**Re: Cybersecurity Incident Involving the North Carolina Board of Examiners for Engineers and Surveyors**

Dear Attorney General Labrador:

Wilson Elser Moskowitz Edelman and Dicker LLP ("Wilson Elser") represents the North Carolina Board of Examiners for Engineers and Surveyors ("the Board"), a state agency which regulates engineering and land surveying in North Carolina, with respect to a recent cybersecurity incident first discovered by the Board on February 13, 2026 (hereinafter, the "Incident").

On February 13, 2026, the Board initially discovered that it had inadvertently sent sensitive personal information of its members to two third party organizations. This information was contained in a spreadsheet which was intended to include limited member information for marketing purposes. Upon discovery, the Board requested that both recipient organizations permanently delete the sensitive personal information. The Board has since received written declarations from these organizations confirming the same. Nonetheless, the Board is in the process of identifying and providing notice to the affected individuals who are residents of Idaho pursuant to applicable State law.

The Board takes the security and privacy of the information in its control very seriously and has taken steps to prevent a similar incident from occurring in the future. If you have any questions or need additional information, please do not hesitate to contact me at [Anjali.Das@WilsonElser.com](mailto:Anjali.Das@WilsonElser.com) or 312-821-6164.

Very truly yours,

**Wilson Elser Moskowitz Edelman & Dicker LLP**
