG Sample Numbers 10356171J and 10356171K), the results of the testing with respect to "Roland Uniform Shirt" (RJLG Sample Number 10349323) are inconclusive based on these comparisons.

## Yantis 2806-5 Down Jacket (RJLG Sample Number 10356167)

The positive, pinpoint-like reactions observed as a result of the modified Griess test on the jacket are indicative of the presence of nitrites. No clearly defined patterns of nitrite reactions around any given hole were observed. All of the varying positive reactions observed as a result of the sodium rhodizonate test on the jacket are indicative of the presence of lead. Cloud-like reactions such as the reactions observed around several of the holes on the jacket can be indicative of vaporous lead. Vaporous lead can be present in the area of a firearm when it is discharged or when a projectile has fragmented after striking another object creating a phenomenon known as lead splash. Due to the large number of holes in relatively close proximity and the clear evidence of fragmented projectiles in the area of the jacket, a definitive muzzle-to-garment range determination cannot be made.

# Yantis 2806-4 Down Vest (RJLG Sample Number 10356166) and Yantis 2806-7 Blue Shirt (RJLG Sample Number 10356169)

The vest and blue shirt were worn under "Yantis 2806-5 Down Jacket" (RJLG Sample Number 10356167) The positive reaction observed as a result of the modified Griess test on the vest and the positive sodium rhodizonate reactions observed on both the vest and the blue shirt confirm that the holes are consistent with the passage of a bullet. It does not appear that these garments had been exposed to a contact shot.

# <u>Test Fire Using 2761-16 Glock Model 30 Handgun (RJLG Sample Number 10356163) and Box of Winchester 45 Caliber Ammunition (RJLG Sample Number 10356171)</u>

Based upon the results of the chemical testing performed on selected test powder patterns produced using the Glock pistol and Winchester ammunition (RJLG Sample Numbers 10356171C-10356171I), the maximum gun powder pattern deposition range which resulted is approximately 36 to 72 inches.

The hand swipe tests (RJ Lee Group Sample Numbers 10356171J and 10356171K) performed after discharging the Glock pistol four consecutive times did not yield results that were

RJ Lee Group Report Number CFH1039003-1_F1 Page 11 of 11

consistent with the result observed on "Roland Uniform Shirt" (RJLG Sample Number 10349323). The results of the hand swipe tests are therefore inconclusive.

Test Fire Using 2761-1 Lewis Mcahine & Tool Defender Rifle (RJLG Sample Number 10356162) and Box of Speer Gold Dot 223 Ammunition (RJLG Sample Number 10356174)

Based upon the results of the chemical testing performed on selected test powder patterns produced using the 223 Rifle Speer Gold Dot 223 ammunition (RJLG Sample Numbers 10356174B-10356171I), the maximum gun powder pattern deposition range which resulted is approximately 36 to 72 inches.

Test Fire Using 2830-3 Ruger M77 .204 Cal (RJLG Sample Number 10356170) and Box of Hornady 204 Ruger Ammunition (32gr) (RJLG Sample Number 10356172)

Based upon the results of the chemical testing performed on selected test powder patterns produced using the Ruger Rifle and Hornady 204 ammunition (RJLG Sample Numbers 10356172A-10356172G and 10356172J) , the maximum gun powder pattern deposition which resulted is approximately 36 to 60 inches.

Regarding the targets that were parallel to the barrel at the time of discharge (RJLG Sample Numbers 10356172L-10356172Q), visual residues dissipated at distances between 1 and 3 inches from the barrel when the muzzle of the rifle was near the target material. No conclusions can be made when comparing the side targets visually or using the chemical processing results to the evidence at this time.

These results are submitted pursuant to RJ Lee Group's current terms and conditions of sale, including the company's standard warranty and limitation of liability provisions. No responsibility or liability is assumed for the manner in which the results are used or interpreted. The submitted items are being retained at RJ Lee Group until further instructed.

James M. Margan

AN ASCLD/LAB-International ACCREDITED LABORATORY SINCE March 19, 2013

| On November 23, 2015, Idaho State Police Detective Gates initiated employment history and training verification on Cody W. Roland.                                                                                                                                                                                   |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| On November 23, 2015, I initiated employment history and training verification on Cody W. Roland. Roland's law enforcement employment history is as follows:                                                                                                                                                         |
| He was employed by the Canyon County Sheriff's Office as a detention deputy from April 12, 2001 to October 3, 2001.                                                                                                                                                                                                  |
| He was employed by Wilder Police Department as a reserve patrol officer from March 12, 2001 to December 17, 2003.                                                                                                                                                                                                    |
| He was employed by Parma Police Department as a patrol officer from October 4, 2001 to August 26, 2004.                                                                                                                                                                                                              |
| He was employed by Gooding Police Department as a patrol officer from August 30, 2004 to August 14, 2005.                                                                                                                                                                                                            |
| He was employed by Valley County Sheriff's Office from August 19, 2005 to July 8, 2008, as a patrol officer; from July 8, 2008 to December 2, 2009, as a reserve patrol officer; from December 3, 2009 to January 6, 2011, as a patrol officer; and from January 7, 2011 to January 16, 2012, as a detention deputy. |
| He has been employed by Adams County Sheriff's Office as a patrol deputy since August 21, 2014.                                                                                                                                                                                                                      |
| Roland's law enforcement training is as follows:                                                                                                                                                                                                                                                                     |
| POST Basic Patrol academy completed on June 7, 2002.                                                                                                                                                                                                                                                                 |

| Tactical team operations/Active shooter training complete on November 28, 2007 (eight hours). |
| Tactical team operations/Active shooter training complete on March 26, 2008 (16 hours).       |

Tactical team operations/Active shooter training complete on May 19, 2010 (five hours). Arrest techniques training completed on May 25, 2010 (four hours). Tactical team operations/Active shooter training complete on April 22, 2011 (four hours). During Roland's tenure as a law enforcement officer he received the following disciplinary actions: On January 12, 2007, following a complaint from a motorist, Roland was counseled for his attitude during a traffic stop. On May 14, 2008, Roland received a letter of reprimand, and was placed on probation for one year for conduct unbecoming, which stemmed from an off-duty incident. On or about March 17, 2010, a Valley County Sheriff's Office internal investigation was initiated against Roland. The investigation stemmed from a statement a Confidential Informant (CI) made to members of the Valley County Narcotics task force that there were "Dirty cops," with the possibility of dissemination of sensitive law enforcement information. The suspected involved parties, Roland and Brooke McAvoy, were interviewed separately. Following review of completed interviews, McCall Chief of Police Jerry Summers expressed concerns as to Roland's integrity during his interview with Valley County Sheriff Patti Bolen, as Roland's statements did not corroborate with McAvoy's. After seeking legal advice from Dave Sasser of ICRMP, Sheriff Bolen elected not to investigate the reported integrity issue. The internal investigation case was reported as "UNFOUNDED" and was closed.

On or about December 14, 2011, Valley County Sheriff Bolen was advised by POST administrator William Flink, Roland indicated on a POST application (2011) he did not serve in the military. POST had received a DD214, which confirmed Roland's prior military service, in a previous POST application while Roland was employed by the Canyon County Sheriff's Office. In a report dated 12/28/2011, completed by Valley County Sheriff's Office employee John Coombs, it stated Roland did not indicate any prior military service on either the POST application (2011) or Valley County applications, despite having listed prior military service on past employment and POST applications (2001). It was also discovered Roland's POST

application (2001) indicated his prior military service and release under General Discharge under Honorable Conditions, where Roland actually received an Uncharacterized/entry level separation. According to the report, it was Coombs opinion Roland's answers were inconsistent and not indicative of truthfulness and, while the uncharacterized discharge would not be a disqualifier for employment, the failure to honestly and completely fill out his application would be.

On December 30, 2015, I spoke with John Coombs, who advised me Roland resigned from the Valley County Sheriff's Office before Sheriff Bolen addressed the application inconsistencies with him.

#### INDEX

#### Case Original on 12/14/2015

Included:

Adam's County Coroner Form.

Adam's County Sheriff's Office Report.

ISP Evidence Receipts.

Original Supplement report.

Supplement 0001 report, First Contact Team photos, DMV information on William

Lakey.

Supplement 0002 report.

Supplement 0003 report, DMV information on Crissy Gipe, Necropsy X-Rays, Interview of Gipe and DMV information on Jerry Yantis.

Supplement 0004 report, DMV information of Danial Huter and Interview of Huter.

Supplement 0005 report, DMV information of Charles Pfenninger and Interview of

Pfenninger.

Supplement 0006 report, DMV information of Melissa Dunham and Interview of

Dunham.

Supplement 0007 report, DMV information of Samuel McConnell and Interview of

McConnell.

Supplement 0008 report, Cpl. Wright's Arbritrator Video and Tpr. Wright's Critical Incidence Scene photos.

Supplement 0009 report.

Supplement 0010 report.

Supplement 0011 report.

Supplement 0012 report.

Supplement 0013 report, DMV information on William Lakey and Interview of Lakey.

Supplement 0014 report, DMV information on Jerry Yantis and Jeanne Howe.

Supplement 0015 report, DMV information on Kevin Darrah and Darrah's Facebook.

Supplement 0016 report, DMV information on Courtney Stanford and drawing.

Supplement 0017 report, DMV information on Rowdy Paradis and Interview of Rowdy

Paradis, Joe Rumsey and Mike Armistead.

Supplement 0018 report, DMV information on Wendy Hafer, Ross Scene photo and Interview of Wendy Hafer and Ross.

Supplement 0019 report.

Supplement 0020 report and Rolands' body cam forensic data.

Supplement 0021 report and Woods' body cam forensic data.

Supplement 0022 report and photos of Necropsy.

Supplement 0023 report and Interview of Conaway.

Supplement 0024 report.

Supplement 0025 report and photos of Rolands' Duty Gear.

Supplement 0026 report and DMV information on Jacob Qualls.

Supplement 0027 report, DMV information on William Evanow and Interview of

Evanow.

Supplement 0028 report.

Supplement 0029 report, DMV information on Cody Roland, Interview of Roland and

Drawing.

Supplement 0030 report, DMV information on Kenneth Felty and Interview of Felty.

Supplement 0031 report and photos of pavement evidence.

Supplement 0032 report, Interview of Paradis (2nd) and Rowdy statement.

Supplement 0033 report, DMV information of Donna Yantis, Interview of Donna Yantis

and Drawing.

Supplement 0034 report.

Supplement 0035 report and photos of Yantis' rifle.

Supplement 0036 report.

Supplement 0037 report, DMV information on Brian Wood, Interview of Wood and

drawing.

Supplement 0038 report.

Supplement 0039 report and Autopsy photos of Jack Yantis.

Supplement 0040 report, DMV information on Royce Bauer and Interview of Bauer. Supplement 0041 report, DMV information on Shawn Stanford and Interview of

Stanford.

Supplement 0042 report, DMV information on Joseph Rumsey, Interview with Rumsey

and drawing.

Supplement 0043 report, Dispatch audio and phone calls and incident summaries.

Supplement 0044 report.

Supplement 0045 report, Wood walk-through and Roland walk-through.

Supplement 0046 report and transcribed audio. Supplement 0047 report and transcribed audio.

Supplement 0048 report.

Supplement 0049 report and transcribed audio. Supplement 0050 report and transcribed audio.

Supplement 0051 report, DMV information on Jack Yantis, Repository, Judicial Records and electronic storage device.

Supplement 0052 folder only. Supplement 0053 folder only. Supplement 0054 report.

## Case File Update on 12/17/2015

Included:

Crime scene photos for Supplement 0036.

Supplement 0056 report and Scale Diagrams.

Supplement 0057 report.

Adam's County Coroner's Autopsy report.

FBI Lab

ISP Forensic Firearm and Tool mark report.

## Case File Update on 1/14/2016

Included:

ISP Evidence Receipt.

Lab Receipts from RJ Lee Group, ISP Forensic Lab and ATF National Tracing Center.

Supplement 0052 report, Canyon County file on Roland and email reply from Canyon

County Human Resources Department.

Supplement 0053 report, Documentation on Wood from following agencies: Adam's County Sheriff's Office, McCall Police Department and POST.

Supplement 0055 report and DMV photo/info on following subjects that were

Interviewed: Rise Smith (audio included), Angela Glemser (audio included), Sheena Wellard (audio included), Annie Eich, Arthur Francis, Cindy Minder, Crissy Gipe, Douglas Buys, Jason Demaray, Jeffrey Roff, Johnny Brown, Larry Steckelberg, Marcille Combs, Melissa Noah, Meredith Bakula, Peter Oconner, Roger Combs, Sandra Sova, Shanna Roff, Skyler Vernon, Sue Lambert and Susan Gregersen.

Supplement 0058 report.

Supplement 0059 report.

Update for Supplement 0021 which included Axon Body Camera analysis and Taser Protect Life report.

Update for Supplement 0022 which included Necropsy report.

## Case File Update on 2/16/2016

Included:

Financial Receipts.

ISP Forensic Lab Receipts.

Update for Supplement 0022 - Final Necropsy update

Supplement 0060 report and Axon bodycam documents.

Supplement 0061 report, Phillips Interview Transcript and DMV information on Phillips.

Supplement 0062 report, Emails from Gee Law Group and DMV information on Wood

and Gee.

Supplement 0063 report.
