DIVISION

You don't often get email from bcastleton@tfid.org. [Learn why this is important](#)

This email is to inform you under Idaho Code Section 28-51-105 that the City of Twin Falls, Idaho discovered a breach of its computer network system on or about May 18, 2026. Upon investigation into this breach it was discovered that the personal information (as defined in I.C. Section 51-104(5)) of a single Twin Falls City employee was involved in the breach. The City's IT Department was able to identify the breach itself, the means by which the breach was accomplished, and the scope of the breach in terms of data accessed. The means by which the breach was accomplished has been removed and the City has since revised its policies and practices to avoid this in the future. As of today the City has identified only the single employee's personal information as having potentially been accessed by the breach. This employee has been notified.

I acknowledge this report is untimely under the requirements of Idaho Code Section 28-51-105, and apologize for the same.

Bruce Castleton  
City Attorney  
City of Twin Falls  
208-629-4590
