Re: Notice of Data Security Incident

Dear Attorney General Labrador:

This notice is provided on behalf of Bingham County, Idaho (the "County"). On June 15, 2026, the County discovered suspicious activity related to an employee's email account. The County immediately began working with legal counsel and a nationally recognized cyber security and digital forensics firm to investigate the scope of the incident and mitigate any potential harm.

On June 22, 2026, through its investigation, the County determined that an unknown actor had obtained access to the employee's email account and had potentially acquired a small number of emails. On June 30, 2026, through a review of the impacted emails, the County discovered that some of the emails contained personal information, as defined by Idaho law. As a result, the County will be providing written notice to a total of twelve individuals, together with an offer of complimentary credit monitoring.

Please do not hesitate to contact me if you have any questions or concerns.

Sincerely,

Matthew H. Meade, Esq.
