Re: Notice of Data Security Incident

To Whom It May Concern:

We represent Meadows Valley School District No. 11 ("MVSD") located at 500 N. Miller Ave, New Meadows, ID 83654, and are writing to notify your office of a cybersecurity incident that may affect the security of certain personal information relating to Idaho residents. The investigation into this matter is ongoing, and this notice will be supplemented with any new significant facts learned subsequent to its submission. By providing this notice, MVSD does not waive any rights or defenses regarding the applicability of Idaho law, the applicability of the Idaho data event notification statute, or personal jurisdiction.

Nature of the Data Event

On or about October 2, 2026, MVSD identified suspicious activity on certain computer systems within its network (the "Incident"). MVSD immediately launched an investigation to determine the nature and scope of the Incident.

The ongoing investigation determined that an unauthorized actor potentially accessed and/or acquired certain files within MVSD's network. An initial review determined that certain files potentially contain data related to Idaho residents. MVSD is working with third-party cybersecurity specialists to further investigate and conduct a detailed review of all the files to determine what, if any, information related to Idaho residents is present and to whom it relates. Notice to your Office will be supplemented at the conclusion of the investigation.

Should you have any questions regarding this notification or other aspects of the Incident, please contact us at (267) 930-4873.

Very truly yours,

James McCarrick of
